What's the plan?

PASSEs were licensed, and member assignment began in early 2018. During 2018, Independent Assessments have been completed, and Care Coordination has been and will continue to be provided. Check the timeline below to see what's next!

**PHASE I**
- **2018**
  - Independent Assessments, Assignments, Care Coordination

**PHASE II**
- **2019**
  - Transition Plan

---

**PASSE in Phase I**

Through February 28, 2019, your PASSE services will be care coordination only.

**PASSE assignment**
- Based on the relationships you have with some of your current providers over the past year.

**Care coordinator**
- Employed by PASSE. Works to connect you and your family to community supports and doctors for services you need.

**Person-centered Service Plan (PCSP)**
- Your care coordinator works with you to create a service plan that meets your needs and your goals.

**Resource Connection**
- Your coordinator will work with you and your doctors to connect you to other services you might need medically or in the community.

---

**PASSE in Phase II**

Starting March 1, 2019, the PASSE will receive funding to coordinate your care & pay providers for services in your service plan.

**Paid services include:**

- Services you receive now such as:
  - emergency room visits
  - medication
  - doctor visits
  - specialty services for behavioral health and developmental disabilities

- New services such as:
  - 24/7 help lines
