May, 2018

Children Who Reunified within Six Months, Statewide

*The chart above represents the percentage of children who entered foster care during the month concluding one year prior and returning home within six months.

*This measure excludes children who left care within seven days of entering.

//* DHS SENSITIVE *//

May, 2018

Children Who Reunified within 12 Months, Statewide

*The chart above represents the percentage of children who entered foster care during the month concluding one year prior and returning home within 12 months.

*This measure excludes children who left care within seven days of entering.

//* DHS SENSITIVE **

May, 2018

Children Placed with Relatives, Statewide

Goal = 33.0

*The chart above represents the percentage of children residing with relatives at the beginning of each month.

*Children are considered to be residing with relatives if they are placed in a provisional relative or provisional fictive kin home, relative or fictive kin foster family home, relative pre-adoptive home, ICPC home, or temporary family placement.

*The Division's goal is meant to be realized by August 2018.

//* DHS SENSITIVE **//

May, 2018

Provisional Placements Made on Same Day as Removal, Statewide

Goal = 35.0

*The chart above displays the percentage of provisional placements made during each month that occurred on the same day as the child's removal.

*NOTE: This does not represent the percentage of all entries into foster care during the month where the child was placed into a provisional placement on the same day; instead, it measures the percentage of provisional placements that occurred on the same day as the child's entry into care.

*The Division's goal is meant to be realized by August 2018.

May, 2018

Children Placed in Family-Like Setting, Statewide

Goal = 85.0

*The chart above represents the percentage of children in a family-like setting at the beginning of each month.

*Family-Like Settings include both family-like homes (e.g., foster family homes, relative placements, pre-adoptive homes, therapeutic foster homes) as well as family-like residential facilities (i.e., home-like residential settings with live-in house parents).

*The Division's goal is meant to be realized by August 2018.

//* DHS SENSITIVE **

May, 2018

Children Placed in Home County, Statewide

Goal = 55.0

*The chart above represents the percentage of children placed in their home county (i.e., the county from which they were removed) at the beginning of each month.

*This measure excludes foster children ages 18 and older; those residing in DYS placements and detention facilities; and those residing in acute/sub-acute facilities, hospitals, sexual rehabilitation programs, and pre-adoptive homes.

*The Division's goal is meant to be realized by August 2018.

//* DHS SENSITIVE **

May, 2018

Children Placed in Home or Neighboring County, Statewide

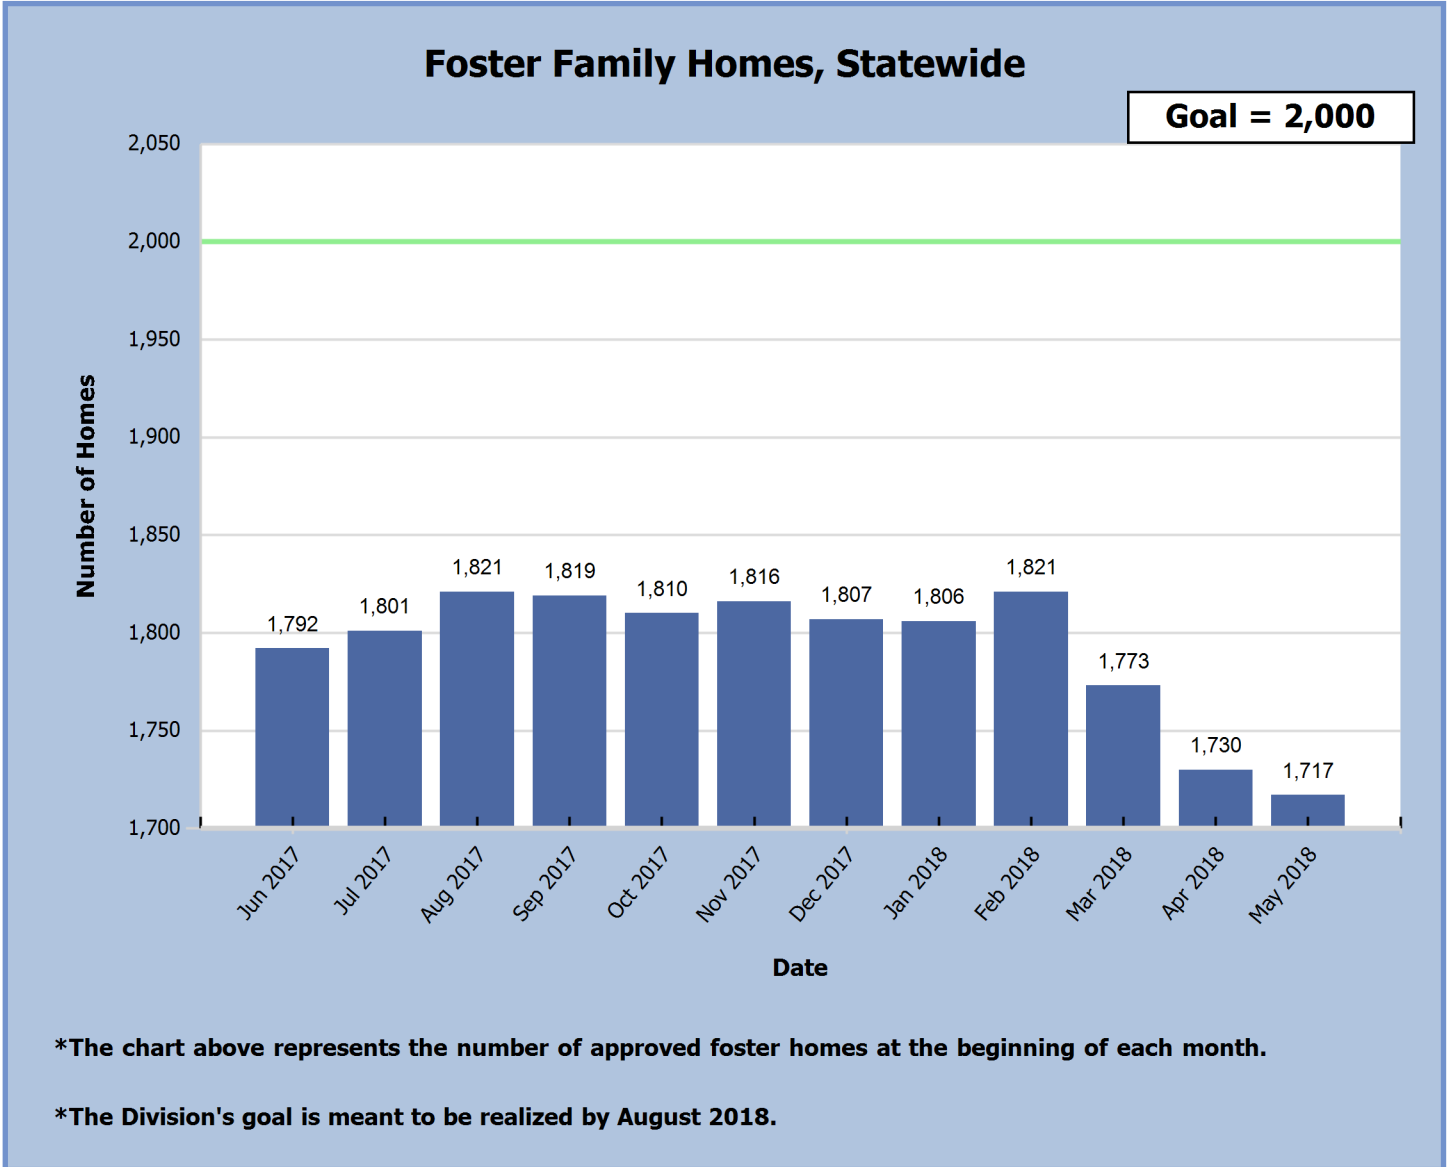

*The chart above represents the percentage of children placed in their home county OR a neighboring county (i.e., a county that borders the child's home county) at the beginning of each month.

*This measure excludes foster children ages 18 and older; those residing in DYS placement and detention facilities; and those residing in acute/sub-acute facilities, hospitals, sexual rehabilitation programs, and pre-adoptive homes.

Children who Experience Placement Stability within 60 Days, Statewide

*The blue line represents the percentage of children who had experienced a single placement setting during the initial 60 days after entering care during the month, beginning in January of the previous year; the red line represents the same from the beginning of the current year.

*This measure does not consider a placement move to a relative/fictive kin setting subsequent to a child's initial placement setting upon entering care to be an additional placement, though placements occurring after a subsequent relative/fictive kin placement are still considered to be an additional placement.

*This measure only considers children who stayed in care for at least 60 days after entering.

May, 2018

Children who Experience Placement Stability within 120 Days, Statewide

*The blue line represents the percentage of children who had experienced a single placement setting during the initial 120 days after entering care during the month, beginning in January of the previous year; the red line represents the same from the beginning of the current year.

*This measure does not consider a placement move to a relative/fictive kin setting subsequent to a child's initial placement setting upon entering care to be an additional placement, though placements occurring after a subsequent relative/fictive kin placement are still considered to be an additional placement.

*This measure only considers children who stayed in care for at least 120 days after entering.

May, 2018

Average Number of Days in Emergency Shelter, Statewide

*The blue line represents the average number of consecutive days that were spent in an emergency shelter among children residing in a shelter at the beginning of each month, beginning in January of the previous year; the red line represents the same from the beginning of the current year.

//* DHS SENSITIVE **

May, 2018

Children in Emergency Shelter for Longer than 10 Days, Statewide

Goal = 0

*The blue line represents the number of children residing in an emergency shelter for longer than 10 consecutive days at the beginning of each month, beginning in January of the previous year; the red line represents the same from the beginning of the current year.

*The Division's goal is to completely eliminate its utilization of emergency shelters for children in foster care, with the exception of short-term stays (i.e., 10 days or less), by August 2018.

//* DHS SENSITIVE **

May, 2018

Children (Ages 12 and Younger) Placed in Congregate Care, Statewide

Goal = 0

*The blue line represents the number of children ages 12 and younger placed in congregate care at the beginning of each month, beginning in January of the previous year; the red line represents the same from the beginning of the current year.

*For this measure, "Congregate Care" includes the following placement types: Residential Treatment Care, Residential Care Only, and Emergency Shelter.

*The Division's goal is to completely eliminate its utilization of congregate care for foster children ages 12 and younger by August 2018.
