Dr. Charlie Green presented the Division Director’s report by discussing DDS’ operational budget, preliminary budget data and upcoming requests, physical plant needs for the HDCs, procedural events of prioritizing items for consideration and past occurrences of budget review during a transition year. Dr. Green assured Board members that as soon as the draft of capital projects is available, it will be sent out to them for review.

Mr. Darrell Pickney reminded all of his displeasure about the handling of the 2013 capital request as well as his wish to be provided with information throughout the process this year. Mr. Pickney also stated his concerns that the ABA Facility Assessment would not be concluded until 2015 when some of the problems have already been identified that we need to address and add to the current capital request.

Mr. Randy Laverty provided all with his historical perspective of the budget request process as both a member of the legislature and as a state employee.
Mr. Pickney reminded the Board again that he had met with Department of Human Services Director John Selig and expressed his displeasure in last year’s process. Mr. Pickney was assured by Dr. Green that board members would be provided with information pertaining to the division’s budget request and that Booneville HDC remained a high priority.

Mr. Pickney had the following other concerns that he would like be reviewed: the decline of licensed capacity numbers in the HDCs, why a budget request was not made to acquire more staff, social workers in the HDCs relaying information to families of clients being placed or made to think they need to be placed in a “least restrictive environment”.

Ms. Jan Fortney, parent of a Conway HDC resident, addressed the Board with a request that someone from the DDS/HDC locations keep data of the daily calls requesting HDC services. This could be any services, such as respite, new admission, transfer, etc. Ms. Fortney said this information would be beneficial to the HDCs, DDS board and the HDC Task Force.

Mr. Paul Rainwater, parent of a HDC resident, addressed the Board and wanted to know the reasoning or explanation of the statements being made across the country against facility placement or the national trend against the HDC placements. Mr. Randy Laverty explained the mid-80s lawsuits and the beginning of the Olmstead Act and how the Justice Department became involved in the rights of disabled Americans. Mr. Rosegrant also spoke to ease Mr. Rainwater’s concerns to remind him that Arkansas had fought the Justice Department and won and that the board has no intentions of closing the human development centers.

Ms. Carole Sherman, parent of a HDC resident at ARHDC, reported that she received a notice from the Public Health Committee regarding a meeting coming up on August 21st of the new proposed Community First Choice Option plan. Mrs. Sherman gave a copy of her concerns/questions, titled “Statement of Carole L. Sherman, in response to notice of House & Senate Health Services Committee”, (Attachment 1:1) Ms. Sherman presented informative data to the Board regarding the different federal programs associated with accepting some of the new proposed agendas. She expressed her concerns again regarding programs of federal grants such as Money Follows the Person (MFP) and Balancing Improvement Payment Plan (BIPP).

Ms. Rita Hoover, parent of a Conway HDC resident, thanked Ms. Sherman for all her thorough study of issues regarding services to people with developmental disabilities throughout Arkansas and the United States. Board Chair David Rosegrant and other members of the board also expressed their gratitude toward Ms. Sherman on keeping them informed and abreast of the key areas.

Ms. Hoover also gave a story of a friend that works for the Forestry Department that had relayed information to her that we don’t have enough money to honor the budget requests in our human development centers but in their department, a half million dollars were used by Arkansas government to track turkeys. Ms. Hoover stated that she thought this was totally unacceptable.

Ms. McCommon reminded the Board that we all have a responsibility to contact our local legislators on our requests and beliefs.
Dr. Green addressed concerns from the consumers and offered again to Ms. Sherman that he would be glad to meet with the parents group or other groups to discuss pending questions and concerns.

Mr. David Rosegrant called for a motion the meeting be adjourned. Randy Laverty made a motion the meeting be adjourned. Suzann McCommon seconded the motion. Motion passed unanimously.
