## 1. Introduction

### 1.1. Purpose of the document

---

This document defines the data for the ASP AFIS system.

### 1.2. Reference Documents

---

The following documents were used in the preparation of this document:

- MorphoBIS Requirements Definition Document Arkansas State Police, PF0048A

### 1.3. Assumptions

---

The following are the assumptions used in defining this document:

- Audience is MorphoTrak, Arkansas State Police, or authorized consultant
- Audience understands NIST and XML formatting

## 2. Data Table

The following list is a legend for the Criminal Tenprint Descriptors and Applicant Tenprint Descriptors tables.

Field	Description
Field No	NIST numerical field number
Field Name	Short description about the field contents
Char Type	Character Type: <b>A</b> = Alpha, <b>N</b> = Numeric, <b>S</b> = Special
Field Size Per Occur	Number of characters possible per field
Min	Minimum number of characters possible per field
Max	Maximum number of characters possible per field
Max Occur	Maximum number of times that the field may occur
PrintScan/LiveScan Profiles	Indicates condition of each descriptor for the PrintScan Station and LiveScan Station workflow profiles. <b>M</b> = Mandatory, <b>O</b> = Optional, <b>C</b> = Conditional, <b>A</b> = Auto-filled, <b>H</b> = Hidden
Crim	Criminal profile
Juv	Juvenile profile
Trng	Training profile
App	Applicant profile
PolApp	Police Applicant profile
PrntCrd	Print Card profile
Foreign Subm	Indicates condition of each descriptor for a foreign submission. <b>M</b> = Mandatory, <b>O</b> = Optional
CAR	Criminal Answer Required (CAR) transaction from a foreign device.
NFUF	Applicant (NFUF) transaction from a foreign device.
ADS	Advanced Data Storage (ADS) Subsystem
Add	Indicates the descriptors that are added to the ADS
Edit	Indicates the editable descriptors in Database Maintenance and Quality Control
Ret	Indicates the descriptors that may be used to retrieve records in Database Maintenance
CCH	Indicates condition of each descriptor for the CCH interface. <b>M</b> = Mandatory, <b>O</b> = Optional
DESC	Descriptor add transaction
FBI	Indicates condition of each descriptor for the FBI interface. <b>M</b> = Mandatory, <b>O</b> = Optional, <b>C</b> = Conditional
CAR	Criminal Tenprint Submission transaction
FIS	Fingerprint Image Submission transaction
MAP	Miscellaneous Applicant Civil transaction
NFUF	Non-Federal Applicant User Fee transaction
Mugshot Interface	Indicates condition of each descriptor for the Mugshot System interface. <b>M</b> = Mandatory, <b>O</b> = Optional, <b>C</b> = Conditional
PHOTOADD	Mugshot add record transaction
PHOTOUPDT	Mugshot update record transaction
PHOTODEL	Mugshot delete record transaction
PHOTOCID	Mugshot change record ID transaction

## 2.3. Tenprint/Mobile Search Descriptors

The tenprint search descriptors are used as filters when searching the AFIS database. The tenprint search descriptors are listed in the following table.

Field Number	Field Name	XML Tag
2.655	Sex	<SF_Sex>
2.657	Year of Birth <sup>1</sup>	<SF_YearOfBirth>

## 2.4. Tenprint Search Parameters

The tenprint search parameters specify how a record should be searched on AFIS. For example, the search parameters specify which database to search, whether or not to retain the record on the AFIS database, how many respondents to return for verification, etc. The search parameters are entered by the operator on the PrintScan Station. The default values are used for transactions coming from a LiveScan Station. The tenprint search parameters are listed in the following table.

Field Number	Field Name	XML Tag	Values	Type of Entry
N/A	Database to Search	<SP_DatabaseToSearch>	TPF ULF ULP	Not displayed; auto-filled based on type of workflow
2.674	Priority	<SP_Priority>	Privileged High Low  Low shall be default.	Non-editable picklist
2.668	Add	<SP_Add>	Yes No  Yes shall be default.	Not displayed; auto-filled based on type of workflow
2.669	Supersede	<SP_Supersede>	Yes No  Yes shall be default.	Non-editable picklist
2.662	Number of Candidates	<SP_NumberOfCandidates>	1 – 100  10 shall be default.	User entered

<sup>1</sup> Only the year portion of Field 2.022 (Date of Birth) will be used as a search descriptor.

## 2.5. Latent Descriptors

This section defines the latent descriptors used within the Morpho BIS.

## 2.6. Latent Case Descriptors

The latent case descriptors are the information related to the case. They are entered on the Latent Station using the Latent Case software application and are stored in the Latent Case Database. The following table lists the latent case descriptors along with their characteristics.

Field Name	Char Type	Min Field Size	Max Field Size	Max Occur	Condition	Pick List	Comments
Case ID	N	12	12	1	M		
User	ANS	1	20	1	M		Auto-fill

Category	ANS	1	50	1	O		
Date	NS	10	10	1	M		Auto-fill Format: DD/MM/CCYY
Description	ANS	1	255	1	O		

## 2.7. Latent Case Filters

The latent case filters are identical to the latent case descriptors and allow the latent operator to filter out records from the Latent Case Database. The latent case filters are listed in the following table.

Field Name	Char Type	Min Field Size	Max Field Size	Pick List	Comments
Case ID	N	1	12		
User	ANS	1	20	√	
Date From	NS	10	10	√	Format: DD/MM/CCYY

Victim	ANS	1	50		
Agency	ANS	1	50		
Crime Type	ANS	1	50		
Category	ANS	1	50		

## 2.8. Latent File/Search Descriptors

The latent file descriptors are stored with the latent record in the UL database on the ADS, along with the latent images. The latent search descriptors can be used as filters when searching the AFIS database.

The latent file and search descriptors are listed in the following table.

Field Name	Char Type	Min Field Size	Max Field Size	Max Occur	Entry Condition	Search Filter	ADS Retrieve
Case ID	N	12	12	1	M	N	√
Sex	A	1	1	1	O	Y	√

Record Type	AS	8	17	1	O	Y	√
Arrest Code	AN	3	7	1	O	Y	√
Latent Quality	A	3	7	1	O	N	

## 2.9. Latent Search Parameters

The latent search parameters specify how a record should be searched on the AFIS. For example, the search parameters specify which database to search, whether or not to retain the record on the AFIS database, how many respondents to return for verification, etc. The search parameters are entered by the operator on the Latent Station in the search submission screen. The latent search parameters are listed in the following table.

Name	Values	Type of Entry
Database to Search	TPF PALM ULF ULP	User selected option button
Priority	Privileged High Low  Low shall be default.	Non-editable picklist
Rotations	1 – 12  3 shall be default.	Non-editable picklist
Add	Yes No  Yes shall be default.	Non-editable picklist
Number of Candidates	1 – 100  30 shall be default.	User entered

## 3. Field Definitions

All fields (in alphabetical order) from the table are entered in this section for capture of definition and additional information.

### 3.1. Tenprint Field Definitions

This section provides the field definitions for the tenprint descriptors.

#### 2.001 Logical Record Length

This field contains the length of the logical record specifying the total number of bytes, including every character of every field contained in the record. The number of characters added to the record by the Logical Record Length (LEN) field itself should be included in calculating the value of the LEN. This field is automatically generated by the LiveScan Station and PrintScan Station.

#### 2.002 Image Designation Character

This field shall be used to identify the user-defined text information contained in this record. The Image Designation Character (IDC) contained in this field shall be the IDC of the Type-2 logical record as found in the file content field of the Type-1 record. The value of this field shall be 00.

#### 2.005 Retain at FBI

This field indicates whether the record is to be saved at the FBI. The valid yes/no response codes are listed in Table 3-1. The default picklist value shall be "Y."

Note: A value of "X" (upper case) is used in Criminal State Only and Applicant State Only workflows (CAR and NFUF) to indicate that the search is only performed at the state (no IAFIS submission).

**Table 3-1. Yes/No Response Picklist**

Description	Response Code
Yes	Y
No	N
State search only	X

#### 2.006 Attention Indicator

This field contains a designation of the individual to whose attention a response is to be directed. The minimum field length is three characters. The maximum field length is 30 characters. Valid alpha characters are A-Z and a-z. Valid numeric characters are 0-9. Any printable 7-bit ASCII character is allowed as a special character with the exception of the period. A period will not be allowed as a special character for this field.

#### 2.014 FBI Number

This field contains the FBI Number of the subject. The minimum field length is one character, and the maximum field length is nine characters. Valid alpha characters are A-Z. Valid numeric characters are 0-9.

#### 2.015 State ID

This field contains the State ID (SID) of the subject. Printrak BIS shall automatically generate the State ID for criminal transactions in the format, **131nnnnnnnnn**, where **nnnnnnnnn** is a sequential number starting at **000000000**. The 131n portion of the State ID shall be changed to **AR** for submissions to the FBI. The SID on the transactions being submitted to the FBI will have a total of 10 characters.

## 2.016 Social Security Number

This field contains the Social Security Number of the subject. The minimum and maximum field length is 11 characters. Valid numeric characters are 0-9. Valid special characters are hyphens. The social security number will be displayed in the format, **nnn-nn-nnnn**. The following social security numbers are not allowed: 000-00-0000, 999-99-9999, and 123-45-6789.

## 2.017 Incident ID (Arrest Tracking Number)

This field contains the Incident ID or Arrest Tracking Number (ATN) of the subject. The ATN has a minimum and maximum field length of 12 characters. Valid alpha characters are A-Z. Valid numeric characters are 0-9.

The ATN is scanned in from a barcode at the MultiPrint Station and PrintScan Station.

The ATN is automatically generated at the LiveScan Station using the following format, **aaannnnnnnnn**, where:

**aaa = NBK** for arsplss012  
**aaan = PCS1** for arsplss002  
**aaa = UNC** for arsplss003  
**aaa = DOC** for arsplss004  
**aaa = JFN** for arsplss005  
**aaa = STF** for arsplss006  
**aaa = CRT** for arsplss007  
**aaa = MSC** for arsplss008  
**aaa = CRG** for arsplss009  
**aaa = WHT** for arsplss010  
**aaa = JXP** for arsplss011  
**aaa = PL1** for arsplss001

**aaan = PCS2** for arsplss013  
**aaa = SHW** for arsplss014  
**aaa = FLK** for arsplss015  
**aaa = WSH** for arsplss016  
**aaa = RPD** for arsplss017  
**aaa = SEB** for arsplss018  
**aaa = SAL** for arsplss019  
**aaa = POP** for arsplss020  
**aaa = GAR** for arsplss021  
**aaa = TXP** for arsplss022  
**aaa = PL2** for arsplss002

**nnnnnnnnn** or **nnnnnnnnn** is a sequential number.

## 2.018 Fbi Name

This field is not displayed. It is a hidden field and contains the name of the subject in the FBI format: <Last Name>, <First Name> <Middle Name> <Suffix>. The Last Name, First Name, Middle Name, and Suffix fields are concatenated to create the contents of this field. The name format shall have the following order: mandatory surname, mandatory comma, space (optional), mandatory first name or initial, space (include only if middle name or initial will follow), middle name(s) or initial(s) if any, mandatory space after each middle name or initial, and suffix denoting seniority (e.g., JR, II, etc.) if any. The minimum field length is one character. The maximum field length is 30 characters. Valid alpha characters are A-Z and a-z. Valid special characters are hyphens, commas, and blanks.

## 2.019 City of Birth

This field contains the city where the subject was born. The field number, 2.019, shall be used to indicate the City of Birth field for CCH submissions. The minimum field length is one character. The maximum field length is 15 characters. Valid alpha characters are A-Z. Valid special characters are blanks.

### 2.019 Aliases

This field is not displayed. It is a hidden field and contains the alias names of the subject in FBI format: <Alias Last Name>, <Alias First Name> <Alias Middle Name> <Alias Name Suffix>. The Alias Last Name, Alias First Name, Alias Middle Name, and Alias Name Suffix fields are concatenated to create the contents of this field. The alias name format shall have the following order: surname, mandatory comma, space (optional), first name or initial, space (include only if middle name or initial will follow), middle name(s) or initial(s) if any, mandatory space after each middle name or initial, and suffix denoting seniority (e.g., JR, II, etc.), if any. The field number, 2.019, shall be used to indicate the Aliases field for FBI submissions. This field is a record field with a maximum occurrence of 10. The minimum field length is three characters. The maximum field length is 30 characters. Valid alpha characters are A-Z. Valid special characters are hyphens, commas, and blanks.

### 2.020 State of Birth

This field is used for criminal transactions and contains the subject's place (state) of birth. The valid state codes for this field are listed in Table 3-2. The default picklist value shall be "AR."

**Table 3-2. State/Place Picklist**

### 2.035 Palm Prints Available

This field indicates whether the subject's palmprints are included in the record. The valid yes/no response codes are listed in Table 3-9.

**Table 3-9. Yes Response Picklist**

Description	Response Code
Yes	Y
No	N

### 2.036 Photo Available

This field indicates whether the subject's photograph is included in the record. The valid yes/no response codes are listed in Table 3-9. The default picklist value shall be "Y."

### 2.037 Reason Fingerprinted

This field contains the reason why the subject was fingerprinted. The minimum field length is one character, and the maximum field length is 54 characters. Valid alpha characters are A-Z. Valid numeric characters are 0-9. Valid special characters are hyphens, slashes, and blanks.

### 2.038 Date Printed

This field is not displayed. It is a hidden field and contains the date the subject was fingerprinted and is automatically populated with data from the "Date of Arrest" (2.045) field. The date shall be eight digits in the format, **CCYYMMDD**.

### 2.039 Employer

This field contains the name of the subject's employer. The minimum field length is one character, and the maximum field length is 30 characters. Valid alpha characters are A-Z. Valid numeric characters are 0-9. Any printable 7-bit ASCII character is allowed as a special character.

## **2.040 Occupation**

This field contains the name of the subject's occupation. The minimum field length is one character, and the maximum field length is 30 characters. Valid alpha characters are A-Z. Valid numeric characters are 0-9. Any printable 7-bit ASCII character is allowed as a special character.

## **2.041 Subject's Residence**

This field contains the subject's place of residence. It is a grouped field consisting of eight subfields: Street Number, Street Name, Apartment Number, Rural Route, Rural Route Box, City, State, and Zip Code.

### **Street Number**

This field contains the street number of the subject's place of residence. The minimum field length is one character, and the maximum field length is six characters. Valid alpha characters are A-Z. Valid numeric characters are 0-9. Any printable 7-bit ASCII character is allowed as a special character.

### **Street Name**

This field contains the street name of the subject's place of residence. The minimum field length is one character, and the maximum field length is 60 characters. Valid alpha characters are A-Z. Valid numeric characters are 0-9. Any printable 7-bit ASCII character is allowed as a special character.

### **Apartment Number**

This field contains the apartment number of the subject's place of residence. The minimum field length is one character, and the maximum field length is eight characters. Valid alpha characters are A-Z. Valid numeric characters are 0-9. Any printable 7-bit ASCII character is allowed as a special character.

### **Rural Route**

This field contains the rural route of the subject's place of residence. The minimum field length is one character, and the maximum field length is four characters. Valid alpha characters are A-Z. Valid numeric characters are 0-9. Any printable 7-bit ASCII character is allowed as a special character.

### **Rural Route Box**

This field contains the rural route box of the subject's place of residence. The minimum field length is one character, and the maximum field length is four characters. Valid alpha characters are A-Z. Valid numeric characters are 0-9. Any printable 7-bit ASCII character is allowed as a special character.

### **City**

This field contains the city of the subject's place of residence. The minimum field length is one character, and the maximum field length is 15 characters. Valid alpha characters are A-Z. Valid numeric characters are 0-9. Any printable 7-bit ASCII character is allowed as a special character.

**State**

This field contains the state of the subject's place of residence. The valid state codes for this field are listed in Table 3-2. The default picklist value shall be "AR."

**Zip Code**

This field contains the zip code of the subject's place of residence. The minimum and maximum field length is five characters. Valid numeric characters are 0-9.

**2.045 Date of Arrest**

This field contains the subject's date of arrest. The date shall be eight digits in the format, **CCYYMMDD**.

**2.047 Arrest Segment Literal**

This field contains the subject's arrest segment information. It is a grouped field consisting of two subfields: Date of Offense and Arrest Offense Literal. The maximum number of occurrences is 40.

**Date of Offense**

This field contains the subject's date of offense. The date shall be eight digits in the format, **CCYYMMDD**.

**Arrest Offense Literal**

This field is not displayed. It is a hidden field and contains a description of the offense charged on an arrest. This field is automatically generated with the literal portion of the Charge Info subfield (of field 2.750, Charge Information). The minimum field length is one character. The maximum field length is 300 characters. Valid alpha characters are A-Z. Valid numeric characters are 0-9. Any printable 7-bit ASCII character is allowed as a special character.

**2.056 Additional Information**

This field contains any additional information regarding the arrest. The minimum field length is one character. The maximum field length is 30 characters. Valid alpha characters are A-Z. Valid numeric characters are 0-9. Valid special characters are blanks.

**2.060 Status/Error Message**

This field contains reasons, status, or error messages that are generated as a result of the processing of a transaction and will be sent back to the submitter. The minimum field length is one character. The maximum field length is 128 characters. Valid alpha characters are A-Z. Valid numeric characters are 0-9. Any printable 7-bit ASCII character is allowed as a special character.

**2.070 Request for Rapsheet**

This field indicates whether an electronic rap sheet is requested from the FBI. The value of this field shall automatically be set to "Y" before submission to the FBI.

**2.073 Controlling Agency Identifier**

This field is not displayed. It is a hidden field and indicates the controlling agency's identifier. It is automatically generated with data from field 2.880, Originating Agency ID.

## 2.084 Exemptions

This is a grouped field consisting of two subfields: Finger Number and Code. The maximum number of occurrences is nine.

### Finger Number

This field contains the two digit finger number as listed in Table 3-10.

**Table 3-10. Finger Number**

Finger Position	FGP
Right Thumb	01
Right Index	02
Right Middle	03
Right Ring	04
Right Little	05
Left Thumb	06
Left Index	07
Left Middle	08
Left Ring	09
Left Little	10

### Code

This field contains the two character amputation or bandaged code as listed in Table 3-11.

**Table 3-11. Amp Code**

Description	Code
Amputation	XX
Unable to print (e.g., bandaged)	UP

## 2.700 Person ID

This field contains the Person ID of the subject. The Person ID is a 12-digit number that is used on the AFIS to store criminal and applicant incidents under one person number. Printrak BIS shall automatically generate the Person ID in the format, **5nnnnnnnnnnnn**, where **nnnnnnnnnnnn** is a sequential number starting at **0000000001**.

### 2.701 First Name

This field contains the subject's first name. The minimum field length is one character. The maximum field length is 15 characters. Valid alpha characters are A-Z.

### 2.702 Last Name

This field contains the subject's last name. The minimum field length is one character. The maximum field length is 20 characters. Valid alpha characters are A-Z.

### 2.703 Middle Name

This field contains the subject's middle name. The minimum field length is one character. The maximum field length is 20 characters. Valid alpha characters are A-Z.

### 2.704 Suffix

This field contains the subject's suffix name. The valid suffix codes for this field are listed in Table 3-12.

**Table 3-12. Suffix Picklist**

Suffix Name	Suffix Code
JR	JR
SR	SR
I	I
II	II
III	III
IV	IV

### 2.707 Record Type

This field contains the record type of the transaction. The valid record type codes for this field are listed in Table 3-13.

**Table 3-13. Record Type Picklist**

Record Type	Record Type Code
Applicant	Applicant
Criminal	Criminal
Juvenile	Juvenile
Police Applicant	PoliceApplicant

### 2.719 Build (Body Type)

This field contains the subject's build or body type. The valid body type codes for this field are listed in Table 3-14.

**Table 3-14. Body Build Picklist**

Body Build	Body Build Code
Emaciated	Emaciated
Heavy	Heavy
Light	Light
Medium	Medium
Muscular	Muscular
Obese	Obese

### 2.720 Scar Information

This field contains any scar information on the subject's body. It is a grouped field consisting of two subfields: Scar Type and Scar Location. The maximum number of occurrences is 10.

#### Scar Type

This field contains the type of scar on the subject's body. The valid scar type codes for this field are listed in Table 3-15.

**Table 3-15. Scar Type Picklist**

Scar Type	Scar Type Code
Burn	Burn
Cut	Cut

### Scar Location

This field contains the location of the scar on the subject's body. The valid scar location codes for this field are listed in Table 3-16.

**Table 3-16. Scar Location Picklist**

This field contains the name and address of a non-relative to the subject. It is a grouped field consisting of nine subfields: Non-Relative's Name, State, City, Zip Code, Rural Route, Rural Route Box, Street Name, Street Number, and Apartment Number. The maximum number of occurrences is 10.

**Non-Relative's Name**

This field contains the non-relative's name. The minimum field length is one character. The maximum field length is 30 characters. Valid alpha characters are A-Z. Valid numeric characters are 0-9. Any printable 7-bit ASCII character is allowed as a special character.

**State**

This field contains the state of the place of residence of the non-relative. The valid state codes for this field are listed in Table 3-2.

### City

This field contains the city of the place of residence of the non-relative. The minimum field length is one character, and the maximum field length is 15 characters. Valid alpha characters are A-Z. Valid numeric characters are 0-9. Any printable 7-bit ASCII character is allowed as a special character.

### Zip Code

This field contains the zip code of the place of residence of the non-relative. The minimum and maximum field length is five characters. Valid numeric characters are 0-9.

### Rural Route

This field contains the rural route of the place of residence of the non-relative. The minimum field length is one character, and the maximum field length is four characters. Valid alpha characters are A-Z. Valid numeric characters are 0-9. Any printable 7-bit ASCII character is allowed as a special character.

### Rural Route Box

This field contains the rural route box of the place of residence of the non-relative. The minimum field length is one character, and the maximum field length is four characters. Valid alpha characters are A-Z. Valid numeric characters are 0-9. Any printable 7-bit ASCII character is allowed as a special character.

### Street Name

This field contains the street name of the place of residence of the non-relative. The minimum field length is one character, and the maximum field length is 60 characters. Valid alpha characters are A-Z. Valid numeric characters are 0-9. Any printable 7-bit ASCII character is allowed as a special character.

### Street Number

This field contains the street number of the place of residence of the non-relative. The minimum field length is one character, and the maximum field length is six characters. Valid alpha characters are A-Z. Valid numeric characters are 0-9. Any printable 7-bit ASCII character is allowed as a special character.

### Apartment Number

This field contains the apartment number of the place of residence of the non-relative. The minimum field length is one character, and the maximum field length is eight characters. Valid alpha characters are A-Z. Valid numeric characters are 0-9. Any printable 7-bit ASCII character is allowed as a special character.

## 2.877 Deformities

This field indicates any deformities on the subject. The valid deformities codes are listed in Table 3-24.

**Table 3-24. Deformities Location Picklist**

Deformities Location	Deformities Code
Cauliflower ear, left	CAUL L EAR
Cauliflower ear, right	CAUL R EAR

## 2.878 Nationality

This field indicates the subject's nationality. The valid nationality codes are listed in Table 3-25.

**Table 3-25. Nationality Picklist**

Nationality	Nationality Code
USA	USA
CANADA	CANADA
MEXICO	MEXICO
OTHER	OTHER

## 2.879 Moles

This field indicates whether any moles exist on the subject's body. It is a grouped field consisting of two subfields: Mole Type and Mole Location. The maximum number of occurrences is 10.

### Mole Type

This field contains the type of mole on the subject's body. This field shall default to "MOLE."

### Mole Location

This field contains the location of the mole on the subject's body. The valid mole location codes for this field are listed in Table 3-26.

**Table 3-26. Mole Location Picklist**

Mole Location	Mole Code
Abdomen	MOLE ABDOM

### 2.880 Originating Agency ID

This field indicates the originating agency's identifier. The valid originating agency identifiers are listed below in Pick List section.

### 2.882 Amputation

This field indicates whether the subject has any amputations. The valid yes/no response codes are listed in Table 3-9.

### 2.901 Today's Date

This field contains the current date. The date shall be eight digits in the format, **CCYYMMDD**.

### 2.950 Employer Address

This field contains the subject's employer's address. The minimum field length is one character, and the maximum field length is 54 characters. Valid alpha characters are A-Z. Valid numeric characters are 0-9. Any printable 7-bit ASCII character is allowed as a special character.

---

**2.951 County of Arrest**

This field indicates the county where the subject was arrested. The valid county codes are listed below in the Pick List section.

**2.952 City of Arrest**

This field indicates the city where the subject was arrested. The minimum field length is one character, and the maximum field length is 15 characters. Valid alpha characters are A-Z. Valid special characters are blanks.

**2.957 Hostname**

This field is not displayed. It is a hidden field that contains the hostname of the computer that generated the booking. The minimum field length is one character, and the maximum field length is 10 characters. The value of this field is automatically set by the software.

**2.958 Username**

This field is not displayed. It is a hidden field that contains the username of the person that generated the booking. The minimum field length is one character, and the maximum field length is 20 characters. The value of this field is automatically set by the software.

---

**3.2. Latent Case Field Definitions**

---

This section provides the field definition for the latent descriptors.

**Agency**

This field shall specify the name of the agency for which the latent case is being processed. It shall be used as a latent case descriptor and filter. The minimum field length is one character, and the maximum field length is 50 characters. Valid alpha characters are A-Z. Valid numeric characters are 0-9. Any printable 7-bit ASCII character is allowed as a special character.

**Case ID**

This numeric field shall contain the Case ID or Latent Case Number of the latent case. It shall be used as a latent case descriptor and filter. As a latent case descriptor, this field shall have a minimum and maximum field length of seven characters. As a latent case filter, this field shall have a minimum field length of one character and a maximum field length of seven characters. Valid numeric characters are 0-9.

**Category**

This field shall specify the category of the latent case. It shall be used as a latent case descriptor and filter. The minimum field length is one character, and the maximum field length is 50 characters. Valid alpha characters are A-Z. Valid numeric characters are 0-9. Any printable 7-bit ASCII character is allowed as a special character.

**Crime Type**

This field shall specify the crime type of the latent case. It shall be used as a latent case descriptor and filter. The minimum field length is one character, and the maximum field length is 50 characters. Valid alpha characters are A-Z. Valid numeric characters are 0-9. Any printable 7-bit ASCII character is allowed as a special character.

**Date**

This latent case descriptor shall contain the date the case was added to the LCD. It shall be automatically set to the current date in the format, MM/DD/CCYY.

**Date From**

This latent case filter is used in conjunction with the "Date To" field. It specifies the beginning date of a date range when a case was added to the LCD. A calendar box shall be provided for entry. The valid special character is "/".

**Date To**

This latent case filter is used in conjunction with the "Date From" field. It specifies the end date of a date range when a case was added to the LCD. A calendar box shall be provided for entry. The valid special character is "/".

**Description**

This field shall contain the description of the case. It shall be used as a latent case descriptor and filter. The minimum field length is one character, and the maximum field length is 255 characters. Valid alpha characters are A-Z. Valid numeric characters are 0-9. Any printable 7-bit ASCII character is allowed as a special character.

**Location**

This field shall specify the location of the crime in question. It shall be used as a latent case descriptor and filter. The minimum field length is one character, and the maximum field length is 50 characters. Valid alpha characters are A-Z. Valid numeric characters are 0-9. Any printable 7-bit ASCII character is allowed as a special character.

**Race**

This field shall specify the race of the subject. It shall be used as a latent file and search descriptor. The valid values are listed in Table 3-5.

**Sex**

This field shall specify the gender of the subject. It shall be used as a latent file and search descriptor. The valid values are listed in Table 3-4.

**User**

This field shall contain the user name used by the operator when logging on to the Latent Station. It shall be used as a latent case descriptor and filter. As a latent case descriptor, this field shall be automatically set to the user name of the operator logged on to the Latent Station. As a latent case filter, a picklist of all users on the system shall be available for this field.

**Victim**

This field shall specify the victim of the crime in question. It shall be used as a latent case descriptor and filter. The minimum field length is one character, and the maximum field length is 50 characters. Valid alpha characters are A-Z. Valid numeric characters are 0-9. Any printable 7-bit ASCII character is allowed as a special character.

**Year of Birth**

---

This field shall specify the year of birth of the subject. It shall be used as a latent file and search descriptor. The year shall be four digits in the format, CCYY. The valid values are 1800 – 9999.
