Hornby Zeller Associates, Inc.

TABLE OF CONTENTS

Executive Summaryi

Part I: Performance Indicators 1

 Percentage of Children with True Allegations of Child Maltreatment
 Three Months, Six Months and One Year after a Previous
 True Report.....2

 Percentage of Foster Families with True Reports
 of Maltreatment.....3

 Percentage of Children Receiving Supportive Services and Protective
 Services who were Abused or Neglected within One Year of the
 Initiation of Services.....4

 Percentage of Children Receiving Supportive Services and Protective
 Services who Entered Care within One Year of Initiation of Services...5

 Percentage of Children Entering Foster Care who Returned Home within
 Eighteen Months.....6

 Percentage of Children in Foster Care who have Experienced Two or Fewer
 Placements.....7

 Percentage of Siblings in Foster Care who are Placed Together.....8

 Percentage of Children Who Were Adopted Within One Year of Having Their
 Goal Changed to Adoption.....9

 Children Placed in Pre-adoptive Homes whose Adoptions were Finalized
 within Twelve Months of Entering Placement 10

Part II: Compliance Index 11

 Timely Initiation of Child Maltreatment Assessments 12

 Timely Completion of Child Maltreatment Assessments 13

 24- and 72-Hour Initial Health Screenings..... 14

 Comprehensive Health Assessments 15

 Foster Home Recruitment 16

 Foster Home Re-evaluations..... 16

 Required Visits Made by Worker..... 17

Part III: Description of Population and Services 18

Section I: True Child Maltreatment Reports..... 19

 Child Maltreatment Assessments..... 19

 Characteristics of Children in True Maltreatment Reports.....20

 Children Involved in Allegations of True Maltreatment Reports.....22

Section II: Foster Care 23

 Characteristics of Children in Foster Care.....23

 Entries into Foster Care27

 Exits from Foster Care30

 Permanency Goals of Children in Foster Care.....33

 Length of Stay of Children in Foster Care34

 Number of Placements of Children in Foster Care35

Characteristics of Children who Experienced Three or More Placements ...	36
Current Placement of Children in Foster Care	38
Characteristics of Children on Runaway Status at the End of the Year	39
Characteristics of Children in Relative Care.....	41
Section III: Adoption	43
Characteristics of Children with the Permanency Goal of Adoption at the End of the Year.....	43
Characteristics of Children whose Parents have had Parental Rights Terminated During the Year.....	45
Characteristics of Children Available for Adoption at the End of the Year	47
Current Placement of Children Available for Adoption	49
Characteristics of Children Placed in Pre-adoptive Homes	50
Children not Placed in Pre-adoptive Homes who are Available for Adoption	52
Special Needs	52
Characteristics of Children with Finalized Adoptions.....	53
Subsidized Adoptions.....	55
Characteristics of Children who Receive Adoption Subsidies	55
APPENDICES.....	57

EXECUTIVE SUMMARY

The Annual Report Card (ARC) is distributed to agency managers and to the legislative committees dealing with children and youth. The ARC for State Fiscal Year (SFY) 2012 consists of three parts:

1. **Performance Indicators**, which provide information on service outcomes, such as:
 - a. *Percentage of Children with True Allegations of Child Maltreatment Three Months, Six Months and One Year After a Previous True Report*
 - b. *Percentage of Siblings in Placement who are Placed Together*
 - c. *Percentage of Children Adopted within 12 Months of Having Their Goal Changed to Adoption*

2. **Compliance Index**, which reports on the Division's compliance with requirements set by DCFS with guidance from the Arkansas legislative children and youth committees, such as:
 - a. *Timely Completion of Child Maltreatment Assessments*
 - b. *24- and 72-Hour Initial Health Screenings for Children Entering Foster Care*
 - c. *Foster Home Recruitment*

3. **Description of Population and Services**, which describes the children who were the subjects of maltreatment reports, served in foster care and/or provided adoption services, such as:
 - a. *Types of Allegations in Child Maltreatment Reports*
 - b. *Permanency Goals of Children in Foster Care*
 - c. *Characteristics of Children Placed in Adoptive Homes*

The ARC provides this information on a yearly basis, showing trends over time. Descriptions of the client population at the various service stages are provided as well, so that the agency has information on populations to target to improve performance as well as issues important to the safety, permanency and well-being of those served.

Part I: Performance Indicators

The Division of Children and Family Services (DCFS) has established nine performance indicators to measure progress with regard to its major goals of child safety, permanency and well-being.

There were no noteworthy areas in this section during the fiscal year.

Part II: Compliance Index

DCFS has set compliance measures with guidance from the House Committee on Aging, Children and Youth, Legislative and Military Affairs and the Senate Interim Committee on Children and Youth. An index is compiled by reporting the level of compliance with these measures.

The Division improved in four areas regarding compliance requirements this fiscal year.

- Timely Initiation of Investigations

Of the child maltreatment assessments assigned to DCFS, agency staff initiated **86 percent** of the investigations on time, an increase of two percentage points from SFY 2011 (84%) while remaining below the compliance goal of 95 percent.

- Timely Completion of Child Maltreatment Assessments

Of the investigations assigned to DCFS during SFY 2012, **64 percent** were completed within the required 30-day period, an increase of five percentage points from SFY 2011 (59%), though still well below the goal of 90 percent. There has been a steady increase in compliance with respect to timely completion of investigations from SFY 2009 (50%).

- 24-Hour and 72-Hour Initial Health Screenings

Of the children who required an initial health screening within 24 hours of entering foster care, **67 percent** received their screenings in a timely manner. The compliance rate for SFY 2012 is 13 percentage points higher from SFY 2011 (54%) but below the Division's goal of 95 percent compliance.

Of the children who required an initial health screening within 72 hours of entering foster care, **78 percent** received their screenings in a timely manner during SFY 2012. The compliance rate is an increase of 10 percentage points from SFY 2011 (68%) but below the Division's goal of 95 percent compliance.

- Required Visits Made by Worker

Caseworkers statewide made **60 percent** of their required monthly visits to see children in foster care during SFY 2012, which was one

percentage point more than the rate reported for SFY 2011 (59%) and below the goal of 85 percent.

While the Division improved in four areas, there was one area which resulted in a decline in compliance during SFY 2012.

- Foster Home Recruitment

The percentage of foster homes recruited during SFY 2012 stood at **156 percent** of the compliance goal (320 homes), 10 percentage points lower than SFY 2011 (166%).

Part III: Description of Population and Services

This section describes the number and status of maltreatment assessments, children who were subjects of maltreatment reports, children who were served in foster care and children who received adoption services.

- Children in Foster Care

The total number of children in foster care between the ages of zero and five increased by **90 percent** from SFY 2001 (1,748 children) to SFY 2012 (3,317 children). The total number of children in foster care including all ages increased only 36 percent from SFY 2001 (5,704 children) to SFY 2012 (7,739 children).

The total number of children in foster care decreased between SFY 2011 and SFY 2012. Specifically, the number of children decreased by **seven percent** from SFY 2011 (7,959) to SFY 2012 (7,439).

PART I: PERFORMANCE INDICATORS

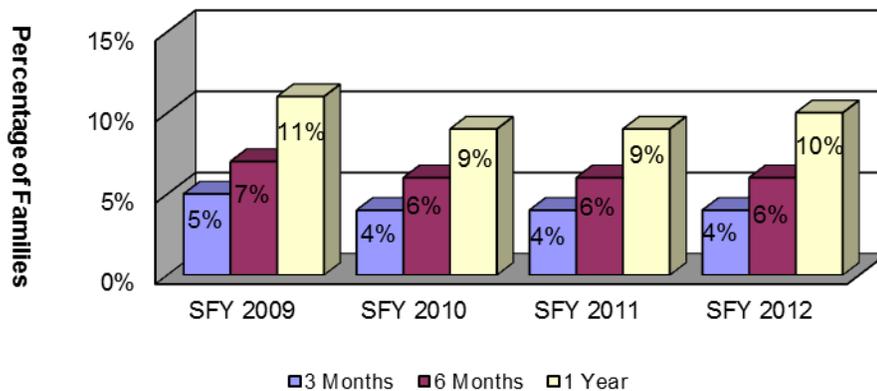

The Division has established nine performance measures to indicate levels of achievement of its major goals of child safety, family preservation and permanency:

- Percentage of children with true allegations of child maltreatment three months, six months and one year after a previous true report;
- Percentage of foster families with true reports of maltreatment;
- Percentage of children receiving Supportive Services or Protective Services who were abused or neglected within one year of the initiation of services;
- Percentage of children receiving Supportive Services or Protective Services who entered foster care within one year of the initiation of services;
- Percentage of children in foster care who returned home within 18 months;
- Percentage of children in foster care who have experienced two or fewer placements;
- Percentage of siblings in foster care who are placed together;
- Percentage of children who were adopted within one year of having their goal changed to adoption; and
- Number of children placed in pre-adoptive homes whose adoption were finalized within 12 months of entering a pre-adoptive placement.

Percentage of Children with True Allegations of Child Maltreatment Three Months, Six Months and One Year after a Previous True Report

Of the 8,632 children who were involved in a true report of maltreatment between July 2010 and June 2011, 366 (4%) experienced a repeat true report of maltreatment within three months of the initial report, 534 (6%) were involved in a repeat true report within six months of the original report, and 845 (10%) were involved in a repeat true report within 12 months of the first report. The number of children who experienced a recurrence of maltreatment has remained fairly consistent over the last four fiscal years, varying only by one to two percentage points.

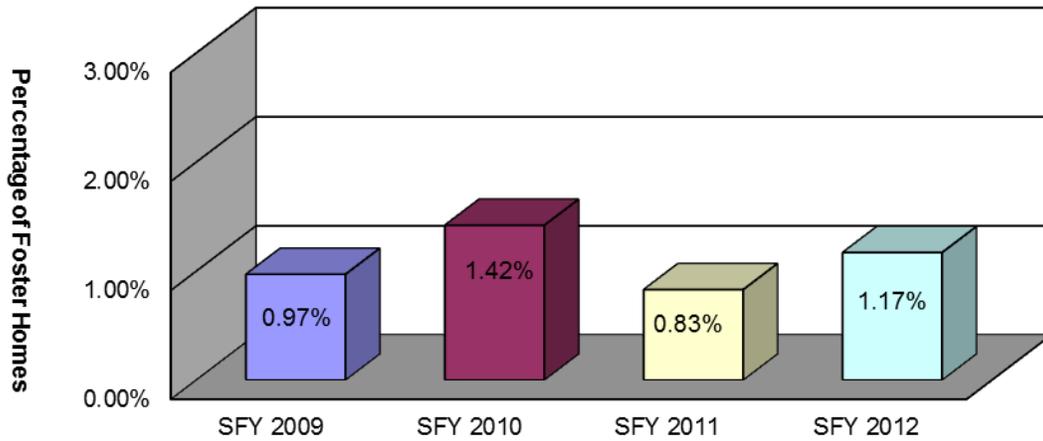

Chart 1: Percentage of Families with True Allegations of Child Maltreatment within 3 Months, 6 Months and One Year after a Previous True Report

Percentage of Foster Families with True Reports of Maltreatment

There were 149 foster home maltreatment reports received during SFY 2012. Of those, 25 were found to be true. Based on the 2,134 DCFS foster homes¹ open during the year, the percentage of foster families with a true report of maltreatment was 1.17 percent. This is up 0.34 percentage points from SFY 2010 (.83%).

Chart 2: Percentage of Foster Families with True Reports of Maltreatment

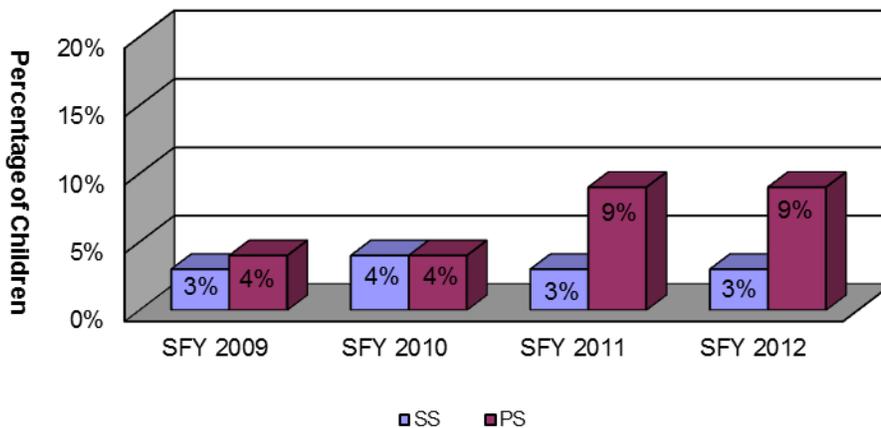

¹ This includes family and therapeutic foster homes.

Percentage of Children Receiving Supportive Services and Protective Services who were Abused or Neglected within One Year of the Initiation of Services

There were 1,578 children who began receiving supportive services (SS) between July 2010 and June 2011. Of those children, 44 (3%) were involved in a true maltreatment report within one year of the initiation of services. There were 11,702 children who began receiving protective services (PS) during that same time period; of those children, 1,006 (9%)² experienced a true report of maltreatment within one year.

Chart 3: Percentage of Children Receiving PS, SS or IFS Services who were Abused or Neglected within One Year of Initiation of Services

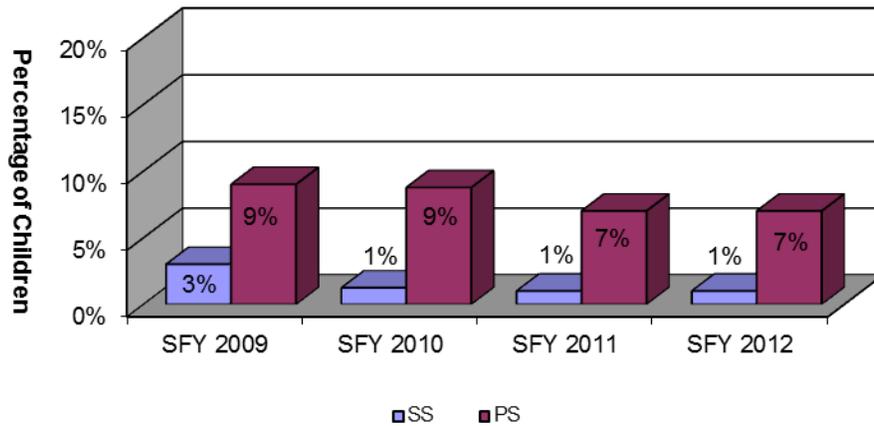

² Beginning with the first quarter of SFY 2011, a new methodology was utilized to measure this percentage. The population is now limited to in-home cases only.

Percentage of Children Receiving Supportive Services and Protective Services who Entered Care within One Year of Initiation of Services

Of the 1,578 children who began receiving supportive services between July 2010 and June 2011, only 17 (1%) entered foster care within one year of the initiation of those services. Of the 11,702 children who began receiving protective services during that same time period, 861 (7%) entered foster care within one year of the initiation of services.

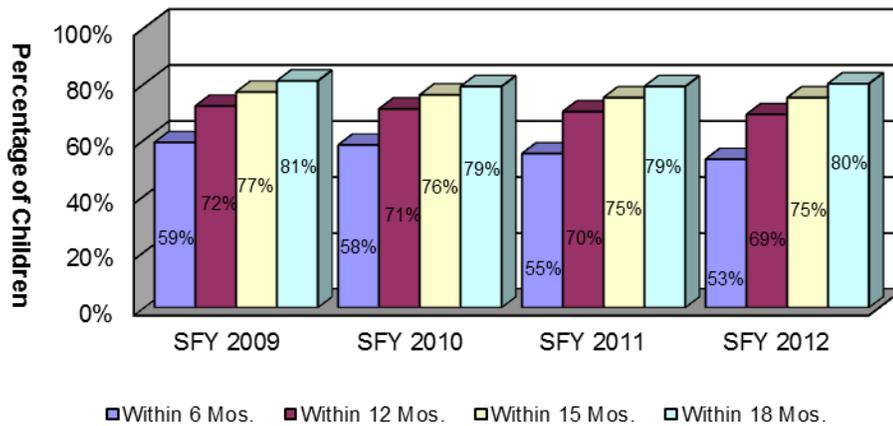

Chart 4: Percentage of Children Receiving SS, PS or IFS Services who Entered Foster Care within One Year of Initiation of Services

Percentage of Children Entering Foster Care who Returned Home within Eighteen Months

There were 4,038 children who entered foster care between January 2010 and December 2010.³ Of those, 2,144 children (53%) returned home within six months, 2,806 children (69%) returned home within 12 months, 3,041 children (75%) returned home within 15 months, and 3,220 children (80%) returned home within 18 months of entering foster care.

Chart 5: Percentage of Children Entering Foster Care who were Returned Home within Eighteen Months

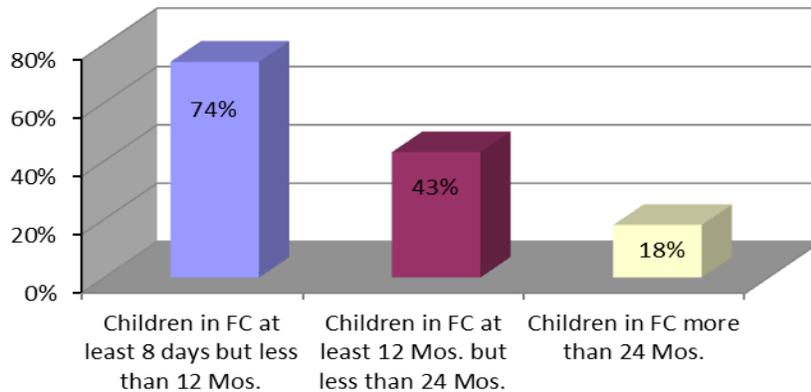

³ The 2010 calendar year was used for this analysis to provide up to 18 months to measure time to reunification.

Percentage of Children in Foster Care who have Experienced Two or Fewer Placements

Placement stability of children in foster care is measured by the percentage of children with two or fewer placements who are in care for varying lengths of time. Of the children in foster care at the end of SFY 2012 who were in care for less than 12 months, 74 percent experienced two or fewer placements; the national standard is 86 percent. Of the children in foster care between 12 and 24 months, 43 percent had two or fewer placements; the national standard for this population is 65.4 percent. Finally, of the children who were in foster care for over two years, only 18 percent experienced two or fewer placements during their stay in foster care, with the national standard for this population being 41.8 percent.

Chart 6: Children in Foster Care who have Experienced Two or Fewer Placements

	SFY 2011		SFY 2012	
	Count	Percentage	Count	Percentage
Children in FC at least 8 days but less than 12 months	1,590	73%	1,556	74%
Children in FC at least 12 months but less than 24 months	387	42%	401	43%
Children in FC more than 24 months	195	19%	172	18%

Percentage of Siblings in Foster Care who are Placed Together

At the end of SFY 2012, 1,949 children were in foster care who had siblings who were also in care. Of those children, 1,276 (65%) were placed with at least one of their siblings, while 868 (45%) were placed with all of their siblings. These figures do not exclude children who have been placed separately for valid reasons such as safety issues or court orders.

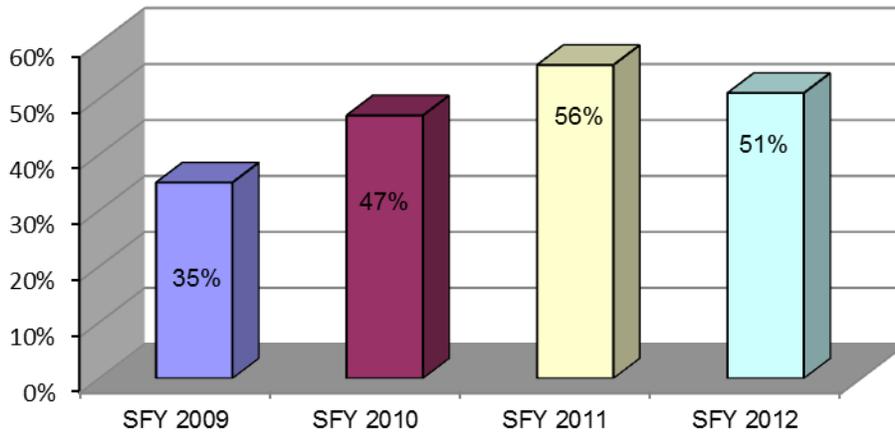

Chart 7: Percentage of Siblings in Foster Care who are Placed Together

Percentage of Children Who Were Adopted Within One Year of Having Their Goal Changed to Adoption

Of the 559 children whose goals were changed to adoption during the previous fiscal year, 284 children (51 percent) were adopted within one year of the goal change.

Chart 8: Percentage of Children Who Were Adopted Within One Year of Having Their Goal changed to Adoption

Children Placed in Pre-adoptive Homes whose Adoptions were Finalized within Twelve Months of Entering Placement

There were 468 children who were placed in pre-adoptive homes between July 2010 and June 2011, an increase from the number of children placed in such homes during the previous year (386). Of the 468 children, 406 (87%) had their adoptions finalized within 12 months of being placed in their pre-adoptive homes.

Thirty-three (7%) of the children who were placed in pre-adoptive homes experienced a disruption, many of which were later placed in different pre-adoptive homes. A disruption occurs when a child has been placed in a pre-adoptive home and the family or the child decides not to proceed with the adoption and the child leaves the pre-adoptive home.

The adoption was still pending finalization 12 months after the placement for 41 children (9%).

Table 1: Children Placed in Pre-adoptive Homes during SFY 2012 whose Adoptions were Finalized within 12 Months of Entering Placement

Status	SFY 2011		SFY 2012	
	Number	Percentage	Number	Percentage
Finalized Adoption within 12 Months	344	89%	406	87%
Disrupted Adoptive Placements	28	7%	33	7%
Children with a Disruption who were Replaced in a Pre-adoptive Home	14	4%	20	4%
Still Pending at the End of the Year	22	6%	41	9%

PART II: COMPLIANCE INDEX

The Division has set compliance measures with guidance from the Joint Interim Committee on Children and Youth. An index is compiled by reporting the level of compliance with these measures.

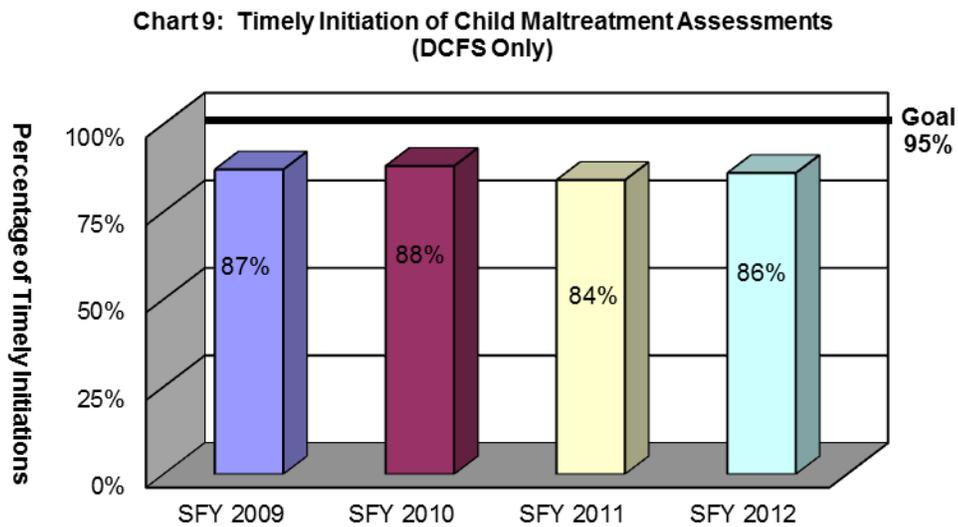

Goal Compliance Measure

- 95%** ***Timely Initiation of Child Maltreatment Assessments.*** The investigator interviews or observes the victim child outside the presence of the alleged offender within 24 hours of any alleged severe maltreatment or within 72 hours otherwise.
- 90%** ***Timely Completion of Child Maltreatment Assessments.*** A determination must be made regarding an allegation of child maltreatment within 30 days of receipt of the allegation.
- 95%** ***24-Hour Initial Health Screenings.*** The screening is conducted within 24 hours after removal from the home on children who enter foster care due to an allegation of severe maltreatment, or if there is evidence of acute illness or injury.
- 95%** ***72-Hour Initial Health Screenings.*** This screening is conducted within 72 hours after removal from the home on all children who enter foster care who are not subject to the 24 hour screening.
- 95%** ***Comprehensive Health Assessments.*** Within 60 days of a child's entering foster care, an evaluation of their physical and mental health status must be completed.
- 320 Homes** ***Foster Home Recruitment.*** DCFS must ensure a sufficient number and variety of foster homes are available which meet minimal standards and match the needs and characteristics of foster children.
- 95%** ***Foster Home Re-evaluations.*** DCFS must re-evaluate, at least annually, each foster home's ability to care for children.
- 85%** ***Required Visits Made by Worker.*** DCFS must provide data on the percentages of required weekly visits made by DCFS workers to children in foster care.

Timely Initiation of Child Maltreatment Assessments

There were 35,743 referrals for child maltreatment assessments during SFY 2012. Of that number, 29,954 (84%) referrals were assigned to DCFS for investigation of which 25,654 assessments were initiated within the required period. This resulted in a compliance rate of 86 percent, which was an increase from SFY 2011 (84%).

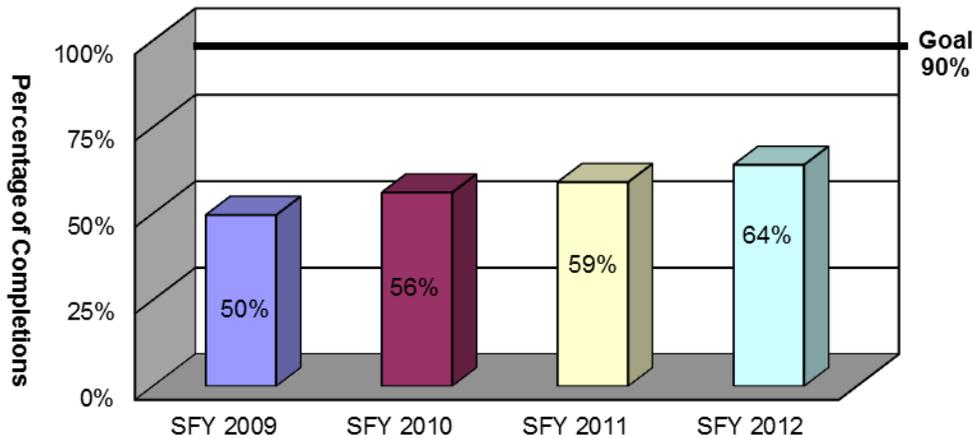

The Crimes Against Children Division (CACD) of the Arkansas State Police was responsible for handling the remaining child abuse referrals. CACD was responsible for 5,789 investigations (16 percent of the total incoming investigations) during SFY 2012. Of those, 5,429 referrals (94%) were initiated in a timely manner.

Timely Completion of Child Maltreatment Assessments

Of the 29,954 assessments initiated by DCFS during SFY 2012, 19,138 were completed within the required 30-day period. This resulted in a compliance rate of 64 percent, representing a steady increase from SFY 2009 (50%) but still well below the goal of 90 percent.

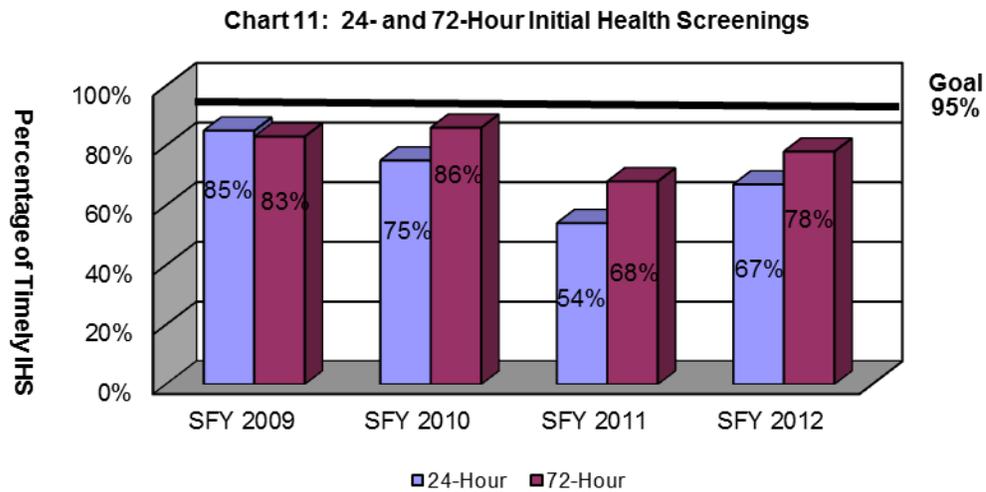

Chart 10: Timely Completion of Child Maltreatment Assessments

24- and 72-Hour Initial Health Screenings

If a child enters foster care due to an allegation of severe maltreatment or if there is evidence of acute illness or injury, an initial health screening must be conducted within 24 hours of the child’s removal from the home. Of the 1,297 children who required the 24-hour health screening during SFY 2012, 875 (67%) received the screening in a timely manner. The compliance rate was 13 percentage points higher than the rate reported for SFY 2011 and below the goal of 95 percent.

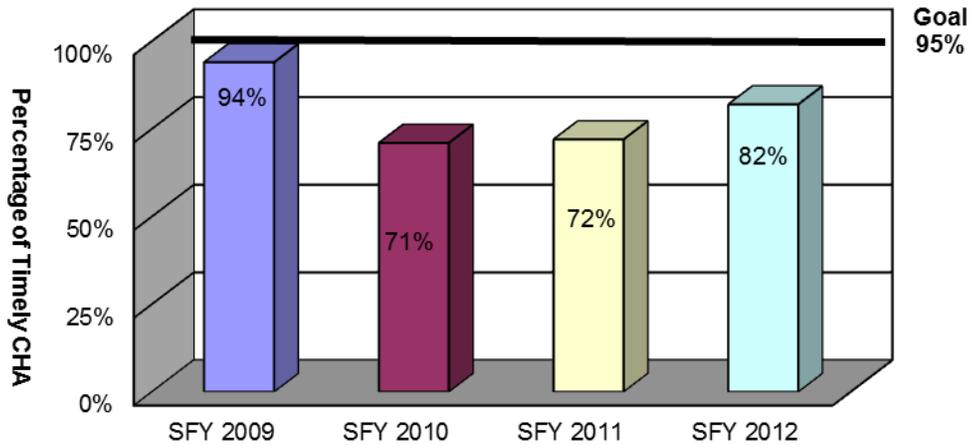

All children entering foster care who do not require the initial 24-hour health screening must undergo an initial health screening within 72 hours of their removal. Of the 2,524 children who required their health screening to be completed within 72 hours, 1,966 (78%) received their screenings in a timely manner, a result which was also represents an increase in compliance.

Comprehensive Health Assessments

All children who enter foster care must receive a comprehensive health assessment to evaluate their physical and mental health status within 60 days of entering foster care. There were 2,249 children who entered foster care between May 2011 and May 2012 who remained in care for at least 60 days. Of those children, 1,855 received their comprehensive health assessment within 60 days of entering care. The resulting compliance rate of 82 percent represents an increase from SFY 2011 but remains below the goal of 95 percent.

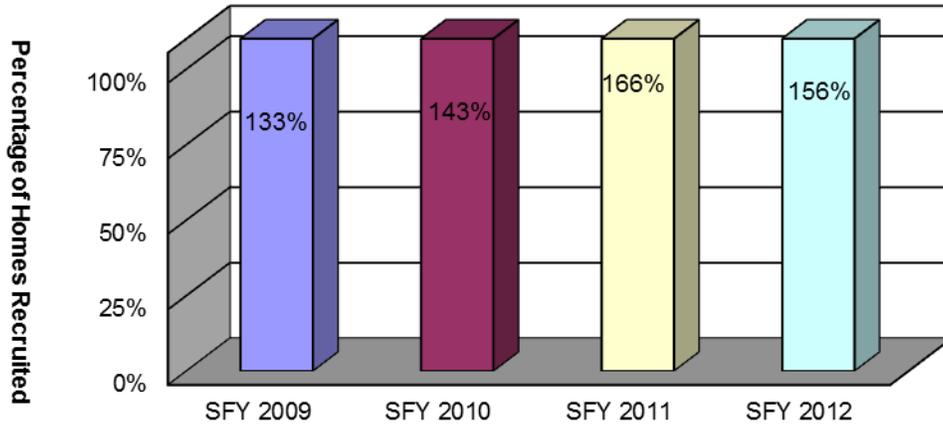

Chart 12: Comprehensive Health Assessments

Foster Home Recruitment

There were 500 new foster homes recruited during SFY 2012. This was 180 foster homes more than the goal of 320 new homes for the year. This number resulted in a compliance rate of 156 percent. During the same timeframe, however, 480 foster family homes were closed.

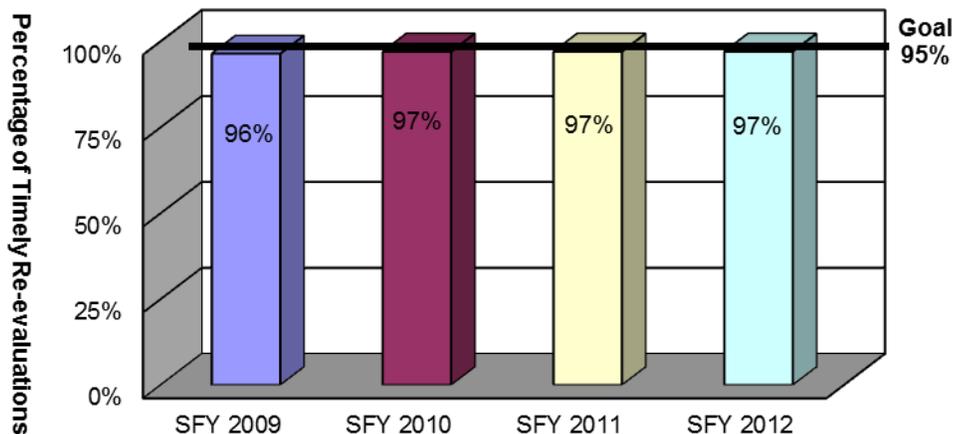

Chart 13: Foster Home Recruitment

Foster Home Re-evaluations

On an annual basis, at a minimum, DCFS is required to re-evaluate each foster home’s ability to care for its children. Of the 1,150 DCFS foster homes that were active at the end of the year, 1,113 had a recently completed re-evaluation. The resulting compliance rate was 97 percent, same as SFY 2011, and above the goal of 95 percent compliance.

Chart 14: Foster Home Re-evaluations

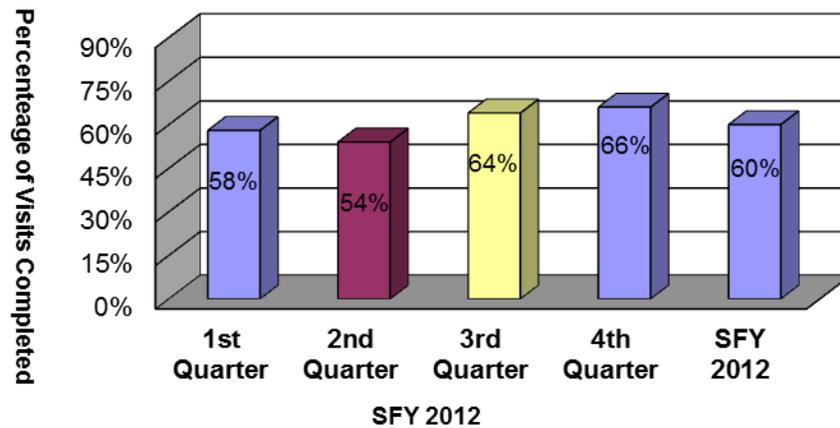

Required Visits Made by Worker

DCFS acknowledges the importance of worker contact with children in foster care and believes that these visits should be conducted face-to-face in the children’s placement setting, at least once per month.

During SFY 2012, the percentage of children who received monthly visits during the year averaged 60 percent. This signified a one percentage point increase in the percent of monthly visits completed during SFY 2011 (59%).

Chart 15: Required Foster Care Monthly Visits Made by Worker

PART III: DESCRIPTION OF POPULATION AND SERVICES

This section describes the number and status of maltreatment assessments, children who were served in foster care and children who were provided adoption services.

Section I outlines the characteristics of children, such as age, gender and ethnicity, in true maltreatment reports. Additionally, this section describes the types of allegations in maltreatment reports.

Section II describes the foster care population, specifically the characteristics of children in foster care, entries and exits of children in foster care, reasons children came into care, lengths of stay for children in foster care and relative care, placements of children in foster care and the number of placements children experience while in care.

Section III focuses on adoption data such as the characteristics of children available for adoption, current placements of those children, characteristics of children placed in adoptive homes, children whose parents have had their parental rights terminated but have not been placed in an adoptive home, finalized adoptions and adoption subsidies.

Appendix F provides an area and county breakdown for Foster Care, Protective Service and Supportive Service cases.

Part III: Description of Population and Services
Section I: True Child Maltreatment Reports

Child Maltreatment Assessments

There were 35,743 maltreatment assessments received during SFY 2012, a three percent increase from SFY 2011 (33,849). Of those, 8,030 reports (23%) were found to be true, a rate which is just below the national percentage (23.7%).⁴ There were 10,927 victim children involved in the reports determined to be true during the year. (See Appendix A for an area and county breakdown).

Table 2: Child Maltreatment Assessments

	Total Assessments	True Assessments	Percent True
SFY 2012	35,743	8,030	23%
SFY 2011	33,849	8,573	25%
SFY 2010	32,915	7,831	24%
SFY 2009	30,191	6,701	22%

	DCFS			CACD		
	Total Assessments	True Assessments	Percent True	Total Assessments	True Assessments	Percent True
SFY 2012	29,954	5,925	20%	5,789	2,105	36%
SFY 2011	27,471	5,984	22%	6,378	2,589	41%
SFY 2010	26,215	5,164	20%	6,700	2,667	40%
SFY 2009	23,801	4,138	17%	6,390	2,563	40%

⁴ Source: Child Maltreatment 2008, Reports from the States to the National Child Abuse and Neglect Data System, U.S. Department of Health and Human Services, Administration for Children and Families, Administration on Children, Youth and Families, Children’s Bureau.

Characteristics of Children in True Maltreatment Reports

As indicated above, 10,927 victim children were involved in true reports of maltreatment during SFY 2012. This number represents a seven percent decrease from the number of children involved in a true report from SFY 2011 (11,746 children).⁵

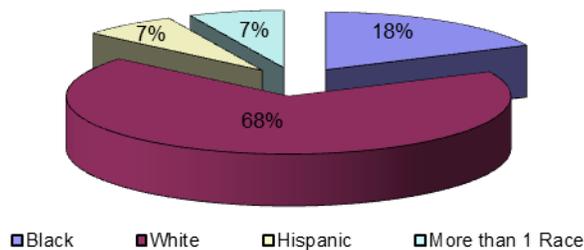

Table 3: Characteristics of Children in True Maltreatment Reports SFY 2012

Age	Gender	White	Black	Asian	AIAN	NAPI	Hispanic	More Than 1 Race	Total
0 to 1	Female	337	107	1	0	0	30	33	508
	Male	358	96	0	0	0	39	56	549
2 to 5	Female	856	237	1	1	3	118	104	1,320
	Male	952	256	2	1	11	115	123	1,460
6 to 11	Female	1,306	326	3	1	6	120	111	1,873
	Male	1,198	316	2	2	8	126	129	1,781
12 to 15	Female	931	245	5	2	5	76	70	1,334
	Male	594	127	0	1	3	45	53	823
16 to 18	Female	278	148	2	1	2	47	43	749
	Male	506	74	0	0	3	21	20	396
18+	Female	0	0	0	0	0	0	0	0
	Male	1	0	0	0	0	0	0	1
Total*		7,317	1,932	16	9	41	737	742	10,794

*Demographic information was not entered into CHRIS for 133 children.

The chart below shows that 66 percent of the children involved in true maltreatment reports were white, while 18 percent were black and seven percent were Hispanic. These are similar to the percentages from SFY 2011.

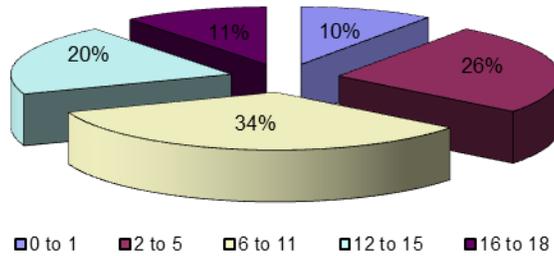

Chart 16a: Race/Ethnicity of Children in True Maltreatment Reports

⁵ The table above, and each subsequent demographic table, divides counts of children by race and ethnicity, into the following categories: “Hispanic,” “More than One Race,” “Asian” (includes Indonesian, Cambodian, Hmong and Vietnamese), “AIAN” (includes Native American, Alaskan Native and American Indian) and “NAPI” (includes Native Hawaiian and other Pacific Islanders).

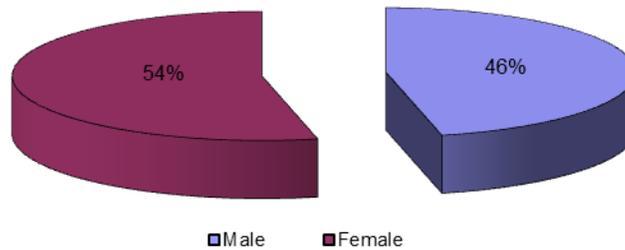

The following chart shows that children between the ages of six and 11 represented the highest percentage of children involved in true reports received during SFY 2012 (34%). These percentages are similar to those from SFY 2011.

Chart 16b: Ages of Children Involved in True Maltreatment Reports

Fifty-four percent of the children involved in true reports were female, while 46 percent were male.

Chart 16c: Gender of Children In True Maltreatment Reports

Children Involved in Allegations of True Maltreatment Reports

The majority of the 10,927 children cited in true maltreatment reports were involved in allegations of neglect (90%) during SFY 2012, followed by reports involving allegations of physical abuse (46%) and sexual abuse (28%).⁶

**Table 4: Percentage of Children Involved in True Allegations of Maltreatment
SFY 2011 – SFY 2012**

	SFY 2011		SFY 2012	
Neglect	10,439	89%	9,832	90%
Physical Abuse	5,124	44%	5,025	46%
Sexual Abuse	3,439	29%	3,076	28%

⁶ The total number represented will outnumber the total children involved in true maltreatment reports because children can be involved in more than one allegation.

Part III: Description of Population and Services
Section II: Foster Care

Characteristics of Children in Foster Care

There were 7,739 children in foster care anytime during SFY 2012, a decrease from SFY 2011 (7,959 children). This count includes children who remained in care from the previous year as well as children who came into care during SFY 2012. (See Appendices B, C and D for an area and county breakdown of demographic information.) The table below describes the characteristics of the children in foster care during the most recent state fiscal year.

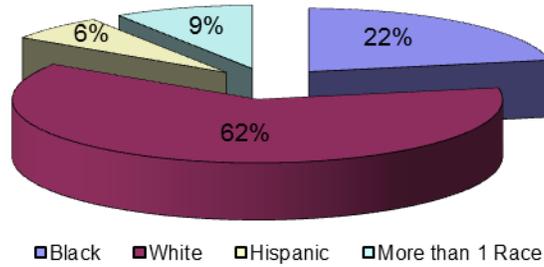

**Table 5: Characteristics of Children in Foster Care During the Year
SFY 2012**

Age	Gender	White	Black	Asian	AIAN	NAPI	Hispanic	More Than 1 Race	Total
0 to 1	Female	349	120	2	0	0	20	45	536
	Male	391	142	2	1	1	29	68	634
2 to 5	Female	667	189	1	0	0	77	109	1,043
	Male	693	222	1	1	2	80	105	1,104
6 to 11	Female	685	222	1	0	2	68	79	1,057
	Male	621	214	1	1	1	70	111	1,019
12 to 15	Female	359	136	1	0	1	35	51	583
	Male	350	119	0	3	0	37	47	556
16 to 18	Female	227	93	1	0	0	25	28	374
	Male	187	94	1	2	1	21	26	332
18+	Female	128	73	0	0	0	22	21	244
	Male	126	72	1	0	0	15	14	228
Total*		4,783	1,696	12	8	8	499	704	7,710

*Demographic information had not been entered into CHRIS for 29 children.

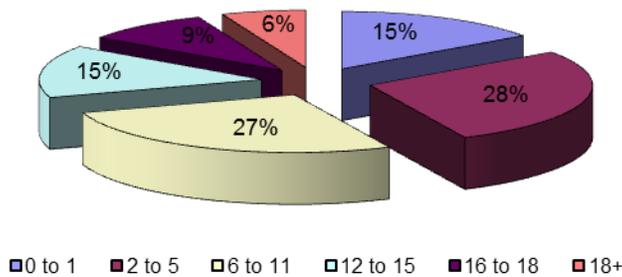

The chart below shows that 62 percent of the children in foster care during the year were white, while 22 percent of the children were black. National data reveal that only 41 percent of the children in the national foster care system were white, while 29 percent of the children were black.⁷

17a: Race/Ethnicity of Children in Care During the Year

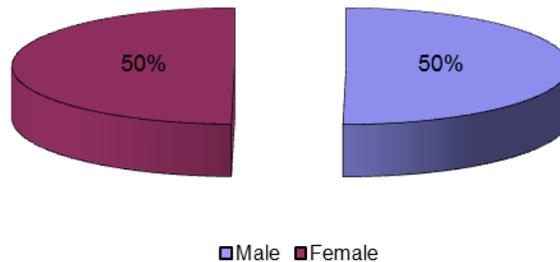

Over half of the children who were in care during the year were between the ages of two and 11 years old.

17b: Ages of Children in Care During the Year

The following chart shows the gender distribution of the children in foster care during the year. Fifty percent of the children were female and 50 percent were male.

17c: Gender of Children in Care During the Year

⁷ Adoption and Foster Care Analysis and Reporting System (AFCARS) preliminary data submitted for children in foster care between 10/1/2009 and 9/30/2010 as of October 2010.

There were 3,997 children in foster care at the end of SFY 2012, a decrease from the 4,105 children in care at the end of SFY 2011. The following table outlines the characteristics of the children in foster care at the end of the latest state fiscal year.

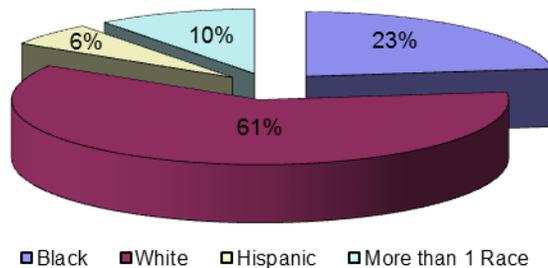

Table 6: Characteristics of Children in Foster Care at the End of the Year SFY 2012

Age	Gender	White	Black	Asian	AIAN	NAPI	Hispanic	More Than 1 Race	Total

*Demographic information had not been entered into CHRIS for 15 children.

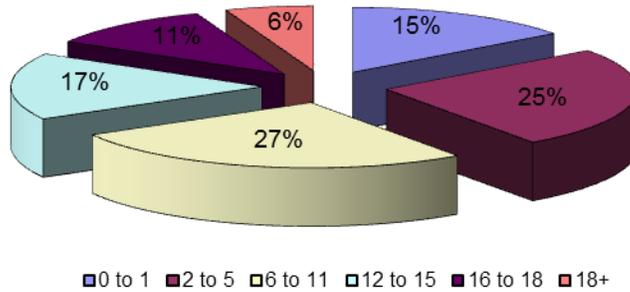

The chart below shows that 61 percent of the children in foster care at the end of the SFY 2012 were white, while 23 percent of the children were black.

18a: Race/Ethnicity of Children in Care at the End of the Year

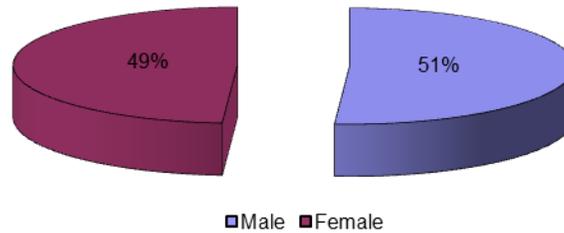

The following chart shows that children between the ages of six and 11 represented the highest percentage of children in care at the end of the year (27 percent). Children ages two to five years represented the second highest percentage of children (25%) who were in care at the end of the fiscal year.

18b: Ages of Children in Care at the End of the Year

The following chart shows the gender breakout of the children in foster care at the end of SFY 2012.

Chart 18c: Gender of Children in Care at the End of the Year

Entries into Foster Care

During SFY 2012, 3,873 children entered foster care. This represents a decrease from the number of children who entered care during the last fiscal year (4,126). The following table outlines the characteristics of the children who entered foster care during SFY 2012.

Table 7: Characteristics of Children who Entered Foster Care During the Year SFY 2012

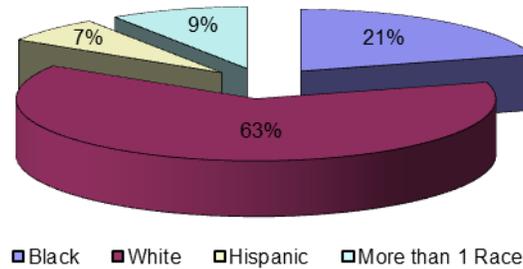

Age	Gender	White	Black	Asian	AIAN	NAPI	Hispanic	More Than 1 Race	Total
0 to 1	Female	263	85	2	0	0	17	36	403

*Demographic information had not been entered into CHRIS for 20 children.

The chart on the following page shows that 63 percent of the children who entered foster care during the year were white, while 21 percent of the children were black. In addition, Hispanic children made up seven percent of the children who entered foster care. National data indicate that 45 percent of the children who entered care were white, 24 percent were black, and 21 percent were Hispanic.⁸

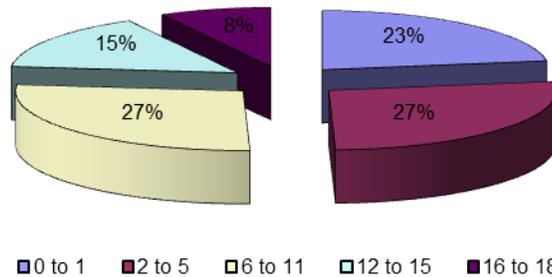

⁸ Adoption and Foster Care Analysis and Reporting System (AFCARS) preliminary data submitted for children in foster care between 10/1/2009 and 9/30/2010 as of October 2010.

Chart 19a: Race/Ethnicity of Children who Entered Care

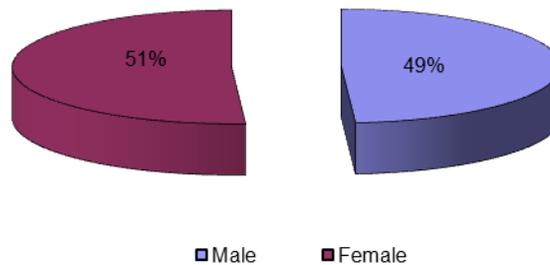

The following chart shows that 77 percent of the children who entered foster care during SFY 2012 were under the age of 12.

Chart 19b: Ages of Children who Entered Care

As shown in the following chart, fifty-one percent of the children were female and 49 percent were male. These percentages are similar to those reported for SFY 2011.

Chart 19c: Gender of Children who Entered Care

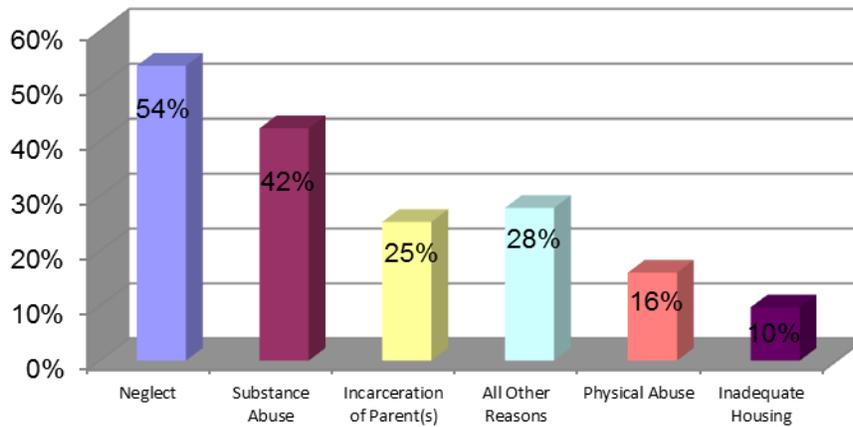

Neglect and substance abuse⁹ were the most prevalent reasons children entered foster care.

Total*	603	1,183	1,055	498	459	82	3,880

*Demographic data had not been entered into CHRIS for 14 children.

The most prevalent reason children left foster care during SFY 2012 was reunification. Approximately two-fifths (42%) of the children exiting care reunified with their families; the result was the same in comparison to SFY 2011 (42%). The second most prevalent reason was relative custody (32%), which experienced a two percentage point decrease from SFY 2011 (34%). Seventeen percent of the children left foster care to adoption. National data indicate that the three most prevalent reasons children exit care are reunification (52%), adoption (19%) and relative care (8%).¹²

Chart 22: Most Prevalent Reasons for Children Exiting Care

¹² Adoption and Foster Care Analysis and Reporting System (AFCARS) preliminary data submitted for children in foster care between 10/1/2007 and 9/30/2008 as of October 2009.

Permanency Goals of Children in Foster Care

The Division maintains two primary goals for children in foster care: safety and permanency. The second of these concerns is expressed by setting a permanency goal for each child in foster care within 30 days of the child entering care. Of the 3,997 children in foster care at the end of the fiscal year, 3,732 children had been in care for at least 30 days. Reunification (return home) remained the most prevalent goal among the children in foster care at 53 percent.

**Table 11: Permanency Goals of Children in Foster Care
SFY 2012**

Length of Stay of Children in Foster Care

For SFY 2012, 59 percent of the children in foster care were in care less than one year. The percentage of children in care for less than a year is slightly lower for those in relative care (57%). Compared to national data, children in the Arkansas foster care system stay in care a substantially shorter amount of time.¹⁴ (See Appendix E for an area and county breakdown.)

Number of Placements of Children in Foster Care

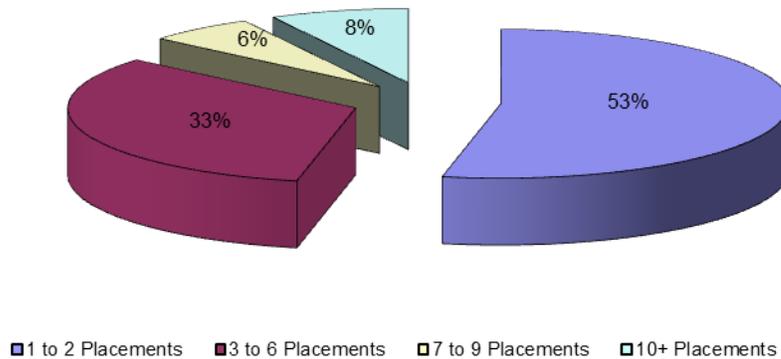

Overall, 53 percent of the children in care at the end of SFY 2012 experienced two or fewer placements. The result is similar to that of the previous SFY. It is not surprising that the likelihood of multiple placements increases the longer children remain in foster care.

**Table 14: Number of Placements of Children in Foster Care
SFY 2012**

More male children (56%) than female children (44%) experienced three or more placements while in care.

Chart 24c: Gender of Children Who Experienced Three or More Placements

Current Placement of Children in Foster Care

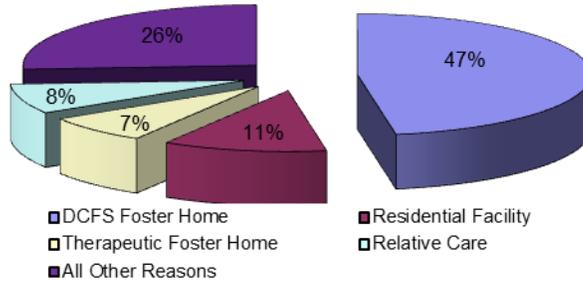

More children who remained in foster care at the end of SFY 2012 were placed in foster homes. Forty-seven percent of the children were in DCFS foster homes. Aside from family foster homes, the most common placement options for children residing in care were residential facilities (11%), and therapeutic foster homes and provisional relative care (7% each).

*Demographic data had not been entered into CHRIS for two children.

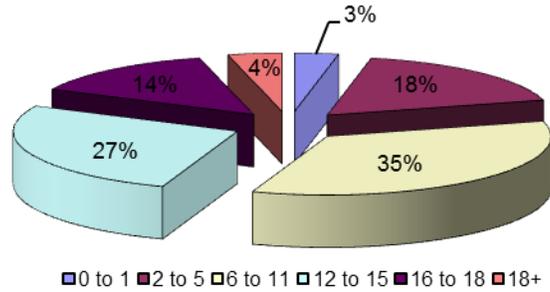

Sixty-six percent of the children whose parents had their parental rights terminated during SFY 2012 were white, while 19 percent of the children were black and five percent were Hispanic.

Chart 29a: Race/Ethnicity of Children whose Parents have had Parental Rights Terminated During the Year

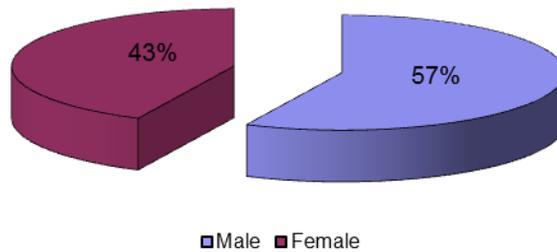

The largest group of children whose parents had their parental rights terminated during SFY 2012 was between the ages of six and eleven (35%).

Chart 29b: Ages of Children whose Parents have had Parental Rights Terminated During the Year

There were more male children (57%) than female children (43%) whose parents' parental rights were terminated as of the end of SFY 2012.

Chart 29c: Gender of Children whose Parents have had Parental Rights Terminated During the Year

Characteristics of Children Available for Adoption at the End of the Year

There were 444 children available for adoption at the end of SFY 2012.

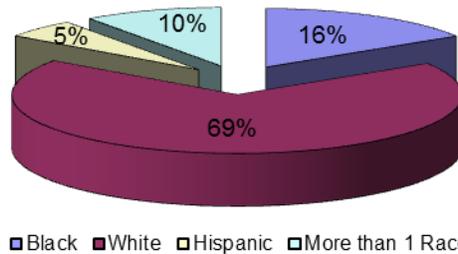

Table 21: Characteristics of Children Available for Adoption at the End of the Year SFY 2012

Age	Gender	White	Black	Asian	AIAN	NAPI	Hispanic	More Than 1 Race	Total

Characteristics of Children Placed in Pre-adoptive Homes

There were 513 children placed into pre-adoptive homes during SFY 2012. This number represented a 19 percent increase from the 430 children placed in pre-adoptive homes during SFY 2011. The characteristics of the children placed during the latest state fiscal year are outlined in the table below.

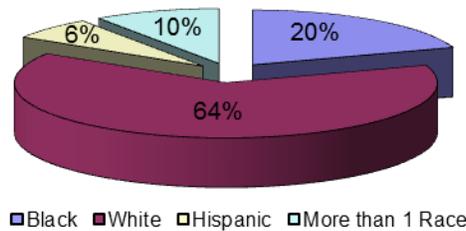

Table 23: Characteristics of Children Placed in Pre-adoptive Homes SFY 2012

Age	Gender	White	Black	Asian	AIAN	NAPI	Hispanic	More Than 1 Race	Total
0 to 1	Female	26	7	0	0	0	1	3	37

16 to 18	Female	2	1	0	0	0	0	1	4
	Male	3	1	0	0	0	0	0	4
Total		326	101	2	0	0	33	49	511

*Demographic data had not been entered into CHRIS for two children.

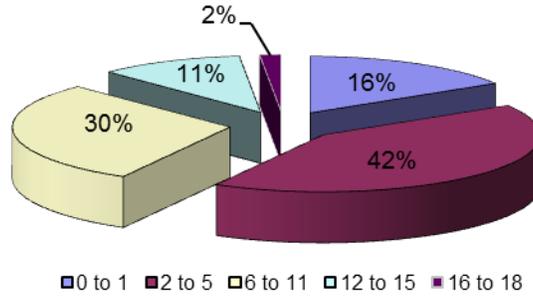

Of the 513 children placed into a pre-adoptive home during the year, 64 percent were white and 20 percent were black.

Chart 31a: Race/Ethnicity of Children Placed in Pre-Adoptive Homes During the Year

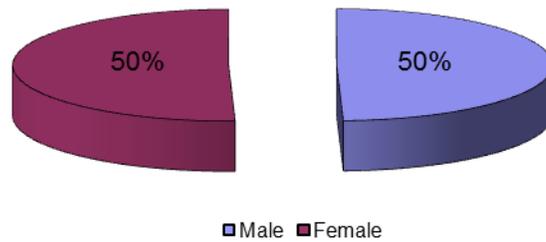

The largest group of children placed into a pre-adoptive home was between the ages of two and five (42%), followed by children between the ages of six and 11 (30%).

31b: Ages of Children Placed in Pre-Adoptive Homes During the Year

Of the children placed into a pre-adoptive home during SFY 2012, 50 percent were male and 50 percent were female.

31c: Gender of Children Placed in Pre-Adoptive Homes During the Year

Children not Placed in Pre-adoptive Homes who are Available for Adoption

At the end of the SFY 2012, there were 360 children who were available for adoption but who were not placed in pre-adoptive homes, an increase from SFY 2011 (303). This statistic was derived by subtracting the number of children placed in pre-adoptive homes at the end of the SFY (84)¹⁵ from the number of children available for adoption at the end of the year (444).

Special Needs

There were 297 children with special needs who were placed in a pre-adoptive home during SFY 2012.¹⁶ Children with special needs are generally defined as Caucasian children over the age of nine, African American children who are two years of age or older, or children who are members of a sibling group. Children may fall into more than one category. The definition of special needs children also includes those who have severe medical or psychological needs that require ongoing treatment; data are not available for this last category.

**Table 24: Children with Special Needs Placed in Pre-adoptive Homes
SFY 2012**

Special Need Condition	Number of Children
Race/Ethnicity	297
Age	254
Member of Sibling Group	169

¹⁵ Although only 84 children are identified as residing in pre-adoptive homes as of the end of the year, many more are in the process of being adopted by their foster family homes.

¹⁶ This number does not take into account children with severe medical and psychological needs because this data is not available in CHRIS (AR Children’s Reporting and Information System). As enhancements are made to the data system to capture this information, the data will be provided in future reports.

Characteristics of Children with Finalized Adoptions

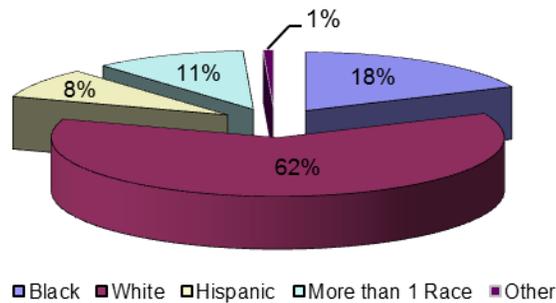

There were 674 children whose adoption was finalized during SFY 2012. This represented an increase from SFY 2011 (583). The characteristics of those children are outlined in the following table.

**Table 25: Characteristics of Children with Finalized Adoptions
SFY 2012**

Age	Gender	White	Black	Asian	AIAN	NAPI	Hispanic	More Than 1 Race	Total
0 to 1	Female	33	13	0	1	0	3	5	55
	Male	38	11	1	0	1	4	11	66
2 to 5	Female	75	26	0	1	0	10	21	133
	Male	105	29	0	0	0	12	18	164
6 to 11	Female	63	18	0	0	0	6	8	95
	Male	53	9	0	0	0	16	7	85
12 to 15	Female	27	8	0	0	1	3	2	41
	Male	13	7	0	0	0	2	0	22
16 to 18	Female	6	1	0	0	0	0	1	8
	Male	4	1	0	0	0	0	0	5
Total		417	123	1	2	2	56	73	674

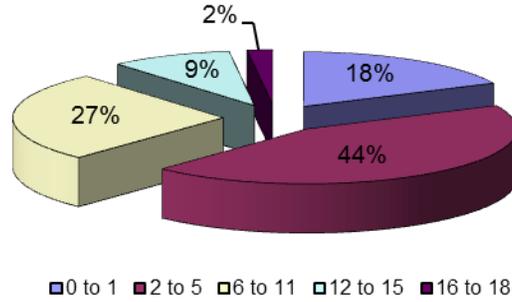

Of the children whose adoptions were finalized during SFY 2012, 62 percent were white, 18 percent were black and eight percent were Hispanic.

32a: Race/Ethnicity of Children with Finalized Adoptions During the Year

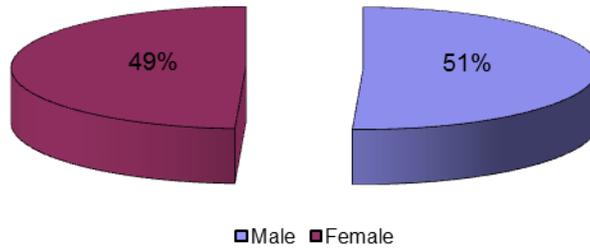

Children between the ages of two and five represent the largest group of children (44%) whose adoption was finalized during SFY 2012, followed by children between the ages of six and 11 (27%).

Chart 32b: Ages of Children with Finalized Adoptions During the Year

The gender distribution for children whose adoption was finalized during SFY 2012 was 51 percent male and 49 percent female.

Chart 32c: Gender of Children with Finalized Adoptions During the Year

Subsidized Adoptions

There were 593 children who began receiving adoption subsidies during SFY 2012. Of those, 463 children were receiving federally-funded subsidies, while 130 were receiving state-funded subsidies. In SFY 2011, 491 children received adoption subsidies, which consisted of 418 federally-funded subsidies and 73 state-funded subsidies.

Characteristics of Children who Receive Adoption Subsidies

In total, 4,979 children received adoption subsidies during SFY 2012. This was an increase of 11 percent from SFY 2011 (4,505). The following table outlines the characteristics of the children in receipt of subsidy payments for the current state fiscal year.

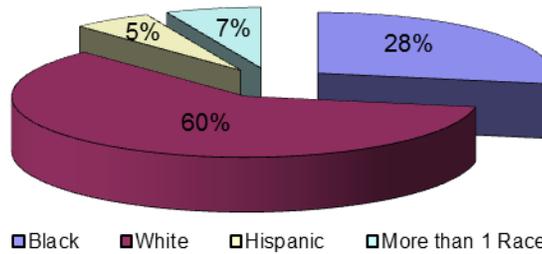

**Table 26: Characteristics of Children Receiving Adoption Subsidies
SFY 2012**

Total*		2,969	1,372	11	13	4	272	326	4,967

*Demographic data had not been entered into CHRIS for 12 children.

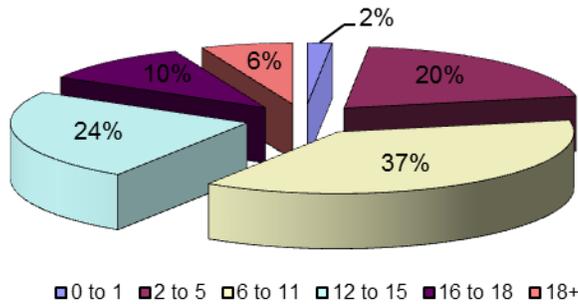

Sixty percent of the children who received an adoption subsidy during the year were white, while 28 percent were black.

33a: Race/Ethnicity of Children Receiving Adoption Subsidies During the Year

Children between the ages of six and 11 represent the largest group (37%) of children receiving an adoption subsidy.

33b: Ages of Children Receiving Adoption Subsidies During the Year

Fifty percent of the children receiving an adoption subsidy during the year were male and 50 percent were female.

33c: Gender of Children Receiving Adoption Subsidies During the Year

Appendix J: Foster Care Maltreatment Reports

Foster Care Maltreatment Reports

**Characteristics of Children in Foster Care Involved in Allegations of Maltreatment
SFY 2012**

Five hundred and six reports of alleged maltreatment, involving 513 children in foster care¹⁷, were received by the hotline during SYF 2012.

In one hundred and forty seven reports, involving 191 children, foster parents were identified as the alleged offenders. As displayed by the following chart, only 25 of these reports were found to be true. The majority of these homes were subsequently close or were made unavailable pending closure.

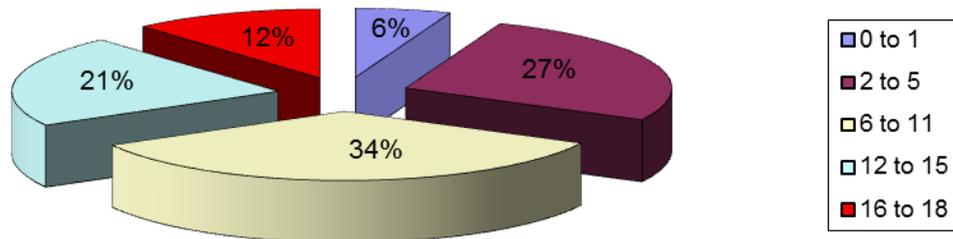

**Foster Home Maltreatment Reports
SFY 2012**

True	Unsubstantiated	Pending
25	117	5

All allegations of maltreatment concerning foster homes are investigated by the Crimes Against Children Division (CACD) of the Arkansas State Police. DCFS staff do not actively participate in the investigation of these reports. Furthermore, all allegations of maltreatment regarding foster homes require the agency to assess the safety of all children residing in the home.

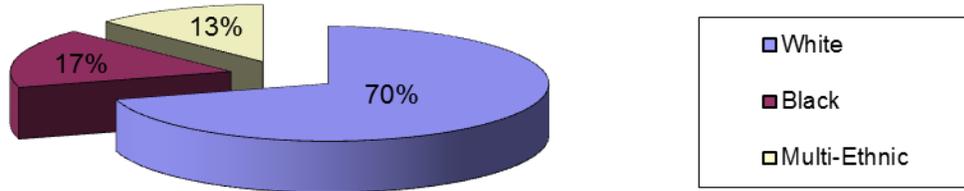

The following charts describe the 191 foster children involved in allegations of maltreatment—with foster parents as alleged offenders—by age, race, gender, allegations, and location.

Reports by Age

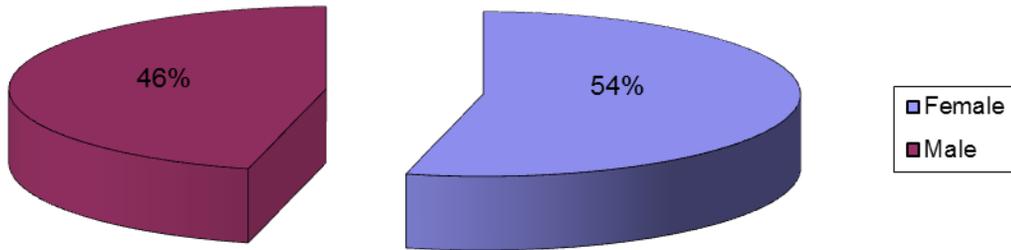

¹⁷ A maltreatment report can include more than one child.

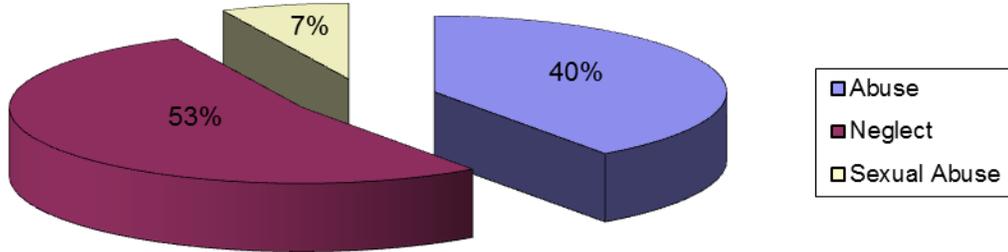

Reports by Race

Reports by Gender

Reports by Allegation

Reports by County

County	Number of Children Involved in Maltreatment Report	County	Number of Children Involved in Maltreatment Report
Pulaski	27	Independence	3
Benton	16	Mississippi	3
White	12	Clay	2
Jefferson	11	Columbia	2
St. Francis	10	Drew	2
Craighead	8	Lee	2
Scott	8	Miller	2
Washington	8	Phillips	2
Crawford	6	Pope	2
Franklin	6	Randolph	2
Lonoke	6	Sebastian	2
Saline	6	Carroll	1
Crittenden	5	Cleburne	1
Cross	4	Cleveland	1
Faulkner	4	Desha	1
