

WHAT IS SCSEP?

The Senior Community Service Employment Program (SCSEP) is a part-time program for low-income persons aged 55 and over who have limited employment prospects.

Participants are placed in non-profit or public service agencies, where they get wages, on-the-job training, and work experience. During their training, participants work with the SCSEP team to achieve permanent part-time or full-time employment either at their host agency or with other employment sources in their area.
