

What is Living Choices?

Living Choices is an assisted living program that enables you to live on your own in an assisted living facility, to do the things you enjoy, and to be healthy. Because of that, it's a wonderful alternative to living in an institution.

You have choices.

Division of Aging & Adult Services

PUB-417 (Rev. 03/17)

Living Choices

You have choices.

Am I eligible?

To qualify for Living Choices, you must be:

- Age 21 through 64 with a physical disability **OR**
- Age 65 and older.

AND

- Meet established financial criteria.
- Meet nursing home admission criteria at the intermediate level.
- Have a need for at least one of the available services.

What is assisted living?

If living on your own isn't an option anymore, our assisted living program may be the solution for you.

This program enables you to live in an assisted living facility independently in your own apartment while you receive 24-hour supervision and care.

You can socialize and make new friends with folks living near you while still enjoying the privacy afforded by your own apartment.

Assisted living provides a lot of services to keep you healthy and happy.

For example, if you need help getting around, bathing, toileting, eating, and drinking, a trained person at the assisted living residence is there to help you do all those things.

Plus, there are social activities to brighten your day, help with your medications, and many more services designed with one goal in mind - to keep you in the community.

How do I apply?

Call your local DHS county office or the Choices in Living Resource Center to explore your choices.
