

ARIA Behavioral Health Tier Logic: Adults and Children

Adults: >=18 years of age

Below summarizes the way your tier result was determined.

- **Tier 1** means that you did not meet the criteria for the more intensive services available in a Tier 2 or Tier 3. You are still eligible to receive Counseling and Medication Management Services.
- **Tier 2** means that you scored high enough in certain behaviors (specific behaviors listed in the table below) to be eligible for more intensive **non-residential services** to help you function in a community setting and move towards recovery. The scores you receive are based primarily on the type of help you need **and** how frequently you need it.
- **Tier 3** means that you scored high enough in certain behaviors (specific behaviors listed in the table below) to be eligible for the most intensive level of services, **including 24 hours a day/7 days a week residential services**, to help you move towards reintegrating back into the community. The scores you receive are based primarily on the type of help you need **and** how frequently you need it.

	Tier 1 – Counseling and Medication Management Services	Tier 2 – Counseling, Medication Management, and Support Services	Tier 3 – Counseling, Medication Management, Support, and Residential Services
