#### NOTICE OF RULE MAKING

The Director of the Division of Medical Services of the Department of Human Services announces for a public comment period of thirty (30) calendar days a notice of rulemaking for the following proposed rule under one or more of the following chapters, subchapters, or sections of the Arkansas Code: §\$20-76-201, 20-77-107, 23-61-1004, and 25-10-129.

#### Effective January 1, 2023:

The Director of the Division of Medical Services amends the State Plan, Sections 124.000, 124.220, 124.230, 124.240, 124.250, 133.000, 134.000, and 135.000 of the Medicaid Provider Manual, Sections 213.200, 213.300, and 214.200 of the Medicaid Visual Provider Manual, and Medical Services Policy Section A to comply with CMS requested changes and to revise copayment amounts and limits for the ARHOME Program, Workers with Disabilities, and Traditional Medicaid.

The ARHOME QHP Cost Share Schedule and the Adult Medicaid Cost Share Schedule copays range from \$0.00 to \$9.40, with the specific amount dependent on the covered service. DMS adds that exclusions from cost sharing policy will apply to individuals enrolled in a Provider-led Arkansas Shared Savings Entity (PASS), individuals receiving hospice care, and individuals at or below 20% of the federal poverty level. DMS also adds that the following services are excluded from the client cost sharing requirement: emergency services, pregnancy related services, preventative services, and services for provider-preventable conditions. DMS adds information concerning the collection of coinsurance/co-payments that detail hospital compliance with updated screening requirements. DMS has eliminated coinsurance for inpatient hospital stays. There are no changes to the Early Periodic Screening, Diagnosis, and Treatment services.

The proposed rule estimates a financial impact of \$ (\$743,040) ((\$532,165) of which is federal funds) for state fiscal year (SYF) 2023 and (\$1,486,080) ((\$1,064,330) of which is federal funds) for SYF 2024.

#### 124.200 Beneficiary Client Aid Categories with Additional Cost Sharing

<del>6-1-08</del>1-1-23

Certain programs require additional cost sharing for Medicaid services. View or print the Client Aid Category list.

The forms of cost sharing in the Medicaid Program are co-payment and premiums. These programs are discussed in Sections 124.210 through 124.2350.

Copayments may not exceed the amounts listed in the cost sharing schedules, as updated each January 1 by the percentage increase in the medical care component of the CPI-U for the period of September to September ending in the preceding calendar year and then rounded to the next higher 5-cent increment.

A family's total annual out-of-pocket cost sharing cannot exceed five percent (5%) of the family's gross income.

### 124.220 TEFRA 2-1-171-7

Eligibility category 49 contains covers children under age 19 who are eligible for Medicaid services as authorized by Section 134 of the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) and amended by the Omnibus Budget Reduction Act. Children in category 49 receive the full range of Medicaid services. However, there are cost sharing requirements. Families will be charged a sliding scale monthly premium based on the income of the custodial parents. Custodial parents with incomes above 150 percent of the federal poverty level (FPL) and in excess of \$25,000 annually will be subject to a sliding scale monthly premium. The monthly premium, described in the following chart, can only be assessed if the family income is in excess of 150 one-hundred and fifty percent (150%) of the federal poverty level.

The premiums listed above in the TEFRA Cost Share Schedule below represent family responsibility. They will not increase if a family has more than one TEFRA-eligible child. There are no cCo-payments are not charged for services to TEFRA children, and a family's total annual out-of-pocket cost sharing cannot exceed five (5) percent (5%) of the family's gross income.

<sup>\*</sup> Exception: Cost sharing for nursing facility services is in the form of "patient liability" which generally requires that patients contribute most of their monthly income toward their nursing facility care. Therefore, WD beneficiaries clients (Aid Category 10) and Transitional Medicaid clients (Aid Category 25) who temporarily enter a nursing home and continue to meet WD or TM eligibility criteria will be exempt from the co-payments listed above.

NOTE: Providers must consult the appropriate provider manual to determine coverage and benefits.

#### 124.240 Transitional Medicaid Adult

1-1-23

The Transitional Medicaid program extends Medicaid coverage to families up to 185% of FPL that, due to earned income, lost eligibility for the Parents/Caretaker-Relative (PCR) Aid Category. The Transitional Medicaid program provides up to twelve (12) months of extended coverage after losing PCR eligibility.

Pertinent co-payment amounts for clients covered by Adult Transitional Medicaid are the same as those listed in Section 124.230.

#### 124.250 Arkansas Health and Opportunity for Me (ARHOME)

1-1-23

The ARHOME program operates as a demonstration waiver under Section 1115 of the Social Security Act. It provides premium assistance to allow clients eligible under Section 1902(a)(10)(A)(i)(VIII) of the Social Security Act to enroll in qualified health plans. The ARHOME aid category covers adults ages 19-64 who earn up to 138% of the federal poverty level and are not eligible for Medicare. Under ARHOME, clients receive services either through a qualified health plan (QHP) or through three other benefit plans delivered through fee for service. Cost sharing applies only to ARHOME clients who are enrolled in a QHP or who are awaiting enrollment in a QHP (IABP benefit plan). ARHOME clients in a benefit plan based on their status as medically frail (FRAIL) or alternative benefit plan (ABP) will not be subject to any cost sharing.

ARHOME QHP Cost Share amounts for clients enrolled in a QHP are as follows:

#### 133.000 Cost Sharing

9-15-09

The forms of cost sharing in the Medicaid Program are coinsurance, co-payment, deductibles and premiums. Each are detailed in the following Sections 133.100 through 133.500.

# 133.100 Inpatient Hospital Coinsurance Charge for Medicaid Beneficiaries Without Medicare

6-1-08

For inpatient admissions, the Medicaid coinsurance charge per admission for non-exempt Medicaid beneficiaries aged 18 and older is 10% of the hospital's interim Medicaid per diem,

applied on the first Medicaid covered day. (See Section 124.230 for Working Disabled costsharing requirements.)

#### Example:

A Medicaid beneficiary is an inpatient for 4 days in a hospital whose Arkansas Medicaid interim per diem is \$500.00. When the hospital files a claim for 4 days, Medicaid will pay \$1950.00; the beneficiary will pay \$50.00 (10% Medicaid coinsurance rate).

- 1. Four (4 days) times \$500.00 (the hospital per diem) = \$2000.00 (hospital allowed amount).
- 2. Ten percent (10% Medicaid coinsurance rate) of \$500.00 = \$50.00 coinsurance.
- 3. Two thousand dollars (\$2000.00 hospital allowed amount) minus \$50.00 (coinsurance) = \$1950.00 (Medicaid payment).

# 133.300 Inpatient Hospital Coinsurance Charge to Medicare-Medicaid Dually 9-15-09 Eligible Beneficiaries

The coinsurance charge per admission for Medicaid beneficiaries, who are also Medicare Part A beneficiaries, is 10% of the hospital's Arkansas Medicaid per diem amount, applied on the first Medicare covered day only.

#### Example:

A Medicare beneficiary, also eligible for Medicaid, is an inpatient for 4 days in a hospital whose Arkansas Medicaid per diem amount is \$500.00.

- 1. This is the patient's first hospitalization for the Medicare benefit year; so the patient has not met their Medicare Part A deductible.
- 2. Medicare pays the hospital its allowed Part A charges, less the current (federal fiscal year) Medicare deductible, and forwards the payment information to Medicaid.
- 3. Ten percent (10% Medicaid coinsurance rate) of \$500.00 (the Arkansas Medicaid hospital per diem) = \$50.00 (Medicaid coinsurance). Medicaid coinsurance is due for the first day only of each admission covered by Medicare Part A.
- 4. Medicaid's payment is the current (federal fiscal year) Medicare Part A deductible minus \$50.00 Medicaid coinsurance.

If, on a subsequent admission, Medicare Part A assesses coinsurance, Medicaid will deduct from the Medicaid payment an amount equal to 10% of the hospital's Medicaid per diem for one day. The patient will be responsible for the amount deducted from the Medicaid payment.

#### 133.400 Co-payment on Prescription Drugs

<del>6-1-08</del>

Arkansas Medicaid has a beneficiary co-payment requirement in the Pharmacy Program. The payment is applied per prescription. Non-exempt beneficiaries aged 18 and older are responsible for paying the provider a co-payment amount based on the following table: (See Section 124.230 for Working Disabled cost-sharing requirements. See the ARKids First-B provider manual for ARKids-First B cost-sharing requirements.)

| Medicaid Maximum Amount       | Beneficiary Co-pay |
|-------------------------------|--------------------|
| \$10.00 or less               | <del>\$0.50</del>  |
| \$10.01 to \$25.00            | <del>\$1.00</del>  |
| <del>\$25.01 to \$50.00</del> | <del>\$2.00</del>  |
| \$50.01 or more               | \$ <del>3.00</del> |

#### 133.500 Co-Payment of Eyeglasses for Beneficiaries Aged 21 and Older

6-1-08

Arkansas Medicaid has a beneficiary co-payment requirement in the Visual Care Program. Medicaid beneficiaries 21 years of age and older must pay a \$2.00 co-payment for Visual Care prescription services. Nursing home residents are exempt from the co-pay requirement.

#### 134.000 Exclusions from Cost Sharing Policy

<del>-15-09</del>1-1-23

As required by 42 C.F.R. § 447.53(b), tThe following services populations are excluded from the beneficiary client cost sharing requirement:

- A. Services provided to individuals under twenty-one (2118) years of age, except:
  - Services for ARKids First-B beneficiaries clients (see the ARKids First-B manual for cost share and more information about this program).
  - 2. Services for individuals under age 18 in the Working Disabled category.
- B. Services provided to pPregnant women.
- C. Individuals who are American Indian or Native Alaskan Emergency services services provided in a hospital, clinic, office or other facility that is equipped to furnish the required care after the sudden onset of a medical condition manifesting itself by acute symptoms of sufficient severity that the absence of immediate medical attention could reasonably be expected to result in:
  - Placing the patient's health in serious jeopardy,
  - 2. Serious impairment to bodily functions, or
  - Serious dysfunction of any bodily organ or part.
- D. Services provided to Individuals who are inpatients in a long\_term care facility (nursing facility (NF) and intermediate care for individuals with intellectual disabilities (ICF/IID) facility) when, as a condition for receiving the institutional services, the individual is required to spend all but a minimal amount (for personal needs) of his or her income for medical care costs.

The fact that a beneficiary client is a resident of a nursing facility does not on its own exclude the Medicaid services provided to the beneficiary client from the cost sharing requirement. Unless a Medicaid beneficiary client has been found eligible for long term care assistance through the Arkansas Medicaid Program, and Medicaid is making a vendor payment to the nursing facility (NF or ICF/IID) for the beneficiary client, the beneficiary client is not exempt from the cost sharing requirement.

- E. Individuals who are enrolled in a Provider-led Arkansas Shared Savings Entity (PASSE).
- F. Individuals receiving hospice care.
- G. Individuals who are at or below 20% of the federal poverty level.

The following services are excluded from the client cost sharing requirement:

- A. Emergency services services provided in a hospital, clinic, office or other facility that is equipped to furnish the required care after the sudden onset of a medical condition manifesting itself by acute symptoms of sufficient severity that the absence of immediate medical attention could reasonably be expected to result in:
  - 1. Placing the patient's health in serious jeopardy,
  - 2. Serious impairment to bodily functions, or

- 3. Serious dysfunction of any bodily organ or part.
- B. Pregnancy-related services
- C. Preventive services
- D. Services for provider-preventable conditions
- E. Family planning services and supplies.

The provider must maintain sufficient documentation in the <u>beneficiary's client's</u> medical record to substantiate any exemption from the <u>beneficiary client</u> cost sharing requirement.

#### 135.000 Collection of Coinsurance/Co-payment

<del>6-1-08</del>1-1-23

The method of collecting the coinsurance/co-payment amount from the beneficiary client is the provider's responsibility. In cases of claim adjustments, the responsibility of refunding or collecting additional cost sharing (coinsurance or co-payment) from the beneficiary client remains the provider's responsibility.

The provider may not deny services to a Medicaid beneficiary client because of the individual's inability to pay the coinsurance or co-payment. However, the individual's inability to pay does not eliminate his or her liability for the coinsurance or co-payment charge.

The beneficiary's client's inability to pay the coinsurance or co-payment does not alter the Medicaid reimbursement for the claim. Unless the beneficiary client or the service is exempt from cost sharing requirements as listed in Section 134.000, Medicaid reimbursement is made in accordance with the current reimbursement methodology and when applicable cost sharing amounts are deducted from the maximum allowable fee before payment.

Hospitals are required to comply with certain federal rules before assessing non-emergency copays. Hospitals are expected to comply with emergency room screening requirements, help locate alternate providers when screening determines the patient's need to be non-emergent, and inform clients of treatment options that have a lesser co-pay before the hospital and the state can charge the non-emergency use of the emergency room co-pay.

Hospitals must develop written policies and tracking mechanisms to identify how they comply with the requirement and produce data on member choice and expenditures. Policies and data must be available upon request of DHS and its designees.

The Medicaid cost-sharing amount for clients who use hospital emergency department services for non-emergency reasons can be found in the ARHOME QHP Cost Share Schedule for clients enrolled in a QHP or the Adult Medicaid Cost Share Schedule. (See Sections 124.230 and 124.250)

This cost-sharing amount will only apply to Medicaid clients who are subject to a copay. There will not be any cost-sharing required from clients who need emergency services or treatment.

The first step in the process will be for hospital emergency departments to conduct an appropriate medical screening to determine whether the client needs emergency services.

If the screening determines that emergency services are needed, hospitals should tell the client what the cost-sharing amount will be for the emergency services provided in the emergency department (\$0.00). Hospitals should then provide needed emergency services per their established protocols.

If the screening determines that emergency services are not needed, hospitals may provide nonemergency services in the emergency department. Before providing non-emergency services and imposing client cost sharing for such services, however, the hospital must:

- Tell the client what the cost-sharing amount will be for the non-emergency services provided in the emergency department,
- Give the client the option of paying for and receiving services in the emergency department, or
- Give the client the name and location of an alternate non-emergency services provider that can provide the needed services in a timely manner and at a lower cost than the hospital emergency department, and
- Refer the client to the alternate provider, who will then coordinate scheduling for treatment.

Attachment 3.1-C-OMB Expiration date: 10/31/2014 **Alternative Benefit Plan Populations** ABP1 Identify and define the population that will participate in the Alternative Benefit Plan. Alternative Benefit Plan Population Name: Arkansas Newly Eligible Adult Group Identify eligibility groups that are included in the Alternative Benefit Plan's population, and which may contain individuals that meet any targeting criteria used to further define the population. Eligibility Groups Included in the Alternative Benefit Plan Population: Enrollment is Eligibility Group: mandatory or voluntary? X Adult Group Mandatory Yes Enrollment is available for all individuals in these eligibility group(s). Geographic Area Yes The Alternative Benefit Plan population will include individuals from the entire state/territory. Any other information the state/territory wishes to provide about the population (optional) Arkansas will provide access to the Alternative Benefit Plan (ABP) through two three mechanisms: premium assistance to support

coverage from Qualified Health Plans (QHPs) offered in the individual market, premium assistance to support cost-effective employer sponsored insurance (ESI) through an employer participating in the Arkansas Works program and through fee-for-service Medicaid.

Arkansas has received approval under 1115 of the Social Security Act to implement the Arkansas Works Health and Opportunity for Me (ARHOME) program. Under the ARHOME Arkansas Works demonstration, the State will provide premium assistance for beneficiaries eligible under the new adult group established under Section 1902(a)(10)(A)(i)(VIII) of the Social Security Act, to support the purchase of coverage from Qualified Health Plans offered in the individual market through the Marketplace; additionally, individuals ages 21 and over with access to cost-effective ESI through an employer who has elected to participate in the Arkansas Works ESI program will be required to enroll in ESI. Arkansas expected approximately 200,000 beneficiaries to be enrolled in coverage offered through the Marketplace through this demonstration program.

Arkansas will also offer all of the benefits described in this ABP State Plan Amendment through the fee-for-service delivery system. Individuals who are eligible for coverage under Arkansas Works will receive the ABP through fee-for-service prior to the effective date of their QHP coverage. Exempt populations will have the option to receive the ABP that is the approved Arkansas state plan or the ABP that is described in these SPA pages. Exempt individuals choosing to receive the ABP that is described in these SPA pages will receive those benefits through the fee-for-service delivery system, except for those individuals age 21 or over who have access to cost-effective ESI. The State will offer two types of fee for service ABP plans: an ABP that provides the full Medicaid benefits offered under the approved Arkansas state plan and an ABP that covers the Essential Health Benefits provided by QHPs (EHB-equivalent ABP). Individuals who are eligible for coverage under ARHOME will receive the EHB-equivalent ABP through fee-for-service temporarily prior to the effective date of their QHP coverage. Exempt populations will have the option of receiving the ABP that offers approved Arkansas state plan benefits or the EHB-equivalent ABP.

Attachment 3.1-C-OMB Expiration date: 10/31/2014 Voluntary Benefit Package Selection Assurances - Eligibility Group under Section 1902(a)(10)(A) ABP2a (i)(VIII) of the Act The state/territory has fully aligned its benefits in the Alternative Benefit Plan using Essential Health Benefits and subject to 1937 requirements with its Alternative Benefit Plan that is the state's approved Medicaid state plan that is not subject to 1937 No requirements. Therefore the state/territory is deemed to have met the requirements for voluntary choice of benefit package for individuals exempt from mandatory participation in a section 1937 Alternative Benefit Plan. These assurances must be made by the state/territory if the Adult eligibility group is included in the ABP Population. The state/territory shall enroll all participants in the "Individuals at or below 133% FPL Age 19 through 64" (section 1902(a)(10)(A) (i)(VIII)) eligibility group in the Alternative Benefit Plan specified in this state plan amendment, except as follows: A beneficiary in the eligibility group at section 1902(a)(10)(A)(i)(VIII) who is determined to meet one of the exemption criteria at 45 CFR 440.315 will receive a choice of a benefit package that is either an Alternative Benefit Plan that includes Essential Health Benefits and is subject to all 1937 requirements or an Alternative Benefit Plan that is the state/territory's approved Medicaid state plan not subject to 1937 requirements. The state/territory's approved Medicaid state plan includes all approved state plan programs based on any state plan authority, and approved 1915(c) waivers, if the state has amended them to include the eligibility group at section 1902(a)(10)(A) (i)(VIII). The state/territory must have a process in place to identify individuals that meet the exemption criteria and the state/territory must comply with requirements related to providing the option of enrollment in an Alternative Benefit Plan defined using section 1937 requirements, or an Alternative Benefit Plan defined as the state/territory's approved Medicaid state plan that is not subject to section 1937 requirements. Once an individual is identified, the state/territory assures it will effectively inform the individual of the following: a) Enrollment in the specified Alternative Benefit Plan is voluntary; b) The individual may disenroll from the Alternative Benefit Plan defined subject to section 1937 requirements at any time and instead receive an Alternative Benefit Plan defined as the approved state/territory Medicaid state plan that is not subject to section 1937 requirements; and c) What the process is for transferring to the state plan-based Alternative Benefit Plan. ✓ The state/territory assures it will inform the individual of: a) The benefits available as Alternative Benefit Plan coverage defined using section 1937 requirements as compared to Alternative Benefit Plan coverage defined as the state/territory's approved Medicaid state plan and not subject to section 1937 requirements; b) The costs of the different benefit packages and a comparison of how the Alternative Benefit Plan subject to 1937 requirements differs from the Alternative Benefit Plan defined as the approved Medicaid state/territory plan benefits. When did/will the state/territory inform the individuals?

The State will provide a notice informing individuals of their eligibility under the Section 1902(a)(10)(A)(i)(VIII) eligibility group once they have been determined eligible by through the Federally Facilitated Marketplace (FFM) or via the State's E eligibility and Enrollment Framework (EEF) system. Additional notices will provide greater detail explaining the process for selecting a Qualified Health Plan (QHP), the process for accessing services until the QHP or ESI enrollment coverage is effective, ESI enrollment, the process for accessing supplemental services, the grievance and appeals process, and outlining the exemption process from the Arkansas Works Alternative Benefit Plan: and accessing other ABP delivery mechanisms for those eligible.

Please describe the state/territory's process for allowing individuals in the Section 1902(a)(10)(A)(i)(VIII) eligibility group who meet exemption criteria to disenroll from the Alternative Benefit Plan defined using section 1937 requirements and enroll in the Alternative Benefit Plan defined as the state/territory's approved Medicaid state plan.

During the eligibility application process, if a member who answers "yes" to the following questions will be considered medically frail or eligible for Medicaid through another Aid Category: "Do you have a disability? Or are you blind? Do you live in a medical facility or nursing home? What type of facility is this? Do you have a physical, mental, or emotional health condition that causes limitations in activities (like bathing, dressing, daily chores, etc)?" or live in a medical facility or nursing home?", the individual will be enrolled in the ABP that is the state plan and will be provided with a Choice Counseling notice. The Choice Counseling notice will outline the differences between traditional fee-for service state plan (the ABP that is the state plan) or the fee-for-service ABP (the ABP that is aligned with the EHB benchmark plan) and informing them of their right to choose between the two. The notice will also include a toll-free-number that individuals will call to finalize their selection. If an affirmative selection is not made, the individual will remain in the traditional fee-for-service state plan (the ABP that is the state plan). Arkansas Medicaid will provide individuals who are exempt from the ABP with a Choice Counseling notice that informs them that they may choose between the ABP that is the Arkansas state plan or the ABP that is the FFS equivalent of the QHP offering. The notice will also inform them that they will be enrolled in the ABP that is the FFS equivalent of the QHP offering. Individuals screened as medically frail will be enrolled in the ABP that provides the full Medicaid benefits offered under the approved Arkansas state plan and will be provided with a Choice Counseling notice that will inform them about their benefit plan options.

The Choice Counseling notice will inform medically frail clients of their right to choose the ABP that provides the full Medicaid benefits offered under the approved Arkansas state plan or the EHB-equivalent ABP and will describe the differences between the two. The notice will also include a toll-free number that individuals can call to make their selection. If an affirmative selection is not made, the individual will remain in the ABP that provides the full Medicaid benefits offered under the approved Arkansas state plan.

Medically frail clients with a serious mental illness or a substance use disorder who assess as a Tier 2 or Tier 3 on the independent assessment will be enrolled in the Provider-led Arkansas Shared Savings Entity (PASSE) program.

All individuals not identified screened as medically frail based on their responses on the single streamlined integrated application for assistance will receive a general Medicaid eligibility notice. That eligibility notice will include, among other things, information about an individual's ability to identify as medically frail at a later time. The notice will define a medically frail individual as a person who has a physical or behavioral health condition that limits what he or she is able to do (like bathing, dressing, daily chores, etc.), a person who lives in a medical facility or nursing home, a person who has a serious mental illness, a person who has a long-term problem with drugs or alcohol, a person with intellectual or developmental disabilities, or a person with some other serious health condition. The document will inform all enrollees that they may identify as medically frail screen for medically frailty at any time and can discuss coverage options with their doctor, contact Member Services or or visit the Medicaid website for additional information. Once an individual identifies as medically frail, they will receive a Choice Counseling notice and proceed through the steps identified above.

- Determine that the alternative provider can provide services to the individual in a timely manner with the imposition of a lesser cost sharing amount or no cost sharing if the individual is otherwise exempt from cost sharing; and
- Provide a referral to coordinate scheduling for treatment by the alternative provider.
- The state assures that it has a process in place to identify hospital emergency department services as non-emergency for purposes of imposing cost sharing. This process does not limit a hospital's obligations for screening and stabilizing treatment of an emergency medical condition under section 1867 of the Act; or modify any obligations under either state or federal standards relating to the application of a prudent-layperson standard for payment or coverage of emergency medical services by any managed care organization.

The process for identifying emergency department services as non-emergency for purposes of imposing cost sharing is:

The state relies on monographs developed by its designated utilization management contractor to assess whether a hospital's triage protocols are sufficiently effective to ensure the correct level of treatment is determined. Because emergency department services are part of the overall retrospective review process, if non-emergency services are billed at the higher emergency level incorrectly, the entire service would be recouped and the emergency department could bill Medicaid for the non-emergency level and be paid the amount minus the cost share. They would not be allowed to charge the beneficiary for the cost share because the hospital is responsible for the error in claims processing.

#### **Cost Sharing for Drugs**

The state charges cost sharing for drugs.

Yes

The state has established differential cost sharing for preferred and non-preferred drugs.

Yes

- The state identifies which drugs are considered to be non-preferred.
- The state assures that it has a timely process in place to limit cost sharing to the amount imposed for a preferred drug in the case of a non-preferred drug within a therapeutically equivalent or similar class of drugs, if the individual's prescribing provider determines that a preferred drug for treatment of the same condition either will be less effective for the individual, will have adverse effects for the individual, or both. In such cases, reimbursement to the pharmacy is based on the appropriate cost sharing amount.

#### **Beneficiary and Public Notice Requirements**

Consistent with 42 CFR 447.57, the state makes available a public schedule describing current cost sharing requirements in a manner that ensures that affected applicants, beneficiaries and providers are likely to have access to the notice. Prior to submitting a SPA which establishes or substantially modifies existing cost sharing amounts or policies, the state provides the public with advance notice of the SPA, specifying the amount of cost sharing and who is subject to the charges, and provides reasonable opportunity for stakeholder comment. Documentation demonstrating that the notice requirements have been met are submitted with the SPA. The state also provides opportunity for additional public notice if cost sharing is substantially modified during the SPA approval process.

#### Other Relevant Information

Cost sharing requirements are published in the provider manuals and a hyperlink is used to send the provider to the coinciding table housing the amount of the cost share, which is also published on the Arkansas Medicaid Website. Division of Provider Services and Quality Assurance (DPSQA) maintains the Choices in

Living Resource Center, where Arkansas citizens can call for assistance, including telephone information and brochures for the Workers with Disabilities program. Various brochures are available at the DHS website:

https://humanservices.arkansas.gov/, and are distributed throughout the state in the county offices where the

Division of County Operations are housed.

| ■ Describe the mechanism by which the state tracks each family's incurred premiums and cost sharing (check all that apply):  As claims are submitted for dates of services within the family's current monthly or quarterly cap period, the state applies the incurred cost sharing for that service to the family's aggregate limit. Once the family reaches the aggregate limit, based on incurred cost sharing and any applicable premiums, the state notifies the family and providers that the family has reached their aggregate limit for the current monthly or quarterly cap period, and are no longer subject to premiums or cost sharing.  Managed care organization(s) track each family's incurred cost sharing, as follows:  Other process:  Describe how the state informs beneficiaries and providers of the beneficiaries' aggregate family limit and notifies beneficiaries and providers when a beneficiary has incurred premiums and cost sharing up to the aggregate family limit and individual family members are no longer subject to premiums or cost sharing for the remainder of the family's current monthly or quarterly cap period:  The DHS eligibility system identifies and sends notice to beneficiaries of the initial aggregate family limit when applicable. The MMIS system sends beneficiary letters regarding incurred cost sharing and when the family limit has been met. The provider is notified via the eligibility verification system and upon explanation of benefits when limit has been met.  The state has a documented appeals process for families that believe they have incurred premiums or cost sharing over the aggregate limit for the current monthly or quarterly cap period.  Pescribe the appeals process used:  The state uses its standard Medicaid fair hearing process.                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                 |       |

|             | The agency reimburses providers the full Medicaid rate for services and collects the cost sharing charge from individuals.                                             |
| <del></del> | The basis for determining whether an individual is unable to pay the charge, and the means by which such an individual is identified to providers, is described below: |
|             | In the absence of knowledge or indication to the contrary, the provider may accept the recipient's assertion that he/she cannot afford to pay the cost sharing amount. |

D. The procedure for implementing and enforcing the exclusions from cost sharing contained in 42 CFR 447.53(b) are described below:

The Arkansas Medicaid Program notified Medicaid providers of the exclusions via an Official Notice.

For recipients who are excluded from the cost sharing policy for reasons other than age or residence, the provider must enter one of the following diagnosis codes as the <u>secondary</u> diagnosis on the claim form to avoid the cost sharing amount from being deducted from the total paid claim amount:

| Diagnosis Code | Reason for Exclusion                                                             |

#### Public Transportation

For recipients who are excluded from the copayment policy for reasons other than age of residence, the provider must check the "NO" block in Field 9 on the EMS-3 claim form to avoid the copayment amount from being deducted from the total paid claim amount.

#### Prescribed Drugs

When prescribing pharmaceuticals to Medicaid recipients who are excluded from the prescribed drug copayment policy due to the services provided to pregnant women, emergency services or HMO enrollees, the dentist or physician must write "Excluded From Copay" on the face of the prescription. The provider must maintain sufficient documentation in the recipient's medical record which substantiates the exclusion from cost sharing.

For recipients excluded from the copayment policy due to pregnancy, emergency services or HMO enrollee, pharmacy providers must enter "4" in Field 17 of the pharmacy claim form. If "4" is not entered and the recipient is not identified in the system as meeting one of the exclusion groups, the copayment policy will be applied prior to payment to the provider.

Individuals under age 18 or individuals receiving hospice care or institutionalized individuals are also excluded from cost sharing. Individuals under age 18 and the institutionalized individuals are readily identifiable through the current MMIS. No additional information is necessary from the provider in order to exclude these individuals from the cost sharing policy. A separate code has been assigned for providers to use in billing to identify services provided to recipients receiving hospice care.

A separate code has been assigned for providers to use in billing to identify services provided to recipients receiving hospice care.
