

## **GENERAL**

- The CHRIS Announcement will automatically refresh when a new message is entered so the users can see **without** having to log out and back into CHRIS.
- When Ctrl+M keys are used to enter Comments/Suggestions, a 'Functional Area' dropdown has been added to select the area if known.

## **WORKLOAD**

### **Workload/Case/Referral/I&R/Provider/DR Dialog Box**

#### **Path: Workload**

- The Workload/Case/Referral/I&R/Provider/DR Dialog Box Search has been enabled for **Differential Response Referrals**. Selecting the Differential Response radio button and clicking on the Search Button enables a search for Differential Response Referrals by the Referral Family Name and County of Referral

### **Workload for:**

#### **Path: Workload/Case/Referral/I&R/Provider - Workload for:**

- An issue has been corrected that prevented a changed Differential Response Family Name from appearing in the Workload for: Dialog Box Name column.

## **SEARCH**

### **Search**

#### **Path: Search/Referrals**

- An enhancement has been implemented to the Client Search Referral History Screen. When a Differential Response Referral is selected clicking on the Show button now navigates to the **Differential Response** Screens, rather than to the Referral Screens.

## **REFERRAL/INVESTIGATION**

### **Referral Acceptance Screen**

#### **Workload/Referral-Investigation/Referral/Ref. Accept**

- A correction of the date validation logic has been implemented to disable entry of a future date in the **Disposition Date** field on the Referral Acceptance Screen.

### **Abuse/Neglect Information Screen**

#### **Path: Workload / Referral-Investigation/Referral / A-N Alleg AND**

#### **Path: Workload /Referral-Investigation/ Investigate / A-N Alleg**

- **Solicitation** has been added as a new option in the Abuse/Neglect Type pick list, when Sexual Abuse is selected from the Abuse/Neglect Category pick list, on the A/N Alleg screen.

### **Investigation Findings Screen**

#### **Path: Workload/Referral-Investigation/Investigate/Findings**

- An issue has been corrected that occurred when in the 'Explanation if no Collateral(s) identified' text box the user entered more than 500 characters (max allowed) and was getting an error message.

### **Document Tracking Screen**

#### **Path: Workload/Referral-Investigation/Doc.Trkg**

- Two new values have been added to the **Standard** picklist on the Document Tracking Screen:
  - **CFS-300 Parent Notification of Changes In Out-Of-Home Placement**
  - **CFS-300A Attorney-Ad-Litem, Court Appointed Special Advocate and Child Notification of Changes In Out-Of-Home Placement**

### **DIFFERENTIAL RESPONSE:**

### **Referral Acceptance Screen**

#### **Workload/Referral-Investigation/Referral/Ref. Accept**

- A field has been added in the database that enables tracking of Referrals qualified for the Differential Response Program that are accepted as Investigations at Referral acceptance approval.

### **Differential Response Family Assessment**

#### **Path: Workload/Differential Response/Family Plan/ Assess-Ne../Child**

- A correction has been implemented to prevent a Client's Name from appearing multiple times in the Child's Name picklist on the Differential Response FSNA – Child Screen.

### **CASE:**

### **Case Summary Screen**

#### **Path: Workload/Case/Summary**

- The Case Type 'Independent Living Program' has been made inactive and can no longer be selected. The new Case Type 'Transitional Youth Services Program' should now be used instead.
- On the Workload and Inbox, 'Case (TYSP)' will show for the 'Transitional Youth Services Program' case type.
- A conversion was completed on existing open 'Independent Living Program' case types to show 'Transitional Youth Services Program'.
- Closed 'Independent Living Program' case types will continue to show the old value.

### **Child's Removal from PRFC Screen**

#### **Path: Workload/Case/Removal**

- In the **Principal Family Caretakers** section, a scroll bar has been added to the Primary Caretaker and Secondary Caretaker drop down box as needed so all applicable clients listed can be viewed.

### Provider Recommendation Screen

#### Path: Workload/Case/Placement/Place/Recommend

- The Placement Entry Time default of 'a.m.' has been removed. This will now become a required selection, yellow in color, and a Block message will appear if 'a.m. or p.m.' is not selected.

### Enter/Exit Placement Screen

#### Path: Workload/Case / Placement / Place / Enter-Exit

- The Placement Entry and Placement Exit Times default of 'a.m.' have been removed. These will now become required selections, yellow in color, and a Block message will appear if 'a.m. or p.m.' is not selected.
- When client/collateral information concerning the child's custody status is not entered in the case prior to the Placement Exit Reason or Court Status End Date, there are two new buttons so the user doesn't get 'stuck' trying to cancel out of CHRIS (Ctrl+Alt+Delete):
  - **Cancel** and **Add Collateral**
- Each button will do the following:
  - **Cancel Command Button:** User will be able to leave the screen without having to Alt+Ctrl+Del completely out of CHRIS and log back into CHRIS.
  - **Add Collateral Command Button:** Collateral screen will populate so that users can add information. Once complete, the collateral could be selected from the custody response window.

### Status Screen

#### Path: Workload/Case/Court/Status

- The Time Child Left Care default of 'a.m.' has been removed. This will now become a required selection, yellow in color, and a Block message will appear if 'a.m. or p.m.' is not selected.
- When client/collateral information concerning the child's custody status is not entered in the case prior to the Placement Exit Reason or Court Status End Date, there are two new buttons so the user doesn't get 'stuck' trying to cancel out of CHRIS (Ctrl+Alt+Delete):
  - **Cancel** and **Add Collateral**
- Each button will do the following:
  - **Cancel Command Button:** User will be able to leave the screen without having to Alt+Ctrl+Del completely out of CHRIS and log back into CHRIS.
  - **Add Collateral Command Button:** Collateral screen will populate so that users can add information. Once complete, the collateral could be selected from the custody response window.

### Termination of Parental Rights Screen

#### Path: Workload/Case/Court/Par Rights/Terminate

- Hearing Outcome text box has been expanded from 250 characters to 500 characters to allow for more court evidence text.

### Client Contact Information Screen

#### Path: Workload/Case/Services/Contacts

- The 316 Block message of 'Contact should be a Face to Face Type' was removed when the contact Type/Location of **Face to Face (Mental Health Facility)** is selected and the contact purpose is Family Contact- Monthly.

#### **Client General Information Screen**

**Path:** Workload/Case/Client/Birthplace-Citizenship-Language tab

- When a client is added to a case via the case connect screen in an investigation, the value listed in the Citizenship/Alienage pick list on the client general information screen will populate from the investigation into the case.

#### **Select Hearing Dialog Box**

**Path:** Workload/Case/Court/Hearing

- A correction has been made to the Select Hearing dialog box that prevents the user from receiving a Problem # 1 error message when deleting a court hearing record that has been entered by a CHRIS user. Once the court hearing record has been deleted, the Detail, Child and Attorney buttons are disabled until the CHRIS user selects an existing record from the select hearing dialog box or creates a new court hearing record.

#### **Hearing Detail Screen**

**Path:** Workload/Case/Court/Hearing/Detail

- A correction has been made to the Hearing detail screen that prevents the CHRIS user from creating duplicate hearing records when a hearing/review type of Adjudicatory (20 day petition) or Adjudicatory (Foster Care) is selected but the user clicks cancel on the Adjudication Types Selection dialog box and selects a different type of hearing in the Hearing/Review Type selection box and adds the hearing record.

#### **Hearing Child Information Screen**

**Path:** Workload/Case/Court/Hearing/Child

- A correction has been made to the Hearing Child Information screen that has corrected the issue of the client name no longer appearing when the client has been end dated from the case or the client turns 18 and no longer has participating as child checked on the client general information screen.

#### **Document Tracking Screen**

**Path:** Workload/Case/Other/Doc.Trkg

- Two new values have been added to the **Standard** picklist on the Document Tracking Screen:
  - **CFS-300 Parent Notification of Changes In Out-Of-Home Placement**
  - **CFS-300A Attorney-Ad-Litem, Court Appointed Special Advocate and Child Notification of Changes In Out-Of-Home Placement**

#### **PROVIDER:**

##### **Provider Service Details screen**

**Path:** Workload/Provider/Directory/Serv. Mgmt/Details AND

##### **Provider Re-evaluation screen**

**Path:** Workload/Provider/Directory/Serv. Mgmt/Re-eval

- When the CHRIS user selects the **Approval Letter** button and **Re-evaluation Letter** button to print the provider letter, the No. of Copies field has changed on the Approval Letters Dialog Box. CHRIS User will now enter a number between one (1), two (2) or three (3) though it will default to one (1).

- There are new Provider Service letters to match with the correct provider service in focus when printing:
  - **CFS-482 A: Foster Home Approval**
  - **CFS-482 B: Foster Home Reevaluation Approval**
  - **CFS-482 C: Adoptive Home Approval**
  - **CFS-482 D: Adoptive Home Reevaluation Approval (This also includes Pre-Adopt)**
  - **CFS-482 E: Master Provider Address.** This letter will cover Therapeutic Foster Care, SRP-Therapeutic Foster Care, and DDS Specialized Community Home
- For all initial and re-eval provider services approved **prior** to the release, the letters will appear with the **old** format.
- For all initial and re-eval provider services approved **after** the release, the letters will appear in the **new** format.

### **Provider Contact Information Screen**

#### **Path: Provider/Directory/Contacts**

- The **Select Provider Contact screen** and **Provider Contact Information screen** have been redesigned to look like the Case Contacts screen. This includes features such as:
  - When selecting a contact all of the purposes are now grouped for the contact in focus.
  - **Navigation arrow buttons** are now added for the contact in focus to view other contacts without having to leave the contact screen.
  - A **Print** button was added to the Select Provider Contact screen so Provider Contacts can be printed.
