

# HOT CAR DANGERS

## Steps to Take & Why Children Cannot Be Left in Cars.

# A

**Avoid this risk** by never leaving a child alone in a vehicle. When you're not in the vehicle, lock the doors and trunks so that children cannot get in.

# C

**Create reminders.** Put something in the backseat near your child that you wouldn't leave the car without. It can be a briefcase, wallet, or cell phone. This will remind you to check for the child. Be certain where a child is at all times, and plan ahead with caregivers such as teachers or your daycare. If your child doesn't arrive, make sure the caregivers call and tell you.

# T

**Take action** if you see a child left in a vehicle. Call 9-1-1 immediately, and if possible, rescue the child from the vehicle after receiving emergency instructions.

Interior Heat Rises  
**15 Degrees**  
Every 9 Minutes

Major Organs Shut Down  
When Child's Temperature Is
