CMS Announces New Enforcement Authorities to Reduce Criminal Behavior in Medicare, Medicaid, and CHIP

The Centers for Medicare & Medicaid Services (CMS) today issued a final rule that strengthens the agency’s ability to stop fraud before it happens by keeping unscrupulous providers out of our federal health insurance programs. This first-of-its-kind action – stopping fraudsters before they get paid – marks a critical step forward in CMS’ longstanding fight to end “pay and chase” in federal healthcare fraud efforts and replace it with smart, effective and proactive measures. Today’s action is part of the Trump Administration’s ongoing effort to safeguard taxpayer dollars and protect the core integrity of the critical Medicare and Medicaid programs that millions rely on.

The final rule, Program Integrity Enhancements to the Provider Enrollment Process (CMS-6058-FC), creates several new revocation and denial authorities to bolster CMS’ efforts to stop waste, fraud and abuse. Importantly, a new “affiliations” authority in the rule allows CMS to identify individuals and organizations that pose an undue risk of fraud, waste or abuse based on their relationships with other previously sanctioned entities. For example, a currently enrolled or newly enrolling organization that has an owner/managing employee who is “affiliated” with another previously revoked organization can be denied enrollment in Medicare, Medicaid, and CHIP or, if already enrolled, can have its enrollment revoked because of the problematic affiliation.

The rule also includes other authorities that will effectively improve CMS’ fraud-fighting capabilities. Similar to the affiliations component, these authorities provide a basis for administrative action to revoke or deny, as applicable, Medicare enrollment if:

- A provider or supplier circumvents program rules by coming back into the program, or attempting to come back in, under a different name (e.g. the provider attempts to “reinvent” itself);
- A provider or supplier bills for services/items from non-compliant locations;
- A provider or supplier exhibits a pattern or practice of abusive ordering or certifying of Medicare Part A or Part B items, services or drugs; or
- A provider or supplier has an outstanding debt to CMS from an overpayment that was referred to the Treasury Department.

The new rule also gives CMS the ability to prevent applicants from enrolling in the program for up to 3 years if a provider or supplier is found to have submitted false or misleading information in its initial enrollment application. Furthermore, the new rule expands the reenrollment bar that prevents fraudulent or otherwise problematic providers from re-entering the Medicare program. CMS can now block providers and suppliers who are revoked from re-entering the Medicare program for up to 10 years.

Previously, revoked providers could only be prevented from re-enrolling for up to 3 years. Additionally, if a provider or supplier is revoked from Medicare for a second time, CMS can now block that provider or supplier from re-entering the program for up to 20 years.

These important new authorities and restrictions, effective November 4, 2019, ensure that the only providers and suppliers that will face additional burdens are “bad actors” — those who have real and demonstrable histories of conduct and relationships that pose undue risk to taxpayers, patients and program beneficiaries. This new rule ushers in an important new era of smart, effective, proactive and risk-based tools designed to protect the integrity of these vitally important federal healthcare programs we rely on every day to care for millions of Americans.

INSIDE MEDICARE—

—MEDICARE OPEN ENROLLMENT—

OCTOBER 15, 2019—DECEMBER 7, 2019

The Medicare Open Enrollment Period begins October 15 through December 7. During this period, Medicare individuals can make changes to their existing plans such as switching from their Original Medicare to a Medicare Advantage Plan or vice versa, switching from one Medicare Advantage Plan to another, and may also make changes regarding Medicare Part D Prescription Drug Plans.

MEDIGAP POLICY CHANGES for those newly eligible for Medicare.

As of January 1, 2020, Medicare Supplement Plans C and F are being eliminated. If your Original Medicare A and B start by December 31, 2019 and you have Medicare Supplement Plan C or F, you may keep it.

Those with current Medicare supplement plans may also switch to a different company as long as you medically qualify or make the change during Open Enrollment or a Guaranteed Issue time.

If you enroll in Medicare on or after January 1, 2020, you WILL NOT BE ABLE TO PURCHASE MEDICARE SUPPLEMENT PLANS C OR F.

WHAT IS AN ABN?

The Advance Beneficiary Notice of Noncoverage (ABN) is exclusive to Original Medicare. Medicare providers and suppliers (notifiers) must give ABNs to their patients in Original Medicare when they expect Medicare to deny a claim because medical necessity or other key coverage criteria won’t be met.

The ABN’s purpose is to inform a Medicare beneficiary, before he or she receives specified items or services that otherwise might be paid for, that Medicare certainly or probably will not pay for them on that particular occasion, as a forewarning to patients of impending out-of-pocket expenses.

IMPORTANT!

New Medicare Card Transition Period Ends January 1, 2020

Starting January 1, 2020, Medicare will only accept claims submitted with the Medicare Beneficiary Identifier (MBI). Medicare will reject any claims submitted with the Health Insurance Claim Number (HICN), with a few exceptions. Your provider will need your new Medicare number to submit claims.

Protecting Yourself from Enrollment Fraud

Enrollment fraud occurs when a plan agent or representative purposefully tricks you into enrolling in their plan, regardless of whether it is the right plan for you. They may do this by telling you misleading or false information to get you to enroll. Some may even enroll you without your knowledge.

Watch out for people who:

- Ask for your Medicare number, Social Security number, and/or bank information just to provide you with information. Someone can use this personal information to enroll you in a plan without your permission. Plans cannot request this personal information at an educational event and cannot call you to ask for a payment over the phone — they must send a bill.
- Pressure you with time limits to enroll in their plan. You can use the entire Open Enrollment Period to make your decision. You will not receive extra benefits for signing up early for a plan.
- Say they represent Medicare. Plans are never allowed to suggest they represent or are preferred by Medicare or any other government agency. People who say they represent Medicare may also be identity thieves, not representatives of any plan.
- Offer you gifts to enroll in their plan. Gifts must be given to everyone regardless of their enrollment and cannot be worth more than $15.
- Threaten you with the loss of your Medicare benefits unless you sign up for their plan.

—MEDICARE OPEN ENROLLMENT—

OCTOBER 15, 2019—DECEMBER 7, 2019

The Medicare Open Enrollment Period begins October 15 through December 7. During this period, Medicare individuals can make changes to their existing plans such as switching from their Original Medicare to a Medicare Advantage Plan or vice versa, switching from one Medicare Advantage Plan to another, and may also make changes regarding Medicare Part D Prescription Drug Plans.

MEDIGAP POLICY CHANGES for those newly eligible for Medicare.

As of January 1, 2020, Medicare Supplement Plans C and F are being eliminated. If your Original Medicare A and B start by December 31, 2019 and you have Medicare Supplement Plan C or F, you may keep it.

Those with current Medicare supplement plans may also switch to a different company as long as you medically qualify or make the change during Open Enrollment or a Guaranteed Issue time.

If you enroll in Medicare on or after January 1, 2020, you WILL NOT BE ABLE TO PURCHASE MEDICARE SUPPLEMENT PLANS C OR F.

WHAT IS AN ABN?

The Advance Beneficiary Notice of Noncoverage (ABN) is exclusive to Original Medicare. Medicare providers and suppliers (notifiers) must give ABNs to their patients in Original Medicare when they expect Medicare to deny a claim because medical necessity or other key coverage criteria won’t be met.

The ABN’s purpose is to inform a Medicare beneficiary, before he or she receives specified items or services that otherwise might be paid for, that Medicare certainly or probably will not pay for them on that particular occasion, as a forewarning to patients of impending out-of-pocket expenses.
**FACILITY/CLINIC FEES:**

**“Is this allowable?” “Is this fraud?”**

The AR SMP is frequently asked these questions during presentations and on our helpline when a beneficiary has noticed a facility or clinic fee listed on their Medicare Summary Notice (MSN); or they may have even been charged out of pocket for the fee. The short answer is “YES” it is allowable; however, the provider should provide the beneficiary with a notice of possible coinsurance charges.

See the below explanation regarding the facility fee coinsurance notice:

When patients receive services from a hospital-based doctor, the hospital bills Medicare for an outpatient visit (with a facility fee) and the physician visit, meaning that the beneficiary incurs coinsurance charges for both.

Hospital-based entities (including physician offices and clinics owned by hospitals), must provide written notice before delivering services that will potentially result in the beneficiary paying facility fees, and the notice must include an estimate of the cost.

CMS has not issued a model facility fee coinsurance notice, so providers are required to draft and deliver the notices in accord with CMS guidance, although many providers are unaware of this requirement.

The guidance advises providers need not issue the facility fee notice when beneficiaries have no deductible or coinsurance liability, as with Medicare’s “free” prevention and screening benefits. Please note, rural health clinics are exempt from the facility fee notice obligation.

**New Medicare Plan Finder**

Medicare’s redesigned Plan Finder makes it easier than ever to compare coverage options, shop for plans, and feel confident in your choice — even when you’re on-the-go. This mobile-friendly tool now works on your smart phone, tablet, and desktop. [Watch a video](#) about this exciting new way to compare Medicare coverage options and shop for plans.

You may view the September 5 [Plan Finder recorded webinar](#) or download the [Plan Finder PowerPoint slides](#).

---

**Examples of Medicare Billing Issues:**

- Billing for services that were not actually performed or provided;
- Billing for non-covered services using an incorrect diagnosis code in order to have services covered;
- Billing a patient more than the co-pay amount for services provided for under the health insurance plan;
- Falsifying a patient's diagnosis to justify tests, surgeries or other procedures that aren't medically necessary;
- Upcoding - billing for a more costly service than the one actually performed;
- Unbundling - billing each stage of a procedure as if each were a separate procedure; and
- Waiving patient co-pays or deductibles and over-billing the insurance plan.
**CONTINUED FROM PAGE 1**

**New Enforcement Authorities**

This new rule builds on CMS’ previous successful efforts to protect beneficiaries and taxpayer dollars while limiting burden on our provider partners without whom we could not deliver high quality care to the millions of people we are honored to serve. “Every dollar that is stolen from federal programs is a dollar that will never contribute to paying for an item or service for seniors and eligible people who need them,” said Administrator Verma. The Trump Administration’s program integrity activities saved Medicare an estimated $15.5 billion in Fiscal Year (FY) 2017, for an annual return on investment of $10.8 to $1. The 2018 Medicare fee-for-service (FFS) improper payment rate was 8.12%, the lowest since 2010. This translates to about $4.5 billion less in estimated improper payments from 2017. For Medicaid, in FY 2018 CMS recovered $10.5 billion in FFS improper payments. An improper payment is any payment that should not have been made or that was made in an incorrect amount under statutory, contractual, administrative or other legally applicable requirements.

In addition to today’s rule, CMS has implemented several new initiatives to increase provider and supplier transparency and accountability while reducing burden in the Medicare and Medicaid programs. To learn more, click here.

<td>Medicare pays first.</td>
</tr>
<tr>
<td>If you have Medicare because of End-Stage Renal Disease (ESRD) (permanent kidney failure requiring dialysis or a kidney transplant)…</td>
<td>Your group health plan will pay first for the first 30 months after you become eligible to join Medicare. Medicare will pay first after this 30-month period.</td>
</tr>
<tr>
<td>If you have Marketplace coverage and then age into Medicare (and keep your Marketplace plan)…</td>
<td>Medicare pays first.</td>
</tr>
</tbody>
</table>

The information in the table is available at Medicare.gov/supplements-other-insurance/how-medicare-works-with-other-insurance/which-insurance-pays-first.

If you still have questions about who should pay or who should pay first:

- Check your insurance policy or coverage. It may include rules about who pays first.
- Call the Benefits Coordination & Recovery Center (BCRC) at 1-855-798-2627. TTY users should call 1-855-797-2627.
- Contact your employer or union benefits administrator.

---

**DOSE OF REALITY:**

- Most people who abuse prescription painkillers get them through friends or relatives — NOT their doctor, dentist or pharmacist.
- The greatest increase in drug-related deaths is due to the misuse of prescription drugs.
- 1 in 3 Medicare recipients have received an opioid prescription.

Visit: Dose of Reality for more information: [https://doseofreality.adh.arkansas.gov/](https://doseofreality.adh.arkansas.gov/).

---

**DON’T RUN. CALL 911.**

**PARENTS and GRANDPARENTS:** 4 out of 10 teens believe prescription drugs are less dangerous and less addictive than street drugs, and in Arkansas, the prescription painkiller death rate for those under 55 in 2016 was nearly 5 times higher than it was in 2001.

DESTROY YOUR OLD MEDICARE CARD!

DO NOT CARRY YOUR OLD MEDICARE CARD!

DO NOT CARRY YOUR SOCIAL SECURITY CARD!

Arkansas Medicare recipients have received their new Medicare cards — if you have not received yours, please call the AR SMP at 866-726-2916.
Did You KNOW?

Real ID
Arkansas is taking part in the federal nationwide initiative to improve the security of state-issued driver’s licenses and identification cards. This will help fight terrorism and reduce identity theft.

On October 1, 2020, anyone who boards a domestic flight or enters a federal building will either need an Arkansas REAL ID driver’s license (DL) or Identification Card (ID) or will need to provide a regular identification and additional accepted forms of identification.

What does this mean for older adults?

Older adults need a REAL ID only for certain situations. The REAL ID is generally described as a requirement for accessing “Federal facilities, entering nuclear power plants and boarding commercial aircraft.” However, it is important to clarify what is meant by “federal facilities.” A federal facility generally means a secure federal facility or military base.

For older adults, the REAL ID is not needed to apply for or receive federal benefits, but older adults should remember that the REAL ID will be required to board a domestic flight starting October 1, 2020.

Additional information can be obtained from the U.S. Department of Homeland Security (https://www.dhs.gov/real-id-public-faqs)

VOCABULARY —

NEWLY ELIGIBLE MEDICARE BENEFICIARY is defined as one of the following individuals:

1. A person who has "attained" age 65 on or after January 1, 2020. In plain terms the word "attains" means to "reach" or "arrive at" and so means one's actual birthdate.
2. A person who is entitled to benefits under Medicare Part A under section 226(b) of the Social Security Act. This section specifies a person who "has not attained age 65" and is entitled to disability insurance benefits.
3. A person who is entitled to benefits under Medicare Part A under section 226A of the Social Security Act. This section specifies a person who is medically determined to have end stage renal disease.
4. A person who is deemed eligible for benefits under section 226(a) of the Social Security Act. This section specifies a person who "has attained age 65" and is a qualified railroad retirement beneficiary or has qualified government employment.

SOMETHING YOU SHOULD KNOW!

The fight against robocalls took a potentially significant turn.

The Federal Communications Commission voted June 6, 2019 to allow phone carriers to start to take more aggressive steps to block suspected spam and scam calls and to make enrollment in their robocall-blocking services automatic, not something you have to opt in to.

Notably, the new FCC rule does not require the carriers to automatically enroll customers in robocall blocking—it merely allows them to do so, something they couldn't before for legal liability reasons.

Additional Information: https://www.consumerreports.org/robocalls/consumers-get-more-help-blocking-robocalls/

A possible whistleblower with substantial proof of wrongdoing in Arkansas can contact the Whistleblower Center at 866-714-6466 or contact them via their website: http://Arkansas.CorporateWhistleBlower.Com.

Please refer to the January 2018 Department of Justice announcement about a lawsuit that resulted in a whistleblower reward: https://www.justice.gov/opa/pr/scripps-health-pay-15-million-settle-claims-services-rendered-unauthorized-physical.

Said the little boy, “Sometimes I drop my spoon.”
Said the old man, “I do that too.”

The little boy whispered, “I wet my pants.” “I do too,” laughed the old man.

Said the little boy, “I often cry.”
The old man nodded. “So do I.”

“But, worst of all, said the little boy, it seems grown-ups don’t pay attention to me.” And he felt the warmth of a wrinkled old hand. “I know what you mean,” said the little old man.

July 22-25, 2019
Justice Department Announces New Transnational Elder Fraud Strike Force
Law Enforcement Effort Will Coordinate Action Against Foreign Fraud Schemes that Target American Seniors

The Transnational Elder Fraud Strike Force is a joint law enforcement effort that brings together the resources and expertise of federal and international law enforcement and other government agencies focusing on investigating and prosecuting individuals and entities using analytical tools and other sophisticated investigation methods to identify and bring action against criminal abroad responsible for the foreign-based fraud schemes affecting American seniors; e.g., telemarketing, mass-mailing, and tech-support fraud schemes, which disproportionately target senior citizens.

The Transnational Elder Fraud Strike Force collectively brought criminal and civil actions against more than 500 defendants responsible for defrauding more than $1.5 billion from at least 3 million victims.

Feds break up multi-state drug ring, arrest 2 from CT
Illegal acquisition and distribution of oxycodone obtained through fake prescriptions

Connecticut — Blank prescription pads were obtained from employees of various medical practices and a doctor’s signature was forged and the prescription filled out with personal information of recruited Medicare and Medicaid recipient’s (called “runners”) who then filled the fake prescriptions at various pharmacies using their own Medicare/ Medicaid benefits and provided the pills to the fraudsters in exchange for $50 per prescription. The three indicted were responsible for filling at least 150 fake prescriptions for oxycodone, almost all of which were for 30 mg pills. The pills were then sold on the streets to individuals with opioid addictions.

Medical business owner sentenced to more than 10 years in federal prison for Medicare fraud

AUGUSTA, GA — The owner of a medical equipment company was sentenced to more than 10 years in federal prison for a wide-ranging Medicare fraud scheme. According to information presented in court documents and testimony, she submitted thousands of false claims, fabricated patient files, and falsified prescriptions from doctors for items such as heavy-duty wheelchairs while providing much cheaper standard wheelchairs to patients – and pocketing the substantial difference in cost. She used the money to pay for such things as jewelry, including a 1.5 carat diamond and a Rolex watch.

Kentucky Man Pleads Guilty to Representative Payee Fraud

ASHLAND, KY — An Ashland man pleaded guilty to one count of representative payee fraud admitting that, as part owner, he received representative payee benefits from the Social Security Administration on behalf of more than twenty individuals living in his personal care home between 2013 and 2017 totaling $241,142. He spent the money on two rental properties and a personal farm. He agreed pay $97,806 in restitution to be divided among the victims.

Man sentenced for role in DME scheme

As part of his guilty plea, a Nigerian man admitted that he and others paid cash kickbacks to patient recruiters and physicians for fraudulent prescriptions for durable medical equipment (DME) such as power wheelchairs for which the Medicare beneficiaries did not have a legitimate medical need. More than $8 million was fraudulently billed to Medicare for DME. He was sentenced to 46 months in prison and ordered to pay $1,076,893.15 in restitution. Read a Department of Justice press release.

Billing for services on patients already deceased

OHIO — A man was indicted for defrauding Medicare and Medicaid of approximately $2 million by billing for x-ray services that were not provided on 151 deceased people.

Imposter Scam Complaints Surge —

In May 2019, the Federal Trade Commission (FTC) says it received 46,000 impostor scam complaints. One of the most popular frauds is when scammers call pretending that they’re Medicare representatives, Social Security representatives, or that they’re from a medical supply company. They REALLY only want your personal information. Read a story from Consumer Reports including two phone calls that robbed an 81-year-old woman of her $80,000 life savings! Log on to: https://www.consumerreports.org/scams-fraud/robocall-scams-get-more-sophisticated-and-costly/.

Avoid This Genetic Testing Scam —

Have you heard about the latest scam? Scammers are offering “free” genetic tests and claiming Medicare will cover it — so they can get your Medicare Number and use it to commit fraud and identity theft. They’re targeting people through telemarketing calls, health fairs, and even knocking on doors. CMS warns that—Only a doctor you know and trust should order and approve any requests for genetic testing. If Medicare is billed for a test or screening that wasn’t medically necessary and/or wasn’t ordered by your doctor, the claim could be denied. That means you could be responsible for the entire cost of the test, which could be thousands of dollars.

Here’s how to protect yourself:

- Don’t share your Medicare Number, Social Security Number, or other personal information with anyone who offers to give you a "free" in-person genetic screening or cheek swab, or a DNA testing kit in the mail.
- If you get a genetic testing kit in the mail, refuse the delivery or return to sender unless your doctor ordered it.
- If you suspect Medicare fraud, call 1-800-MEDICARE.

How to Protect Yourself from Scam Callers

- Hang up. Don’t engage with any robocallers; it can just end up in more calls.
- Don’t trust caller ID. Scammers can make it look like their calls are coming from trusted institutions.
- Don’t pay anyone who calls you over the phone. If you get a call trying to get you to pay money, it’s almost certainly an unlawful robocall.
- Never pay by wire transfer, gift card, or prepaid card over the phone. No legitimate company or government agency is asking to be paid with Amazon, Google Play, or iTunes gift cards.
- Resist the urge to act immediately, no matter how dramatic the story is.
- Report scam calls to the FTC at donotcall.gov or by calling 877-382-4357. The more data the agency has, the more it can focus on enforcement.
- Register for the Do Not Call Registry. This may not reduce calls from criminals who ignore the registry, but it will reduce calls from lawful companies.

SENIOR MEDICARE PATROL (SMP) MISSION

“To empower and assist Medicare beneficiaries, their families, and caregivers to prevent, detect, and report health care fraud, error, and abuse through outreach, counseling, and education.”

TO PREVENT HEALTHCARE FRAUD—

Protect Personal Information
* Treat Medicare/Medicaid and Social Security numbers like credit card numbers.
* Remember, Medicare will not call or make personal visits to sell anything!
* READ and SAVE Medicare Summary Notices (MSN) and Part D Explanation of benefits (EOB), but shred before discarding.

Detect Errors, Fraud, and Abuse
* Always review MSN and EOB for mistakes.
* Visit www.mymedicare.gov to access your personal account online to look for charges for something you did not get, billing for the same thing more than once, and services that were not ordered and/or you never received.

Report Mistakes or Questions
* If you suspect errors, fraud, or abuse, report it immediately! Call your provider or plan first.
* If you are not satisfied with their response, call the Arkansas SMP.

TO RECRUIT & TRAIN VOLUNTEERS—

* Retired seniors;
* Retired health-care providers; or
* Retired professionals, e.g., teachers, accountants, attorneys, investigators, nurses.

To receive the Arkansas SMP Newsletter electronically email: kathleen.pursell@dhs.arkansas.gov
