Reports of Child Maltreatment

Quick Facts

Volume and Description of Child Maltreatment Reports

Volume of Incoming Reports

Maltreatment Reports Received During
SFY 2021

Of the 30,935 reports of child maltreatment accepted by the Arkansas Child Abuse Hotline during State Fiscal Year (SFY) 2021, 81 percent were assigned to DCFS and 19 percent were assigned to the Crimes Against Children Division (CACD) of the Arkansas State Police, which is responsible for investigating the most serious allegations of maltreatment.

Of the reports assigned to DCFS, 84 percent were assigned for an investigation and 16 percent were handled through Differential Response (DR).

DR allows the Division to respond to specific, low-risk maltreatment reports through a family assessment and provision of services rather than a traditional investigation.

The following types of allegations can qualify for DR:

- Inadequate Supervision if children are at least five
- Environmental Neglect if children are at least three
- Medical Neglect if children are at least thirteen
- Lock Out if children are at least ten
- Inadequate Food, Inadequate Shelter, Inadequate Clothing, and Educational Neglect with no age restrictions
- Certain allegations of abuse where the incident occurred at least one year prior to the report date

Quick Facts

Findings of Child Maltreatment Investigations

Twenty-six percent of the investigations assigned to DCFS during SFY 2021 were found true, compared to 38 percent for CACD. The overall substantiation rate stood at 29 percent.

Percentage Of Investigations Found True

Characteristics of Children Involved in True Investigations

There were 9,960 victim children involved in the maltreatment investigations that were found true.

Of those children, 63 percent were white and 19 percent were black. Children ages five and younger accounted for nearly half (49 percent) of the victim children.

A majority of the victim children during SFY 2021 (55 percent) were female.

Race/Ethnicity of Children in True Reports

Ages of Children in True Reports

Types of Allegations in True Investigations

The majority of the 9,960 victim children in true investigations were involved in allegations of neglect (71 percent), followed by allegations of physical abuse and sexual abuse (19 percent each).

Percentage of Children in True Allegations of Maltreatment

	Number of Children Cited in True Allegation	Percentage of Children Cited in True Allegation
Neglect	7,049	71%
Physical Abuse	1,918	19%
Sexual Abuse	1,884	19%
Sexual Exploitation	126	1%
Abandonment	77	<1%

A child may have more than one allegation.

During SFY 2021, there were 53 maltreatment investigations involving a child fatality. While some investigations were still pending, the majority of those in which a disposition had been rendered were found true. There were 16 investigations of near child fatalities during the year; most of those were also found true.

Appendix G includes more details regarding the fatality and near fatality cases that are disclosable at the time of this report's release.

Reports Assigned for Differential Response (DR)

Number of Reports Assigned to Differential Response

The number of reports assigned to DR during SFY 2021 (4,029) decreased by five percent from SFY 2020.

Types of Allegations Cited in Reports Assigned for DR

Allegations Cited in DR Reports

Inadequate supervision and environmental neglect were the most commonly cited allegations in reports assigned to DR during the year, followed by educational neglect.

¹ These 38 reports include one with an overall finding of Exempt (No Risk).

Quick Facts

Meeting Agency Policies

Timeliness of Initiating Investigations

The law requires reports of maltreatment to be initiated within 24 hours of a Priority I report or within 72 hours of a Priority II report.

Priority I reports cite more severe allegations while Priority II reports cite comparatively less serious allegations.

Initiation occurs when all victim children are interviewed or observed (if too young for an interview) within the designated timeframes.

DCFS initiated 85 percent of its investigations on time during SFY 2021, performing better on its Priority I investigations than Priority II.

Timely Initiation of Child Maltreatment Assessments (DCFS Only)

Timeliness of Completing Investigations

DCFS completed 81 percent of its investigations on time (within 45 days of receipt of the report) during SFY 2021, identical to the previous two years.

Timely Completion of Child Maltreatment Assessments (DCFS Only)

Quick Facts

Timeliness of Initiating Reports Assigned to DR

Timely Initiation of DR Reports

DR referrals must be initiated within 72 hours of receipt of the report.

DCFS initiated 79 percent of its DR reports on time during SFY 2021, an improvement over the previous year.

Timeliness of Completing Reports Assigned to DR

Timely Closure of DR Reports

Reports assigned to DR are to close within 30 days of receipt of the report. In certain instances when the families' needs necessitate longer involvement, two 15-day extensions can be granted, for a total of 60 days.

The agency closed 76 percent of its DR reports on time during SFY 2021, taking into account reports in which extensions were granted.

Quick Facts

Benefits to Children and Families

Preventing the Recurrence of Maltreatment

Four percent of the victim children involved in true investigations experienced a recurrence of maltreatment within six months. Seven percent experienced a recurrence of maltreatment within 12 months.

Recurrence of Maltreatment within 6 and 12 Months

The National Standard for recurrence within 12 months is 9.1 percent or less.

Recurrence of Maltreatment Among Families who Received DR

Three percent of the children who began receiving DR services were involved in a true investigation of child maltreatment within six months, and five percent were involved in a true investigation within 12 months.

Involvement in True Maltreatment Reports within 6 and 12 Months of Receiving DR Services

In-Home Services

Quick Facts

Volume and Description of Cases

Volume of Cases

In most instances DCFS offers in-home services through a protective services case, which is opened when a true maltreatment report or court order necessitates DCFS' involvement with a family but there is not an immediate threat to any child's safety in the home.

The number of in-home protective services cases open at the end of SFY 2021 increased by eight percent from one year ago. At the end of the year, there were 2,657 in-home protective services cases open across the state, involving 6,296 children.

The Division also offers in-home supportive services to families on a voluntary basis. DCFS was responsible for 220 supportive services cases at the end of the year.

Number of In-Home Cases

Length of Time Cases Have Been Open

Average Number of Days Cases Have Been Open

In-home protective services cases that were active as of the end of SFY 2021 had been open, on average, for between five and six months. Supportive services cases have stayed open, on average, for just under five months.

Quick Facts

Ages of Children in In-Home Protective Services Cases

Nearly half (48 percent) of the children involved in in-home protective services cases at the end of SFY 2021 were ages five or younger.

Ages of Children in In-Home Cases

Meeting Agency Policies

Monthly Visits to In-Home Protective Services Cases

On average, 73 percent of the in-home cases received a face-to-face monthly visit from a caseworker during SFY 2021, slightly less than the previous year (75 percent).

Required Monthly Visits to In-Home Cases

Quick Facts

Benefits to Children and Families

Victimization Rate Among Children Who Received Protective and Supportive Services

Percentage of Children Receiving Supportive and Protective Services who were Abused or Neglected within One Year of the Initiation of Service

Of the children who began receiving in-home protective services during the year prior to SFY 2021, eight percent experienced a true report of maltreatment within one year. Of the children who began receiving supportive services during the year prior to SFY 2021, five percent were involved in a true report within one year.

Rate of Entry Into Foster Care Among Children Who Received Protective and Supportive Services

Percentage of Children Receiving Supportive or Protective Services who Entered Foster Care within One Year of the Initiation of Service

Of the children who began receiving protective services one year prior to SFY 2021, eight percent entered foster care within one year of the initiation of those services. Meanwhile, two percent of the children who began receiving supportive services during the same timeframe entered care within one year.

Overall, in-home services prevent the vast majority of the children from being re-victimized or entering foster care within one year of initiation.

Quick Facts

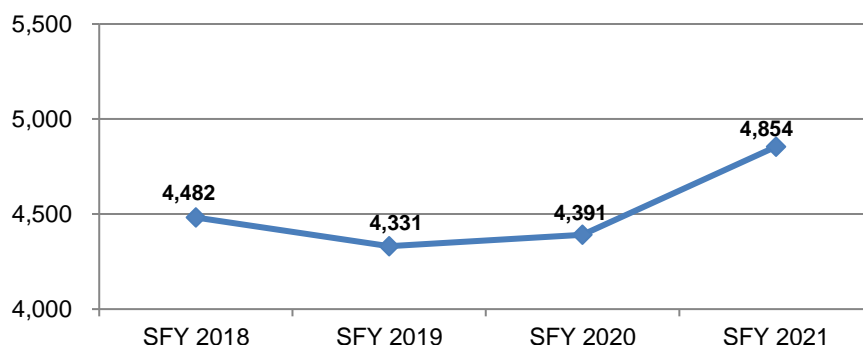

Foster Care

Volume and Description of Cases

Number of Children in Foster Care

There were 4,854 children in foster care at the end of SFY 2021. This signified an increase of nearly 11 percent from SFY 2020 (4,391).

Number of Children in Foster Care

Characteristics of Children in Foster Care

At the end of SFY 2021, children two to five years of age (25 percent) represented the largest group of children in foster care. Sixty percent of those in care were white and 20 percent were black.

Of the children in foster care at the end of SFY 2021, 50 percent were male and 50 percent were female.

Race/Ethnicity of Children in Foster Care

Child Aged Out	178	6%
Guardianship	112	4%
Non-Custodial Parent Custody	64	2%
Non-Relative Custody	37	1%
All Other Reasons	19	1%

National data³ indicate that the three most prevalent reasons children leave care are reunification (47%), adoption (26%), and guardianship (11%).

Forty-three percent of the children who left foster care during SFY 2021 were reunified with their own family, 26 percent were adopted, and 16 percent were discharged to relative custody.

Overall, 93 percent of the children exiting care in Arkansas achieved permanency either by returning home or via discharge to relatives, an adoptive home, or another permanent arrangement.

² These 1,661 cases of substance abuse include 1,452 instances of parental drug abuse, 149 instances of parental alcohol abuse, 51 instances of drug abuse by children, and 9 instances of alcohol abuse by children.

³ National data from the Children's Bureau (August 2020).

Quick Facts

Length of Stay in Foster Care

Of the children in foster care at the end of SFY 2021, the majority (52 percent) had been in care for less than 12 months.

Placements of Children in Foster Care

Overall, 83 percent of the children in foster care at the end of SFY 2021 resided in a family-like setting (foster family home, relative placement, trial home visit, therapeutic foster home, pre-adoptive home).

Seven percent resided in congregate care, which represents placement in a qualified residential treatment program (QRTP), residential treatment care or residential care only program, or emergency shelter.

Placement of Children in Foster Care

Permanency Goals of Children in Foster Care

Fifty-four percent of the children in care at the end of SFY 2021 had a permanency goal of reunification (return home) and 24 percent had a goal of adoption.

These figures differ only slightly from national data from the Children's Bureau as of August 2020, with averages of 55 percent for reunification and 28 percent for adoption.

Permanency Goals of Children in Foster Care

Meeting Agency Policies

Monthly Visits to Children in Foster Care

Children in Care who Received Monthly Face-to-Face Visits by Caseworkers

Children in Care who Received Monthly Face-to-Face Visits by Any DCFS Staff

To ensure safety and well-being, best practice requires children in foster care to be visited in their placements by their caseworkers each month. The Division's goal is to make 95 percent of these visits.

DCFS caseworkers made 82 percent of their required monthly face-to-face visits with children in care statewide during SFY 2021.

On average, 90 percent of the children received a face-to-face monthly contact from *any* DCFS staff member—regardless of the staff member's position, location of the visit, or the purpose—during the year.

Initial Health Screenings and Comprehensive Health Assessments

24-hour and 72-Hour Initial Health Screening and Comprehensive Health Assessments

Depending on the severity of alleged maltreatment that leads to a child's entry into care, DCFS must complete either a 24-hour initial health screening (IHS) or 72-hour IHS. Children must also receive a Comprehensive Health Assessment (CHA) within 60 days of entering care.

DCFS completed 62 percent of its required 24-hour IHSs, 72 percent of its 72-hour IHSs, and 67 percent of its CHAs on time during SFY 2021.

Quick Facts

Siblings in Placement Who Are Placed Together

At the end of SFY 2021, 76 percent of the children with siblings in foster care were placed with at least one of their siblings, while 55 percent were placed with all of their siblings.

These figures do not exclude children who were placed separately for valid reasons such as safety issues or court orders.

Siblings in Care who are Placed Together

Placement Stability of Children in Foster Care

Placement stability is measured by the rate of placement moves per 1,000 days in foster care for children who enter care over a 12-month period.

For SFY 2021, the placement stability rate was 5.51, an improvement over previous years. The national standard is a rate of 4.12.

Rate of Placement Moves Per 1,000 Days in Foster Care

Quick Facts

Benefits to Children and Families

Achieving Permanency Within Twelve Months

Arkansas continues to exceed the national standard of 40.5 percent or more for achieving permanency (i.e., exiting foster care to a permanent living situation) for children within 12 months of removal.

Discharges from foster care due to reunification, relative custody, non-custodial parent custody, guardianship, adoption, and non-relative custody are considered to be permanent living situations.

Preventing Children's Re-Entry Into Foster Care

For SFY 2021 just over six percent of the children who were discharged to their families re-entered foster care within 12 months. The Division consistently meets the national standard of 8.3 percent or less.

Quick Facts

Adoption

Volume and Description of Cases

Children Available for Adoption ⁴

At the end of SFY 2021, 420 children were available for adoption.

DCFS estimates that it has identified a possible pre-adoptive placement for approximately 20 percent of the children available for adoption.

DCFS modified its definition of children available for adoption during SFY 2018 to more accurately identify the number of children who are truly in need of an adoptive family.

Number of Children Available for Adoption

Characteristics of Children Available for Adoption

Of the available children, 67 percent were white, 14 percent were multiracial, and 12 percent were black. Children ages 10 and older made up the majority (63 percent) of the children available for adoption.

Race/Ethnicity of Children Available for Adoption

Ages of Children Available for Adoption

⁴ Children available for adoption are defined as those who (1) have a termination of parental rights on both parents, (2) have a permanency goal of adoption, and (3) are not placed with relatives, fictive kin, or a pre-adoptive family.

Quick Facts

Placement of Children Available for Adoption

The majority (65 percent) of the children available for adoption at the end of SFY 2021 resided in either a foster family home or therapeutic foster home.

Meeting Agency Policies

Length of Time to Adoption

The average length of time from termination of parental rights (TPR) until adoption finalization was 12.3 months during SFY 2021, an improvement over the previous year but slightly longer than the national average (11.8 months).

Quick Facts

Benefits to Children and Families

Finalized Adoptions

Seven-hundred and thirty-two adoptions were finalized during SFY 2021.

Thirty-five percent of the adoptions finalized during the year were by relatives.

Race/Ethnicity of Children with Finalized Adoption

Ages of Children with Finalized Adoption

Children ages zero to five made up the majority (54 percent) of children who were adopted during SFY 2021. Those ages six to nine made up 19 percent.

Subsidized Adoptions

Subsidies are given to children with special needs, defined as:

- Caucasian and over nine
- African-American and at least two
- At least two members of a sibling group
- Children who have severe medical or psychological needs that require ongoing treatment
- Children at high risk for the development of serious physical, mental, or emotional conditions documented by a medical professional.

During SFY 2021, **719** children began receiving adoption subsidies. Of those, 702 were federally-funded and 17 were state funded subsidies.

During SFY 2021, a total of **8,033** children received adoption subsidies.

Quick Facts

Caseworkers and Caseloads

Caseloads at the End of SFY 2021

As of the end of SFY 2021, the Division was responsible for:

- 2,771 investigations of child maltreatment and 241 DR cases;
- 4,854 foster care cases (4,533 excluding adoption cases);
- 2,657 in-home cases, involving 6,296 children;
- 220 supportive services cases and 51 interstate compact for the placement of children (ICPC) cases.

This is while the Division was staffed with 455 family service workers, who were responsible for handling these cases.

Types of Cases at the End of SFY 2021

One foster care case is equal to one child in care; one in-home or supportive services case constitutes an entire family, many of which have multiple children.

Caseloads Handled *During* the Year

This graph shows the number of cases that cycled through the system during SFY 2021, i.e., the number of families or children served during the year (as opposed to those active at the end of the year, described above).

The Division oversaw 22,775 investigations; 7,614 children in foster care; 4,184 DR cases; 5,559 in-home protective services cases; 681 supportive services cases; and 103 interstate compact for the placement of children (ICPC) cases.

Types of Cases Served During SFY 2021

Quick Facts

Average Caseload

The average caseload statewide stood at just under 23 cases per worker at the end of SFY 2021. This is higher than the Division's goal of 20 or fewer cases per worker.

The average caseload for each county as of June 30, 2021 is presented in Appendix J.

Average Caseload During SFY 2021

Foster Homes

Foster Homes and Beds

There were 1,588 licensed foster family homes open statewide at the end of SFY 2021, more than the previous year.

During SFY 2021, 907 new foster homes were opened and 842 were closed, resulting in a net gain of 65 homes.

Appendix K displays the closure reasons for the 842 foster homes that closed during the year.

Quick Facts

Ratio of Foster Home Beds to Foster Children

Foster Bed to Foster Child Ratio

The ratio of licensed foster home beds to children in foster care was less than one (0.70) at the end of the year, lower than the previous year.

The Division's goal is to have at least one foster home bed available for each child in foster care.

Foster Families with True Reports of Maltreatment

Percentage of Foster Families with True Reports of Maltreatment

Six reports in which foster parents were identified as alleged offenders were determined to be true during the year. Based on the 2,646 foster homes active during that period, the percentage of foster families with a true report of maltreatment was 0.23 percent.

Appendix L provides more detail on maltreatment reports concerning foster homes.

Appendix G: Summary of Reports Involving Child Fatality

Per Ark. Code Ann. § 12-18-1104(c), any information regarding a child fatality cannot be released by the Department of Human Services if release of such information would jeopardize a criminal investigation. Of the 53 child fatalities that were reported for SFY 2021, case-specific information could be disclosed for 10 of those incidents at the time of this report's release (see below).

The website <https://humanservices.arkansas.gov/data-reports/state-child-fatality-list/> displays up-to-date documentation concerning all child fatalities and near fatalities reported in Arkansas once that information can be disclosed.

Appendix H: Summary of Reports Involving Near Child Fatality

Per Ark. Code Ann. § 12-18-1108(c), any information regarding the near fatality of a child cannot be released by the Department of Human Services if release of such information would jeopardize a criminal investigation. Of the 16 near fatalities that were reported for SFY 2021, case-specific information could be disclosed for three of those incidents at the time of this report's release (see below).

The website <https://humanservices.arkansas.gov/data-reports/state-child-fatality-list/> displays up-to-date documentation concerning all child fatalities and near fatalities reported in Arkansas once that information can be disclosed.

Appendix L: Summary of Foster Care Maltreatment Reports

Characteristics of Children in Foster Care Involved in Allegations of Maltreatment, SFY 2021

Five-hundred and seventy-seven (577) reports of alleged maltreatment, involving 588 children in foster care, were reportedly received by the hotline during SFY 2021.

In 109 reports involving 140 children, foster parents⁵ were identified as the alleged offenders. As shown by the following chart, six of those reports were found to be true.⁶ Five of the six homes involved in those reports were subsequently closed. The remaining home was allowed to remain open after the offender vacated the household.

All allegations of maltreatment concerning foster homes are investigated by the Crimes Against Children Division (CACD) of the Arkansas State Police. DCFS staff do not actively participate in the investigation of these reports. Allegations of maltreatment regarding foster homes require the agency to assess the safety of all children residing in the home.

The following charts display the characteristics of the 140 foster children involved in allegations of maltreatment, with foster parents as the alleged offenders.

⁵ This includes foster family homes and therapeutic foster homes

⁶ The number of true investigations involving foster families reported in this report may differ from what was reported in individual quarterly reports for the same time period. This is due to the fact that some true findings can be later overturned to unsubstantiated and some pending findings may now have a final disposition.
