Outpatient Behavioral Health Services

The fee schedule was set as of July 1, 2017 and is effective for services provided on or after this date. Except as noted in the plan, state developed fee schedule rates are the same for both governmental and private providers of behavioral health services. Based on the information gained from the peer state analysis and the consideration of adjustment factors such as Bureau of Labor Statistics (BLS) along with Geographic Pricing Cost Index (GPCI) to account for economic differences, the state was able to select appropriate rates from fee schedules published by peer states. Once this rate information was filtered according to Arkansas requirements a “state average rate” was developed. This “state average rate” consisting of the mean from every peer state’s published rate for a given procedure served as the base rate for the service, which could then be adjusted by previous mentioned factors (BLS), (GPCI) etc.

Effective January 1, 2024, the following services will be set to pay eighty percent (80%) of the 2022 Medicare non-rural rate for the State of Arkansas:

- **Individual Behavioral Health Counseling;**
- **Marital or Family Behavioral Health Counseling without Beneficiary Present;**
- **Marital or Family Behavioral Health Counseling with Beneficiary Present; and**
- **Mental Health Diagnosis.**

Effective January 1, 2024, the following services will be adjusted to pay one hundred percent (100%) of the 2022 Medicare non-rural rate for the State of Arkansas:

- **Group Behavioral Health Counseling; and**
- **Multi-Family Behavioral Health Counseling.**

Acute Crisis Units

The fee schedule was set as of July 1, 2017 and is effective for services provided on or after this date. Except as noted in the plan, state developed fee schedule rates are the same for both governmental and private providers of behavioral health services. The fee schedule can be accessed at [Fee Schedules - Arkansas Department of Human Services](#). Effective for dates of service on or after July 1, 2017, reimbursement for Acute Crisis Unit is based on prospective rate of \$350.00 per day with no cost settlement and no budget submission necessary for all certified Acute Crisis Unit providers. No room and board costs, or other unallowable facility costs, are built into the daily rate. Based on the information gained from the peer state analysis and the consideration of adjustment factors such as Bureau of Labor Statistics (BLS) along with Geographic Pricing Cost Index (GPCI) to account for economic differences, the state was able to select appropriate rates from fee schedules published by peer states. Each provider furnishing this service must keep any records necessary to disclose the extent of services the provider furnishes to beneficiaries and, on request, furnish the Medicaid agency any information maintained and any information regarding payments claimed by the provider for furnishing this service. The Division of Provider Services and Quality Assurance (DPSQA), in conjunction with the State’s contracted review entity, will provide ongoing monitoring to assure that services provided under the bundled rate are of the type, quantity and intensity of services required to meet the medical need of beneficiaries.

TOC required**202.000 Arkansas Medicaid Participation Requirements for Counseling Services****1-1-24**

All behavioral health providers approved to receive Medicaid reimbursement for services to Medicaid clients must meet specific qualifications.

Providers must meet the Provider Participation and enrollment requirements contained within Section 140.000 of this manual as well as the following criteria to be eligible to participate in the Arkansas Medicaid Program:

- A. Providers must be located within the State of Arkansas.
- B. Must be certified by the appropriate DHS division as a Behavioral Health Agency, a Community Support Systems Provider Agency- Intensive or Enhanced, or be certified by the Dept. of Education as a school-based mental health provider.
 - 1. Independently licensed practitioners (ILPs) can enroll directly as an Independently Licensed Practitioner without certification: ILPs include:
 - a. Licensed Clinical Certified Social Worker (LCSW)
 - b. Licensed Marital and Family Therapist (LMFT)
 - c. Licensed Psychologist (LP)
 - d. Licensed Psychological Examiner – Independent (LPEI)
 - e. Licensed Professional Counselor (LPC)
 - f. Licensed Alcohol and Drug Abuse Counselor (LADAC)
 - 2. Group practices of Independently Licensed Practitioners can enroll directly without certification.
- C. The provider must give notification to the Office of the Medicaid Inspector General (OMIG) on or before the tenth day of each month of all covered health care practitioners who perform services on behalf of the provider. The notification must include the following information for each covered health care practitioner:
 - 1. Name/Title
 - 2. Enrolled site(s) where services are performed
 - 3. Social Security Number
 - 4. Date of Birth
 - 5. Home Address
 - 6. Start Date
 - 7. End Date (if applicable)

Notification is not required when the list of covered health care practitioners remains unchanged from the previous notification.

DHS shall exclude providers for the reasons stated in 42 U.S.C. §1320a-7(a) and implementing regulations and may exclude providers for the reasons stated in 42 U.S.C. §1320a-7(b) and implementing regulations. The following factors shall be considered by DHS in determining whether sanction(s) should be imposed:

- A. Seriousness of the offense(s)

- B. Extent of violation(s)
- C. History of prior violation(s)
- D. Whether an indictment or information was filed against the provider or a related party as defined in DHS Policy 1088, titled DHS Participant Exclusion Rule.

210.100 Coverage of Services

1-1-24

Counseling Services are limited to enrolled providers as indicated in 202.000 who offer core counseling services for the treatment of behavioral disorders.

Counseling Services providers must establish an emergency response plan. Each provider must have 24-hour emergency response capability to meet the emergency treatment needs of the Counseling Services clients served by the provider. The provider must implement and maintain a written policy reflecting the specific coverage plan to meet this requirement. A machine recorded voice mail message to call 911 or report to the nearest emergency room in and of itself is not sufficient to meet the requirement.

All Counseling Services providers must demonstrate the capacity to provide effective, equitable, understandable, and respectful quality care and services that are responsive to different cultural health beliefs and practices, preferred languages, health literacy, and other communication needs.

210.200 Staff Requirements

1-1-24

Each Counseling Services provider must ensure that they employ staff which are able and available to provide appropriate and adequate services offered by the provider. Counseling Services staff members must provide services only within the scope of their individual licensure. The following chart lists the terminology used in this provider manual and explains the licensure, certification, and supervision that are required for each performing provider type. Non-independently licensed clinicians must serve as a rendering provider through a certified agency provider.

The services of a medical records librarian are required. The medical records librarian (or person performing the duties of the medical records librarian) shall be responsible for ongoing quality controls, for continuity of patient care, and patient traffic flow. The librarian shall assure that records are maintained, completed and preserved; that required indexes and registries are maintained, and that statistical reports are prepared. This staff member will be personally responsible for ensuring that information on enrolled patients is immediately retrievable,

establishing a central records index, and maintaining service records in such a manner as to enable a constant monitoring of continuity of care.

When a Counseling Services provider files a claim with Arkansas Medicaid, the staff member who actually performed the service must be identified on the claim as the rendering provider. This action is taken in compliance with the federal Improper Payments Information Act of 2002 (IPIA), Public Law 107-300, and the resulting Payment Error Rate Measurement (PERM) program initiated by the Centers for Medicare and Medicaid Services (CMS).

211.300 Certification of Performing Providers

1-1-24

As illustrated in the chart in § 211.200, certain Counseling Services billing providers are required to be certified byDHS. The certification requirements for performing providers are located on the [DHS website](#).

212.000 Scope

1-1-24

The Counseling Services Program provides treatment and services that are provided by a certified Behavioral Health Services provider to Medicaid-eligible clients who have a Behavioral Health diagnosis as described in the American Psychiatric Association Diagnostic and Statistical Manual (DSM-5 and subsequent revisions).

Eligibility for services depends on the needs of the client. Counseling Services and Crisis Services can be provided to any client as long as the services are medically necessary.

Counseling services are time-limited behavioral health services provided by qualified licensed practitioners in an allowable setting for the purpose of assessing and treating mental health and/or substance abuse conditions. Counseling Services settings shall mean a behavioral health clinic/office, healthcare center, physician office, child advocacy center, home, shelter, group home, and/or school.

213.000 Counseling Services Program Entry

1-1-24

The intake assessment, either the Mental Health Diagnosis, Substance Abuse Assessment, or Psychiatric Assessment, must be completed prior to the provision of counseling services in the Counseling Services Program manual. This intake will assist providers in determining services needed and desired outcomes for the client. The intake must be completed by a behavioral health professional qualified by licensure and experienced in the diagnosis and treatment of behavioral health disorders.

Prior to continuing provision of counseling services, the provider must document medical necessity of Counseling Services. The documentation of medical necessity is a written intake assessment that evaluates the client's mental condition, and based on the client's diagnosis, determines whether treatment in the Counseling Services Program is appropriate. This documentation must be made part of the client's medical record.

[View or print the procedure codes for counseling services.](#)

214.100 Parent/Caregiver & Child (Dyadic treatment of Children age 0-47 months & Parent/Caregiver)

1-1-24

Counseling Services providers may provide dyadic treatment of clients age zero through forty-seven (0-47) months and the parent/caregiver of the eligible client. A prior authorization will be required for all dyadic treatment services (the Mental Health Diagnosis and Interpretation of Diagnosis DO NOT require a prior authorization). All performing providers of parent/caregiver and child Counseling Services MUST be certified by the appropriate DHS division to provide those services.

Providers will diagnose children through the age of forty-seven (47) months based on the most current version of the Diagnostic Classification of Mental Health and Developmental Disorders of Infancy and Early Childhood. Providers will then crosswalk the diagnosis to an allowable behavioral health diagnosis. Specified Z and T codes and conditions that may be the focus of clinical attention according to DSM 5 or subsequent editions will be allowable for this population.

214.300 Substance Abuse Covered Codes**1-1-24**

Certain Counseling Services are covered by Arkansas Medicaid for an individual whose primary diagnosis is substance abuse. Licensed Practitioners may provide Substance Abuse Service within the scope of their practice. Individuals solely licensed as Licensed Alcoholism and Drug Abuse Counselors (LADAC) may only provide services to individuals with a primary substance use diagnosis. Behavioral Health Agency and Community Support System Providers Intensive and Enhanced sites must be licensed by the appropriate DHS division to provide Substance Abuse Services.

224.000 Physician's Role**1-1-24**

Counseling Services providers are responsible for communication with the client's primary care physician to ensure psychiatric and medical conditions are monitored and addressed by appropriate physician oversight and that medication evaluation and prescription services are available to individuals requiring pharmacological management.

226.100 Documentation**1-1-24**

All Counseling Services providers must develop and maintain sufficient written documentation to support each medical or remedial therapy, service, activity, or session for which Medicaid reimbursement is sought. This documentation, at a minimum, must:

- A. Be individualized to the client and specific to the services provided, duplicated notes are not allowed
- B. Include the date and actual time the services were provided
- C. Contain original signature, name, and credentials of the person who provided the services
- D. Document the setting in which the services were provided. For all settings other than the provider's enrolled sites, the name and physical address of the place of service must be included
- E. Document the relationship of the services to the treatment regimen described in the Treatment Plan
- F. Contain updates describing the patient's progress
- G. Document involvement, for services that require contact with anyone other than the client, evidence of conformance with HIPAA regulations, including presence in documentation of Specific Authorizations, if required

Documentation must be legible and concise. The name and title of the person providing the service must reflect the appropriate professional level in accordance with the staffing requirements found in Section 211.200.

All documentation must be available to representatives of DHS or Office of Medicaid Inspector General at the time of an audit. All documentation must be available at the provider's place of business. A provider will have 30 (thirty) days to submit additional documentation in response to a request from DHS or OMIG. Additional documentation will not be accepted after this thirty (30) day period.

228.000 Provider Reviews**1-1-24**

The Utilization Review Section within DHS has the responsibility for assuring quality medical care for its clients, along with protecting the integrity of both state and federal funds supporting the Medical Assistance Program.

228.130 Retrospective Reviews**1-1-24**

DHS has contracted with a Quality Improvement Organization (QIO) or QIO-like organization to perform retrospective (post payment) reviews of counseling services provided by Counseling Services providers. [View or print current contractor contact information.](#)

The reviews will be conducted by licensed mental health professionals who will examine the medical record for compliance with federal and state laws and regulations.

228.132 Review Sample and the Record Request**1-1-24**

On a calendar quarterly basis, the DHS contractor will select a statistically valid random sample from an electronic data set of all Counseling Services beneficiaries whose dates of service occurred during the three (3) -month selection period. This sample will include a sample from each enrolled provider. If a client was selected in any of the three (3) calendar quarters prior to the current selection period, then the client will be excluded from the sample and an alternate client will be substituted. The utilization review process will be conducted in accordance with 42 CFR § 456.23.

A written request for medical record copies will be sent to each provider along with their identified client served and instructions for submitting the medical record. The request will include the client's name, date of birth, Medicaid identification number, and dates of service. The request also will include a list of the medical record components that must be submitted for review. The time limit for a provider to request reconsideration of an adverse action/decision stated in § 1 of the Medicaid Manual shall be the time limit to furnish requested records. If the requested information is not received by the deadline, a medical necessity denial will be issued.

All medical records must be submitted to the contractor via fax, mail, or electronic medium. [View or print current contractor contact information.](#) Records will not be accepted via email.

228.133 Review Process**1-1-24**

The record will be reviewed using a review tool based upon the promulgated Medicaid Counseling Services manual. The review tool is designed to facilitate review of regulatory compliance, incomplete documentation, and medical necessity. All reviewers must have a professional license in therapy (LP, LCSW, LMSW, LPE, LPE-I, LPC, LAC, LMFT, LAMFT, etc.). The reviewer will screen the record to determine whether complete information was submitted for review. If it is determined that all requested information was submitted, then the reviewer will review the documentation in more detail to determine whether it meets medical necessity criteria based upon the reviewer's professional judgment.

If a reviewer cannot determine that the services were medically necessary, then the record will be given to a psychiatrist for review. If the psychiatrist denies some or all of the services, then a denial letter will be sent to the provider and the client. Each denial letter contains a rationale for the denial that is record-specific and each party is provided information about requesting reconsideration review or a fair hearing.

The reviewer also will compare the paid claims data to the progress notes submitted for review. When documentation submitted does not support the billed services, the reviewer will deny the services that are not supported by documentation. If the reviewer sees a deficiency during a retrospective review, then the provider will be informed that it has the opportunity to submit information that supports the paid claim. If the information submitted does not support the paid

claim, the reviewer will send a denial letter to the provider and the client. Each denial letter contains a rationale for the denial that is record-specific and each party is provided information about requesting reconsideration review or a fair hearing.

Each retrospective review, and any adverse action resulting from a retrospective review, shall comply with the Medicaid Fairness Act. DHS will ensure that its contractor(s) is/are furnished a copy of the Act.

229.000 Medicaid Client Appeal Process

1-1-24

When an adverse decision is received, the client may request a fair hearing of the denial decision.

The appeal request must be in writing and received by the Appeals and Hearings office in DHS within thirty (30) days of the date on the letter explaining the denial of services.

229.200 Recoupment Process

1-1-24

The DHS Utilization Review Section (UR) is required to initiate the recoupment process for all claims that the current contractor has denied because the records submitted do not support the claim of medical necessity.

Arkansas Medicaid will send the provider an Explanation of Recoupment Notice that will include the claim date of service, Medicaid client name and ID number, service provided, amount paid by Medicaid, amount to be recouped, and the reason the recoupment is initiated.

231.000 Introduction to Extension of Benefits

1-1-24

DHS contracts with third-party vendor to complete the prior authorization and extension of benefit processes.

231.200 Extension of Benefits

1-1-24

Extension of benefits is required for all services when the maximum benefit for the service is exhausted. Yearly service benefits are based on the state fiscal year running from July 1 to June 30. Extension of Benefits also is required whenever a client exceeds eight (8) hours of outpatient services in one 24-hour day, with the exception of any service that is paid on a per diem basis.

Extension of Benefit requests must be sent to the DHS-contracted entity to perform Extensions of Benefits for clients. [View or print current contractor contact information](#). Information related to clinical management guidelines and authorization request processes is available at **current contractor's website**.

240.100 Reimbursement

1-1-24

Reimbursement is based on the lesser of the billed amount or the Title XIX (Medicaid) maximum allowable for each procedure.

Reimbursement is contingent upon eligibility of both the client and provider at the time the service is provided and upon accurate completeness of the claim filed for the service. The provider is responsible for verifying that the client is eligible for Arkansas Medicaid prior to rendering services.

A. Counseling Services

Fifteen (15) -Minute Units, unless otherwise stated

Counseling Services must be billed on a per unit basis as indicated in the service definition, as reflected in a daily total, per client, per service.

Time spent providing services for a single client may be accumulated during a single, 24-hour calendar day. Providers may accumulatively bill for a single date of service, per client, per counseling service. Providers are not allowed to accumulatively bill for spanning dates of service.

All billing must reflect a daily total, per Counseling Service, based on the established procedure codes. No rounding is allowed.

The sum of the days' time, in minutes, per service will determine how many units are allowed to be billed. That number must not be exceeded. The total of minutes per service must be compared to the following grid, which determines the number of units allowed.

15 Minute Units	Timeframe
One (1) unit =	8 – 24 minutes
Two (2) units =	25 – 39 minutes
Three (3) units =	40 – 49 minutes
Four (4) units =	50 – 60 minutes

60 minute Units	Timeframe
One (1) unit =	50-60 minutes
Two (2) units =	110-120 minutes
Three (3) units =	170-180 minutes
Four (4) units =	230-240 minutes
Five (5) units =	290-300 minutes
Six (6) units =	350-360 minutes
Seven (7) units=	410-420 minutes
Eight (8) units=	470-480 minutes

In a single claim transaction, a provider may bill only for service time accumulated within a single day for a single client. There is no "carryover" of time from one day to another or from one client to another.

Documentation in the client's record must reflect exactly how the number of units is determined.

No more than four (4) units may be billed for a single hour per client or provider of the service.

241.000 Fee Schedule

1-1-24

Arkansas Medicaid provides fee schedules on the [DHS website](#). The fees represent the fee-for-service reimbursement methodology.

Fee schedules do not address coverage limitations or special instructions applied by Arkansas Medicaid before final payment is determined.

Procedure codes and/or fee schedules do not guarantee payment, coverage or amount allowed. Information may be changed or updated at any time to correct a discrepancy and/or error. Arkansas Medicaid always reimburses the lesser of the amount billed or the Medicaid maximum.

242.000 Rate Appeal Process**1-1-24**

A provider may request reconsideration of a program decision by writing to the Assistant Director, DHS Division of Medical Services. This request must be received within twenty (20) calendar days following the application of policy and/or procedure or the notification of the provider of its rate. Upon receipt of the request for review, the Assistant Director will determine the need for a program/provider conference and will contact the provider to arrange a conference, if needed. Regardless of the program decision, the provider will be afforded the opportunity for a conference, if he or she so wishes, for a full explanation of the factors involved and the program decision. Following review of the matter, the Assistant Director will notify the provider of the action to be taken by the Division within twenty (20) calendar days of receipt of the request for review or the date of the program/provider conference.

If the decision of the Assistant Director, Division of Medical Services is unsatisfactory, the provider may then appeal the question to a standing Rate Review Panel, established by the Director of the Division of Medical Services, which will include one member of the Division of Medical Services, a representative of the provider association and a member of the DHS management staff, who will serve as chairperson.

The request for review by the Rate Review Panel must be postmarked within fifteen (15) calendar days following the notification of the initial decision by the Assistant Director, Division of Medical Services. The Rate Review Panel will meet to consider the question(s) within fifteen (15) calendar days after receipt of a request for such appeal. The question(s) will be heard by the panel and a recommendation will be submitted to the Director of the Division of Medical Services.

251.000 Introduction to Billing**1-1-24**

Counseling Services providers use the CMS-1500 form to bill Arkansas Medicaid on paper for services provided to eligible Medicaid clients. Each claim may contain charges for only one (1) client. [View a CMS-1500 sample form.](#)

Treatment program must operate a minimum of three (3) hours per day and at least three (3) days per week. The treatment is based on an individualized plan of care including assessment, counseling, crisis intervention, activity therapies or education.
SERVICE DESCRIPTION	MINIMUM DOCUMENTATION REQUIREMENTS
Intensive Outpatient Services provide group based, non-residential, intensive, structured interventions consisting primarily of counseling and education to improve symptoms that may significantly interfere with functioning in at least one (1) life domain (e.g., familial, social, occupational, educational, etc.). Services are goal-oriented interactions with the individual or in group/family settings. This community-based service allows the individual to apply skills in "real world" environments. Such treatment may be offered during the day, before or after work or school, in the evening or on a weekend. The services follow a defined set of policies and procedures or clinical protocols. The service also provides a coordinated set of individualized treatment services to persons who are able to	<ul style="list-style-type: none"> Date of service Start and stop times of the face-to-face encounter with the client and the interpretation time for diagnostic formulation Place of service Identifying information Referral reason Presenting problem(s), history of presenting problem(s) including duration, intensity, and response(s) to prior treatment Diagnostic impressions Rationale for service including consistency with plan of care

Yes No

If yes, the agency is required by Ark. Code Ann. § 25-15-204(e)(4) to file written findings at the time of filing the financial impact statement. The written findings shall be filed simultaneously with the financial impact statement and shall include, without limitation, the following:

- (1) a statement of the rule's basis and purpose;
- (2) the problem the agency seeks to address with the proposed rule, including a statement of whether a rule is required by statute;
- (3) a description of the factual evidence that:
 - (a) justifies the agency's need for the proposed rule; and
 - (b) describes how the benefits of the rule meet the relevant statutory objectives and justify the rule's costs;
- (4) a list of less costly alternatives to the proposed rule and the reasons why the alternatives do not adequately address the problem to be solved by the proposed rule;
- (5) a list of alternatives to the proposed rule that were suggested as a result of public comment and the reasons why the alternatives do not adequately address the problem to be solved by the proposed rule;
- (6) a statement of whether existing rules have created or contributed to the problem the agency seeks to address with the proposed rule and, if existing rules have created or contributed to the problem, an explanation of why amendment or repeal of the rule creating or contributing to the problem is not a sufficient response; and
- (7) an agency plan for review of the rule no less than every ten (10) years to determine whether, based upon the evidence, there remains a need for the rule including, without limitation, whether:
 - (a) the rule is achieving the statutory objectives;
 - (b) the benefits of the rule continue to justify its costs; and
 - (c) the rule can be amended or repealed to reduce costs while continuing to achieve the statutory objectives.
