

❖ **CHRIS Release 18.3a – July 27, 2009**

This release implemented the revised **Provider IV-E Eligibility Package logic**:

- An Eligible Family Home **only** becomes 'Not Eligible' when Re-Evaluation becomes Overdue (day after Due Date); therefore,
  - Removed all logic regarding the Member's expired State Criminal Record Checks and Central Registry Checks (these requirements will be updated at the time of the Re-evaluation process); and,
  - Removed all logic regarding adding a new member to the family where the required checks are not entered (family will remain Eligible until Re-evaluation when the new member must have the required checks)
