SECTION 2 – MINIMUM REQUIREMENTS

2.1 INTRODUCTION

The Integrated Eligibility and Benefit Management Solution (IE-BM), called the Arkansas Integrated Eligibility System (ARIES), is a new, integrated, automated eligibility and work flow management solution that is being developed to replace Arkansas' legacy methods for managing eligibility for Medicaid and other human services programs that are administered by the Arkansas Department of Human Services (DHS). The legacy eligibility system is comprised of multiple modules, many of which are over twenty-five (25) years old and are unable to meet new Federal requirements. New Federal mandates approved by Congress in 2010 transformed how eligibility was calculated for many existing Medicaid recipients (those other than disabled adults and adults over sixty-five [65]), with a new process based on Modified Adjusted Gross Income and referred to as MAGI. These Federal mandates also require complicated automated workflows, system interfaces, and consumer-facing websites to simplify how consumers determine eligibility for Medicaid benefits.

When the IE-BM system is fully deployed, it is intended to manage a broad range of eligibility functions for MAGI Medicaid, traditional Medicaid, Child Health Insurance Program (CHIP), the Supplemental Nutrition Assistance Program (SNAP), Employment and Training Program (E&T) supporting SNAP, the Low Income Home Energy Assistance Program (LIHEAP), Child Care Assistance, Child Support Enforcement, Temporary Assistance to Needy Families (TANF), Arkansas' Transitional Employment Assistance (TEA), Women Infants and Children (WIC), and Veterans Services. The IE-BM functionality varies across these programs, but generally spans the functions of pre-screening, consolidating application data, qualifying eligibility, performing benefits management, performing case management, confirming redeterminations, handling change-of circumstances, and tracking overpayments to clients.

DHS has already made a significant investment in implementing an eligibility determination solution that supports Modified Adjusted Gross Income (MAGI) Medicaid leveraging the IBM Cúram platform's Health Care Reform module. The original scope for Arkansas' eligibility determination system included MAGI Medicaid, Traditional Medicaid, and the Supplemental Nutrition Assistance Program (SNAP, formerly known as Food Stamps).

In 2015 DHS performed an assessment of the eligibility determination progress and paused all implementation to assess the best approach for future work. The SNAP functionality had been developed at that point, but the 2015 assessment halted deployment of SNAP at the beginning of its User Acceptance Testing (UAT).

The System Integrator (SI) RFP (# SP-17-0012) was released in May of 2017 and, as of January 2019 Arkansas awarded the contract to Deloitte

The SI will be replacing the existing IBM Curam system with Deloitte's NextGen solution. The SI will be responsible for:

- Design, Development, and Implementation (DDI) work on the IE-BM.
- Operations and Maintenance (O&M) of all IE-BM components after implementation.
- O&M for the existing IBM Cúram solution as long as it remains in production.

The successful Bidder of this IFB shall provide UAT services for the existing Curam and future Deloitte Nextgen eligibility system including all reports generated from the existing and future eligibility reporting warehouses.

All UAT work must be performed in accordance with the Centers for Medicare and Medicaid Services (CMS) Testing Framework Overview published at <https://www.cms.gov/Research-Statistics-Data-and-Systems/CMS-Information-Technology/XLC/Downloads/TestingFramework.pdf>.

2.2 SERVICE DELIVERY LOCATION

Most services must be performed onsite in a designated DHS facility in downtown Little Rock, Arkansas and via limited, mutually agreed upon remote access for afterhours testing.

All services must be provided during normal state work hours and within the agreed upon number of days unless otherwise arranged and coordinated with the agency. The vendor shall give the agency immediate notice of any anticipated delays that will affect the service delivery requirement.

2.3 **MINIMUM QUALIFICATIONS**

The Contractor **must** meet the following requirements:

- A. The Vendor **must** be bondable. As proof of meeting this qualification the Vendor **must** include a letter of bond-ability.

For verification purpose, Vendor shall provide the following:
 1. At least three (3) past performance examples of similar functional services performed in other states within the past five (5) years.
