

SUPERVISED INDEPENDENT LIVING

The freedom you want
and the support you need!

The Supervised Independent Living (SIL) program sets you up with your own apartment or a shared housing option and connects you to a caring adult who will help you set goals, learn life skills like cooking, and save money.

The adults supporting you through SIL will set ground rules and visit with you regularly to give you the support to succeed in school, work, or both!

There are different levels of support within SIL to meet your needs. Talk to your Transitional Team about which level might be the best fit for you.

SIL apartments and shared housing options with roommates are available in the following counties:

- Washington
- Pulaski
- Sebastian
- White
- Garland
- Drew

Consider learning more about SIL! You won't have the stress of finding your own apartment and paying apartment start-up costs. Plus you'll get extra help covering basic needs.

Availability of housing in each county depends on the number of youth participating in the SIL program.

And youth who are accepted into SIL get a new iPad ordered for them after 90 days in the program!
