The program provides clinical treatment services in a stable environment on a level equal to an inpatient program, but on a less than 24-hour basis. The environment at this level of treatment is highly structured and should maintain a staff-to-patient ratio of 1:5 to ensure necessary therapeutic services and professional monitoring, control, and protection. This service shall include at a minimum intake, individual therapy, group therapy, and psychoeducation. Partial Hospitalization shall be at a minimum (5) five hours per day, of which 90 minutes must be a documented service provided by a Mental Health Professional. If a beneficiary receives other services during the week but also receives Partial Hospitalization, the beneficiary must receive, at a minimum, 20 documented hours of services on no less than (4) four days in that week.
