

Arkansas Division of Child Care and Early Childhood Education  
and  
Arkansas Department of Education

**Rules Governing the Requirements and Procedures for Obtaining an  
Arkansas Birth through Prekindergarten Teaching Credential  
Act 187 of 2009**

**1.0 Regulatory Authority**

- 1.01 These rules are enacted pursuant to the authority of the Division of Child Care and Early Childhood Education under Arkansas Code § 20-78-801 et seq.
- 1.02 The Division of Child Care and Early Childhood Education, Arkansas Department of Human Services, shall coordinate and administer the Birth through Prekindergarten Teaching Credential fulfilling the requirements of Ark. Code § 20-78-205 (b) and 20-78-801 et seq.

**2.0 Purpose**

- 2.01 The purpose of these rules is to establish the requirements and procedures for obtaining an Arkansas Birth-Pre Kindergarten Teaching Credential. The Arkansas Birth through Prekindergarten Teaching Credential is a competency-based credential created to provide an additional professional pathway for individuals wishing to pursue a more advanced level of knowledge and skill in working with young children and their families. The credential provides an alternative route to the existing Arkansas Department of Education Prekindergarten through Grade Four Teaching License for the preparation of teachers for all children, birth through age five, including children with special needs, but shall not be utilized in lieu of the P-4 teaching license issued by the State Board of Education when it is required for a public early childhood education program. Professionals working in a variety of early care and education settings including Head Start, Arkansas Better Chance, Developmental Day Treatment Clinic Service or other inclusive programs, home visiting programs, and various community-based early care and education services will find this credential supportive of their professional development needs.
- 2.02 In addition, the credential will strengthen the infrastructure in Arkansas which will improve the quality of programs and experiences available for all children, birth to age five, regardless of setting. The Arkansas Birth through Prekindergarten Teaching Credential reflects the Traveling Arkansas' Professional Pathways (TAPP) Key Content Areas and Competencies as well as best practices as identified by the Council for Professional Recognition, the National Association for the Education of Young Children, the Division for Early Childhood of the Council for Exceptional Children, the Arkansas Curriculum Frameworks, the Common Core State Standards Initiative (CCSSI), and the state supported institutions of higher education (Arkansas Early Childhood Cohort).
