### **2.1 INTRODUCTION**

Specialized Private Licensed Placement Agencies (PLPA) provide foster care services in family homes for children who cannot be maintained in their own homes and have been placed in foster care; this service is for children and youth statewide in the custody of the Department of Human Services (DHS), Division of Children and Family Services (DCFS).

Private Licensed Placement Agencies are responsible for recruitment, training, licensing compliance, support, and retention of the homes. PLPA foster homes do not depend on the Department of Human Services (DHS) or the Division of Children and Family Services (DCFS) to provide these services. They complete all necessary background checks, training, home studies, and monitor all re-evaluations of the homes, including the quarterly visits, and meet all minimum licensing requirements and DCFS policy and procedures.

There are, presently, approximately 4,300 children in foster care. It has been proven that children do better in a foster home than in congregate care. DCFS values children and youth being with a family over a group home setting.

Even though there are approximately 1,500 foster care homes, more are needed that focus on a specific population. DCFS is being challenged to come up with solutions to this problem with new and innovative ideas.

One way to achieve this goal is to expand to Specialized Private Licensed Agency Foster Homes. DCFS has seen through our current Private License Placement Agency contract that placement stability is greater in PLPA settings. Also, there is an increase in reunification for children and youth in foster care. This Specialized PLPA contract is for services provided in Sebastian County and focuses directly on children twelve (12) and over, large sibling groups of three (3) or more, and children and youth transitioning from Qualified Residential Treatment Program (QRTP). Referrals will be accepted statewide.
