Comprehensive Counseling Plan

2023-24 School Year

The American School Counselor Association (ASCA) defines a comprehensive school counseling program as an “integral component of the school’s academic mission. Counselors, caseworkers, nurses, social workers, treatment team members, and therapists play a critical role in efforts to help students become successful. They support students through individual and group counseling, college, and career exploration, assist in crisis situations, serve as liaisons between clients, families, schools, and community members. It is important to emphasize the positive effects these skilled professionals have on student success as they work collaboratively to support the “whole child.” A child who receives support and encouragement is more likely to also improve their academic performance. The ultimate goal of our comprehensive counseling plan is to ensure that every student acquires the academic, career, personal, and social skills to reach and/or exceed their maximum educational potential and successfully manage their lives as healthy, responsible, competent, and productive citizens who respect themselves and others.

The Division of Youth Services Comprehensive Counseling Program includes:

1. Planning/Foundation (which starts at AJATC intake)
2. Implementation/Delivery/Management - Daily Interactions, Lessons, Sessions, and Education
3. Evaluation - Determining Whether or Not Clients Meet Specific Goals Outlined in Treatment Plans

Counselors adhere to the highest standard of professional practices as defined by the American School Counselor’s Association (ASCA), A National Model: A Framework for School Counseling Programs. The Model contains the following requirements:

- **COMPREHENSIVE IN SCOPE** - A comprehensive counseling program focuses on all students. The emphasis is on promoting success for every student so they achieve in school and develop into contributing members of society.
- **PREVENTIVE IN DESIGN** - Counselors design programs and services that emphasize proactive, preventive coping strategies which include, but are not limited to, good decision making, conflict resolution, interpersonal relationship building, etc.
- **DEVELOPMENTAL IN NATURE** - Counselors establish program goals, expectations, support systems, and experiences that are developmentally appropriate for all students. To support varying student developmental needs, counselors may increase the intensity and/or frequency of interventions as needed.
- **COOPERATIVE EFFORT** - Counselors, case managers, therapists, social workers, treatment team members, and nurses collaborate to ensure high-quality counseling for students, making the counseling program an integral part of the total district mission and vision.

Philosophy and Beliefs

The Division of Youth Services (DYS) adheres to the philosophy that the comprehensive school counseling program is an essential and integral part of a student's education. Given the proper support, we believe all students can learn and achieve at high levels, academically, socially, and emotionally.

DYS counselors and/or caseworkers believe:

- Every student should be valued and treated with dignity and respect.
- All students should have access to high-quality counseling services.
- All students' ethnic, cultural, racial, and socioeconomic differences and special needs are considered in the planning and implementation of the comprehensive counseling program.
- All students can expect a safe and nurturing learning environment.
