

Money Follows the Person

24 Hour Contact Information

Each participant in Money Follows the Person must have an individualized backup plan in place to respond to and address any lapse in essential services and other circumstances which could have a negative effect on participant health or welfare.

MFP participants and/or caregivers must be informed of the backup procedures, along with contact numbers, prior to transition from facility to community. In addition to the agency's 24 hour live answer telephone number, the MFP contact number must be provided to MFP participants and/or caregivers in order to report if the backup system does not work as required.
