## UNIFORM APPLICATION

FY 2020 Substance Abuse Block Grant Report

## SUBSTANCE ABUSE PREVENTION AND TREATMENT BLOCK GRANT

OMB - Approved 04/19/2019 - Expires 04/30/2022  
(generated on 12/02/2019 7.10.40 PM)

Center for Substance Abuse Prevention  
Division of State Programs

Center for Substance Abuse Treatment  
Division of State and Community Assistance

# I: State Information

## State Information

### I. State Agency for the Block Grant

Agency Name Arkansas Department of Human Services

Organizational Unit Division of Aging, Adult and Behavioral Health Services

Mailing Address Post Office Box 1437 Slot W-241

City Little Rock

Zip Code 72203-1437

### II. Contact Person for the Block Grant

First Name Jay

Last Name Hill

Agency Name AR DHS, Division of Aging, Adult and Behavioral Health Services

Mailing Address PO Box 1437 Slot W-241

City Little Rock

Zip Code 72203-1437

Telephone 501-686-9164

Fax

Email Address jay.hill@dhs.arkansas.gov

### III. Expenditure Period

#### State Expenditure Period

From 7/1/2018

To 6/30/2019

#### Block Grant Expenditure Period

From 10/1/2016

To 9/30/2018

### IV. Date Submitted

Submission Date 12/2/2019 7:09:29 PM

Revision Date

### V. Contact Person Responsible for Report Submission

First Name Rachael

Last Name Veregge

Telephone 501-320-6431

Fax

Email Address rachael.veregge@dhs.arkansas.gov

### VI. Contact Person Responsible for Substance Abuse Data

First Name Carrie

Last Name Anderson

Telephone 501-396-6791

Email Address carrie.anderson@dhs.arkansas.gov

**Footnotes:**

## II: Annual Update

**Table 1 Priority Area and Annual Performance Indicators - Progress Report**

**Priority #:** 1

**Priority Area:** Substance Abuse Treatment

**Priority Type:** SAT

**Population(s):** PWWDC, PP

**Goal of the priority area:**

Maintain and expand access to substance abuse services for the indigent and/or court involved population

**Strategies to attain the goal:**

- Contract with community based providers to provide services to the indigent populations. These contracts prioritize individuals who are intravenous drug users, women who are pregnant and/or parenting, military, and adolescents.
- Provide detoxification, outpatient services, partial day treatment, residential services, and Specialized Women Services.
- Substance abuse treatment providers will support faith-based organizations and community partners to develop a collaborative partnership

**Annual Performance Indicators to measure goal success**

**Indicator #:** 1

**Indicator:** Number of unduplicated individuals served

**Baseline Measurement:** 11476

**First-year target/outcome measurement:** A 1.5% increase from baseline.

**Second-year target/outcome measurement:** A 3% increase from baseline.

**New Second-year target/outcome measurement(if needed):**

**Data Source:**

Client specific treatment data reported from the state's substance use disorder treatment data system (Alcohol/Drug Management Information System: ADMIS).

**New Data Source(if needed):**

**Description of Data:**

The Baseline Measurement is the number of unduplicated individuals served from July 1, 2015 to June 30, 2016 (SFY 2016). The first-year target will include data from SFY 2017. The second-year target will include SFY 2018.

**New Description of Data(if needed)**

**Data issues/caveats that affect outcome measures:**

The most current data available for establishing a baseline measurement is from SFY 2016. The first and second years data will be SFY 2017 and 2018, respectively.

**New Data issues/caveats that affect outcome measures:**

**Report of Progress Toward Goal Attainment**

First Year Target: ☒ Achieved ☐ Not Achieved (if not achieved, explain why)

**Reason why target was not achieved, and changes proposed to meet target:**

**How first year target was achieved (optional):**

Second Year Target: ☒ Achieved ☐ Not Achieved (if not achieved, explain why)

**Reason why target was not achieved, and changes proposed to meet target:**

**How second year target was achieved (optional):**

**Indicator #:** 2

**Indicator:** Units of Services Provided

**Baseline Measurement:** Total Units for Residential Treatment = 1000,170 days; Total Units for Outpatient Treatment = 2901 hours; Total Detoxification Units = 3270 hours

**First-year target/outcome measurement:** First year target represents a 1.5% increase from baseline.

**Second-year target/outcome measurement:** Second year target represents a 3% increase from baseline.

**New Second-year target/outcome measurement(if needed):**

**Data Source:**

Client specific treatment data reported from the state's substance use disorder treatment data system (Alcohol/Drug Management Information System: ADMIS).

**New Data Source(if needed):**

**Description of Data:**

The Baseline Measurement is the number of unduplicated individuals served from July 1, 2015 to June 30, 2016 (SFY 2016). The first-year target will include data from SFY 2017. The second-year target will include SFY 2018.

**New Description of Data:(if needed)**

**Data issues/caveats that affect outcome measures:**

The most current data available for establishing a baseline measurement is from SFY 2016. The first and second years data will be SFY 2017 and 2018, respectively.

**New Data issues/caveats that affect outcome measures:**

## Report of Progress Toward Goal Attainment

First Year Target: ☐ Achieved ☒ Not Achieved (if not achieved,explain why)

**Reason why target was not achieved, and changes proposed to meet target:**

During Year 1, Arkansas saw a decrease in the number of residential treatment, outpatient treatment and detoxification days from our baseline measurements. Arkansas began utilizing discretionary grant funding that targeted opioid users which allowed block grant funding to be used to cover other service gaps. Additionally outpatient treatment services have now been made available through the Arkansas Medicaid Program.

02/25/19: Only one objective was not achieved, Priority Area A, Indicator 2. Through the Medicaid Behavioral Health Transformation, which began July 1, 2017, Arkansas began to offer outpatient substance abuse treatment and detox service through Medicaid. It is thought that this would free up more block grant funding to cover the residential treatment services., which are not covered by Medicaid. However, the main focus is to provide community based services over residential as this is the least restrictive environment.

**How first year target was achieved (optional):**

Second Year Target: ☒ Achieved ☐ Not Achieved (if not achieved,explain why)

**Reason why target was not achieved, and changes proposed to meet target:**

**How second year target was achieved (optional):**

**Priority #:** 2

**Priority Area:** Mental Health Treatment

**Priority Type:** MHS  
**Population(s):** SMI, SED

**Goal of the priority area:**

Maintain or expand access to quality mental health services for the population of adults with serious mental illness and children with serious emotional disturbance.

**Strategies to attain the goal:**

Improve contracts with community based providers to provide mental health treatment to adults with serious mental illness and children with severe emotional disturbance.

**Priority #:** 3  
**Priority Area:** Behavioral Health Medicaid transformation  
**Priority Type:** SAT, MHS  
**Population(s):** SMI, SED, Other (Adolescents w/SA and/or MH, Children/Youth at Risk for BH Disorder)

**Goal of the priority area:**

Promote and improve integrated care approaches, best practices, recovery-oriented services, and delivery and access to services for underserved communities within the Medicaid system.

**Strategies to attain the goal:**

Continue to meet with stakeholders to garner feedback and support.

**Annual Performance Indicators to measure goal success**

**Indicator #:** 1  
**Indicator:** Transition RSPMI Providers to BHA Certification in the OBHS system  
**Baseline Measurement:** 56  
**First-year target/outcome measurement:** 53  
**Second-year target/outcome measurement:** 56

**New Second-year target/outcome measurement(if needed):**

**Data Source:**

Medicaid data warehouse; Provider database

**New Data Source(if needed):**

**Description of Data:**

The Medicaid data warehouse houses all information on Medicaid providers, clients and claims. The provider database houses demographic information on just the providers.

**New Description of Data:(if needed)**

**Data issues/caveats that affect outcome measures:**

The first-year target outcome represents the existing Rehabilitative Services for Persons with Mental Illness (RSPMI) providers who will have from July 1, 2017 to June 30, 2018 to transition to the new Behavioral Health Agency (BHA) certification. The initial count, baseline measurement, of RSPMI providers is 56. The first year target of 53 represent 95% of providers who should transition during the first year. The second year target of 56 represents 100% of RSPMI providers making the transition.

**New Data issues/caveats that affect outcome measures:**

**Report of Progress Toward Goal Attainment**

First Year Target: ☒ Achieved ☐ Not Achieved (if not achieved, explain why)

**Reason why target was not achieved, and changes proposed to meet target:**

**How first year target was achieved (optional):**

Second Year Target: ☒ Achieved ☐ Not Achieved (if not achieved, explain why)

**Reason why target was not achieved, and changes proposed to meet target:**

**How second year target was achieved (optional):**

**Indicator #:** 2

**Indicator:** Transition of LMHP providers to ILP providers

**Baseline Measurement:** 41

**First-year target/outcome measurement:** 43

**Second-year target/outcome measurement:** 45

**New Second-year target/outcome measurement(if needed):**

**Data Source:**

Medicaid data warehouse; provider database

**New Data Source(if needed):**

**Description of Data:**

The Medicaid data warehouse houses all information on Medicaid providers, clients and claims. The provider database houses demographic information on just the providers.

**New Description of Data(if needed)**

**Data issues/caveats that affect outcome measures:**

Currently certified Licensed Mental Health Practitioners (LMHPs) will need to apply and be approved as an Independently Licensed Practitioner (ILP) in the new Outpatient Behavioral Health Services (OBHS) system at any point between July 1, 2017 and June 30, 2018. The LMHP program will sundown on June 30, 2018.

The first year target represents 95% of currently certified LMHP providers (41) who will complete the application process with an increase of 5% (2) of new ILP applications being approved for a total of 43.

The second year target, 45 represents an 10% increase of new ILP providers who apply and are approved during the second year, July 1, 2018-June 1, 2019.

**New Data issues/caveats that affect outcome measures:**

## Report of Progress Toward Goal Attainment

First Year Target: ☐ Achieved ☒ Not Achieved (if not achieved, explain why)

**Reason why target was not achieved, and changes proposed to meet target:**

At the end of SFY 2017 there was a total of 41 certified LMHPs. During SFY 2018, 55 individuals were certified as ILPs. Of these 55, 17 had converted from the former LMHP program to the new ILP program. Thus far in SFY 2019, an additional 108 individuals have been certified as an ILP, bringing the total to 163 individuals. Our first-year target goal of converting 43 individuals to the ILP program was not met. We cannot say for sure why more of the LMHPs did not convert to the new program.

**How first year target was achieved (optional):**

Second Year Target: ☐ Achieved ☒ Not Achieved (if not achieved, explain why)

**Reason why target was not achieved, and changes proposed to meet target:**

At the end of SFY 2017 there was a total of 41 certified LMHPs. As of this report, 24 former LMHPs had converted to the ILP program. However, as of this report a total of 287 individuals have been certified as an ILP.

**How second year target was achieved (optional):**

**Priority #:** 4

**Priority Area:** Children's System of Care

**Priority Type:** MHS

**Population(s):** SED

**Goal of the priority area:**

Build a family and youth involvement and leadership structure that will facilitate the family and youth voice and choice at every level of service planning, development, delivery, and evaluation

**Strategies to attain the goal:**

\* Partner with NAMI AR to develop youth and family capacity and hire Liaisons

\* Partner with UALR/MidSOUTH Center for Prevention and Training/University of Arkansas at Little Rock School of Social Work To provide funding to build capacity in workforce development, continuing education, resource development, and technical assistance to professionals and family members.

**Annual Performance Indicators to measure goal success**

**Indicator #:** 1

**Indicator:** Number of Support Groups Held (Through NAMI AR)

**Baseline Measurement:** 4

**First-year target/outcome measurement:** 6

**Second-year target/outcome measurement:** 10

**New Second-year target/outcome measurement(if needed):**

**Data Source:**

NAMI AR

**New Data Source(if needed):**

**Description of Data:**

NAMI Support groups are funded by the Children's System of Care grant. DBHS has a sub grant with NAMI Arkansas to provide funds for these groups. Arkansas would like to have one group meet monthly in each of 14 sites.

**New Description of Data:(if needed)**

**Data issues/caveats that affect outcome measures:**

The challenge has been in finding individuals who are consistently able to lead support groups as the leaders must be legacy family members who complete the NAMI support group trainings and be unpaid volunteers.

**New Data issues/caveats that affect outcome measures:**

**Report of Progress Toward Goal Attainment**

First Year Target: ☒ Achieved ☐ Not Achieved (if not achieved, explain why)

**Reason why target was not achieved, and changes proposed to meet target:**

**How first year target was achieved (optional):**

Second Year Target: ☒ Achieved ☐ Not Achieved (if not achieved, explain why)

**Reason why target was not achieved, and changes proposed to meet target:**

**How second year target was achieved (optional):**

**Indicator #:** 2

**Indicator:** Number of Individuals Trained by UALR/MidSOUTH

**Baseline Measurement:** 426

**First-year target/outcome measurement:** 356

**Second-year target/outcome measurement:** 400

**New Second-year target/outcome measurement(if needed):****Data Source:**

UALR/MidSOUTH

**New Data Source(if needed):****Description of Data:**

Each year the Children's System of Care grant trainings have been made available to mental health staff and families. During SFY 2016, an exceptionally large number of family members were trained in Team Up for Your Child. Each year different subjects directly related to the grant are chosen and specific groups are targeted for the trainings.

**New Description of Data(if needed)****Data issues/caveats that affect outcome measures:**

During the final years of the grant, less funds are available to be used for training.

**New Data issues/caveats that affect outcome measures:**

## Report of Progress Toward Goal Attainment

First Year Target: ☐ Achieved ☒ Not Achieved (if not achieved, explain why)

**Reason why target was not achieved, and changes proposed to meet target:**

The Behavioral Health transformation in Arkansas was many years in the making. Many of the providers have been resistant to the system changes. It is this hesitancy that led to providers being more reluctant to hire and enroll employees into the Family Support Partner and Youth Support Specialist trainings until the transformation was approved by the legislature and implemented. Information has since been disbursed to garner more enthusiasm for the trainings while advising providers of the benefits of having Family Support Partners and Youth Support Specialists. We expect that since the transformation has been approved and is implemented that the numbers of individuals being trained will increase in the years to come.

**How first year target was achieved (optional):**

Second Year Target: ☒ Achieved ☐ Not Achieved (if not achieved, explain why)

**Reason why target was not achieved, and changes proposed to meet target:****How second year target was achieved (optional):**

**Indicator #:** 3

**Indicator:** Number of Youth and Family Affiliate Liaisons Hired

**Baseline Measurement:** 9 Youth and 5 Family Liaisons Hired

**First-year target/outcome measurement:** 11 youth and 11 family liaisons hired

**Second-year target/outcome measurement:** 14 youth and 14 family liaisons hired

**New Second-year target/outcome measurement(if needed):****Data Source:**

Mid-South Health Systems

**New Data Source(if needed):****Description of Data:**

Family and youth liaisons work within their community in the area of social marketing to inform families and youth about System of Care and encourage their participation in System of Care activities.

**New Description of Data:(if needed)****Data issues/caveats that affect outcome measures:**

All liaisons must have lived experiences and a desire to help others with similar backgrounds.

**New Data issues/caveats that affect outcome measures:****Report of Progress Toward Goal Attainment**

First Year Target: ☒ Achieved ☐ Not Achieved (if not achieved, explain why)

**Reason why target was not achieved, and changes proposed to meet target:****How first year target was achieved (optional):**

Second Year Target: ☐ Achieved ☒ Not Achieved (if not achieved, explain why)

**Reason why target was not achieved, and changes proposed to meet target:**

The discretionary grant that funded this indicator ended 09/29/19. No new hires were made in the last year as the grant was on a no cost extension.

**How second year target was achieved (optional):**

**Priority #:** 5

**Priority Area:** Consumer Affairs

**Priority Type:** SAT, MHS

**Population(s):** SMI, SED, PWWDC, PP, Other (Adolescents w/SA and/or MH, LGBTQ, Rural, Criminal/Juvenile Justice, Persons with Disabilities, Homeless)

**Goal of the priority area:**

To assist and educate identified populations throughout the State of Arkansas in navigating the various social and behavioral health systems to access services

**Strategies to attain the goal:**

The Office of Community Affairs (OCA) will maintain a database regarding issues with access to services in a timely manner or lack of services available in primary counties of service.

OCA will build relationships with community organizations, providers and stakeholder to address consumer identified concerns and assist with obtaining access to services.

**Annual Performance Indicators to measure goal success**

**Indicator #:** 1

**Indicator:** OCA receives calls regarding lack of access to services

**Baseline Measurement:** Average number of calls is 50 per month.

**First-year target/outcome measurement:** OCA will decrease the number of calls regarding a lack of access to services by 3%

**Second-year target/outcome measurement:** OCA will decrease the number of calls regarding a lack of access to services by 5%

**New Second-year target/outcome measurement(if needed):**

**Data Source:**

Monthly call log database

**New Data Source(if needed):****Description of Data:**

The Office of Consumer Affairs and the Division of Aging, Adult and Behavioral Health Services staff receive calls; identify need of the caller and provide caller with an outcome.

**New Description of Data:(if needed)****Data issues/caveats that affect outcome measures:****New Data issues/caveats that affect outcome measures:****Report of Progress Toward Goal Attainment**

First Year Target: ☒ Achieved ☐ Not Achieved (if not achieved,explain why)

**Reason why target was not achieved, and changes proposed to meet target:****How first year target was achieved (optional):**

**Priority #:** 6

**Priority Area:** Alcohol Use Among Youth, Adults and the Military

**Priority Type:** SAP

**Population(s):** PP, Other (Adolescents w/SA and/or MH, Military Families)

**Goal of the priority area:**

Reduce use of alcohol drinking among persons under 21, adults and the military.

**Strategies to attain the goal:**

- Increase utilization of the Center for Substance Abuse Prevention (CSAP) strategies: information dissemination, education/training community-based, problem identification and referral.
- Coordinate services for veterans, families, and other impacted by combat to determine and fill gaps based on issues, geography, age, and gender.
- Increase leadership and advocacy training for youth.
- Increase training about prevention to physicians and other healthcare providers for a greater understanding of science of addiction and prescription drug issues related to over prescribing.
- Increase drug education and services to college age youth.
- Increase survey participation on college campuses.
- Increase public awareness of substance abuse and misuse.

**Annual Performance Indicators to measure goal success**

**Indicator #:** 1

**Indicator:** Number of students surveyed who reported that they had drank alcohol in the past 30 days.

**Baseline Measurement:** 12%

**First-year target/outcome measurement:** Lower reported 30-day alcohol usage by 2%

**Second-year target/outcome measurement:** Lower reported 30-day alcohol usage by 3%

**New Second-year target/outcome measurement(if needed):**

**Data Source:**

Arkansas Prevention Needs Assessment Survey (APNA), State Epidemiological Outcome Workgroup (SEOW), Completed on-line training certificates, Arkansas Prevention WITS System

**New Data Source(if needed):**

**Description of Data:**

The Arkansas Prevention Needs Assessment (APNA) Survey measures the current student use of alcohol, tobacco, and other drugs (ATOD) for students in grades 6th, 8th, 10th & 12th. APNA Survey is grounded in the risk and protective factor model of substance abuse prevention.

Enhance or expand data being collected by veteran serving organization for ATOD usage such as completed on-line training certificates.

State Epidemiological Outcome Workgroup: This report provides an overview of substance consumption and consequence at both statewide and county levels. The purpose of the profile is to provide state policy-makers with a comprehensive picture of substance abuse challenges faced in Arkansas.

Arkansas Prevention WITS provides full functionality for tracking all prevention activities within the state and its regions or service areas. WITS contain a multi-dimensional Prevention Plan and allow contracted agencies to implement appropriate interventions/activities according to the plan. Implementation data is collected based on the workflow of the users, allowing for rapid but thorough collection of data required by the Block Grant, PFS and other required reporting mechanisms. All data collected can be used for subsequent evaluation, assessment and planning activities.

**New Description of Data:(if needed)**

**Data issues/caveats that affect outcome measures:**

Arkansas uses the WITS reporting system – a web-based application designed to meet the growing need to capture substance abuse, mental health and treatment data. WITS satisfies mandatory government reporting requirements for planning, administration and monitoring of prevention programs. The system captures demographic information, number of individuals served, ethnicity, risk and protective factors along with the CSAP strategies.

**New Data issues/caveats that affect outcome measures:**

**New Data Source(if needed):****Description of Data:**

The Arkansas Prevention Needs Assessment (APNA) Survey measures the current student use of alcohol, tobacco, and other drugs (ATOD) for students in grades 6th, 8th, 10th & 12th. APNA Survey is grounded in the risk and protective factor model of substance abuse prevention.

Enhance or expand data being collected by veteran serving organization for ATOD usage such as completed on-line training certificates.

State Epidemiological Outcome Workgroup: This report provides an overview of substance consumption and consequence at both statewide and county levels. The purpose of the profile is to provide state policy-makers with a comprehensive picture of substance abuse challenges faced in Arkansas.

Prevention WITS directly supports efforts by State agencies, Tribal organizations, Providers and US territories to implement SAMHSA's Strategic Prevention Framework (SPF).

Arkansas Prevention WITS provides full functionality for tracking all prevention activities within the state and its regions or service areas. WITS contain a multi-dimensional Prevention Plan and allow contracted agencies to implement appropriate interventions/activities according to the plan. Implementation data is collected based on the workflow of the users, allowing for rapid but thorough collection of data required by the Block Grant, PFS and other required reporting mechanisms. All data collected can be used for subsequent evaluation, assessment and planning activities

**New Description of Data(if needed)****Data issues/caveats that affect outcome measures:**

Arkansas uses the WITS reporting system – a web-based application designed to meet the growing need to capture substance abuse, mental health and treatment data. WITS satisfies mandatory government reporting requirements for planning, administration and monitoring of prevention programs. The system captures demographic information, number of individuals served, ethnicity, risk and protective factors along with the CSAP strategies.

**New Data issues/caveats that affect outcome measures:****Report of Progress Toward Goal Attainment**

First Year Target: ☒ Achieved ☐ Not Achieved (if not achieved, explain why)

**Reason why target was not achieved, and changes proposed to meet target:****How first year target was achieved (optional):**

Second Year Target: ☒ Achieved ☐ Not Achieved (if not achieved, explain why)

**Reason why target was not achieved, and changes proposed to meet target:****How second year target was achieved (optional):**

**Indicator #:** 3

**Indicator:** Number of completed on-line training for Center for Prevention and Training for Military

**Baseline Measurement:** 0

**First-year target/outcome measurement:** Increase number of on-line trainings completed by 2%

**Second-year target/outcome measurement:** Increase number of on-line trainings completed by 3%

**New Second-year target/outcome measurement(if needed):**

**Data Source:**

State Epidemiological Outcome Workgroup (SEOW), Completed on-line training certificates, Arkansas Prevention WITS System

**New Data Source(if needed):**

**Description of Data:**

Enhance or expand data being collected by veteran serving organization for ATOD usage such as completed on-line training certificates.

## Report of Progress Toward Goal Attainment

First Year Target: ☒ Achieved ☐ Not Achieved (if not achieved, explain why)

**Reason why target was not achieved, and changes proposed to meet target:**

**How first year target was achieved (optional):**

Second Year Target: ☒ Achieved ☐ Not Achieved (if not achieved, explain why)

**Reason why target was not achieved, and changes proposed to meet target:**

**How second year target was achieved (optional):**

**Priority #:** 8

**Priority Area:** Lower the Usage Rate for Prescription Drug Usage

**Priority Type:** SAP

**Population(s):** PP, Other (Adolescents w/SA and/or MH, Military Families)

**Goal of the priority area:**

Reduce misuse of prescription drugs among Youth, Adults and the Military.

**Strategies to attain the goal:**

- Increase utilization of the Center for Substance Abuse Prevention (CSAP) strategies: information dissemination, education/training community-based, problem identification and referral.
- Coordinate services for veterans, families, and other impacted by combat to determine and fill gaps based on issues, geography, age, and gender.
- Increase leadership and advocacy training for youth.
- Increase training about prevention to physicians and other healthcare providers for a greater understanding of science of addiction and prescription drug issues related to over prescribing.
- Increase drug education and services to college age youth.
- Increase survey participation on college campuses.
- Increase public awareness of substance abuse and misuse.

**Annual Performance Indicators to measure goal success**

<b>Indicator #:</b>	1
<b>Indicator:</b>	Number of students surveyed in APNA 2014 who reported using prescription drugs use in the past 30 days.
<b>Baseline Measurement:</b>	3.2%
<b>First-year target/outcome measurement:</b>	Lower reported 30-day prescription drug usage by 2%
<b>Second-year target/outcome measurement:</b>	Lower reported 30-day prescription drug usage by 3%
<b>New Second-year target/outcome measurement(if needed):</b>	

**Data Source:**

Arkansas Prevention Needs Assessment Survey (APNA), State Epidemiological Outcome Workgroup (SEOW), Completed on-line training certificates, Arkansas Prevention WITS System

**New Data Source(if needed):**

APNA 2016 is the data source for this reporting period

**Description of Data:**

The Arkansas Prevention Needs Assessment (APNA) Survey measures the current student use of alcohol, tobacco, and other drugs (ATOD) for students in grades 6th, 8th, 10th & 12th. APNA Survey is grounded in the risk and protective factor model of substance abuse prevention.

**New Data issues/caveats that affect outcome measures:**

## Report of Progress Toward Goal Attainment

First Year Target: ☐ Achieved ☒ Not Achieved (if not achieved, explain why)

**Reason why target was not achieved, and changes proposed to meet target:**

Arkansas showed no change in the number of students who self-reported using prescription drugs in the past 30 days. Arkansas did not achieve its goal in year one due to an organization change within the Substance Abuse Unit of the Division. In shifting focus for youth populations, Arkansas is utilizing additional discretionary grant funding to focus efforts on underage prescription drug use and misuse.

**How first year target was achieved (optional):**

Second Year Target: ☒ Achieved ☐ Not Achieved (if not achieved, explain why)

**Reason why target was not achieved, and changes proposed to meet target:**

**How second year target was achieved (optional):**

**Indicator #:** 2

**Indicator:** The population served and reported in the Arkansas Prevention WITS System by CSAP Strategies.

**Baseline Measurement:** 1,122,046

**First-year target/outcome measurement:** Increase the population served by 2%

**Second-year target/outcome measurement:** Increase the population served by 3%

**New Second-year target/outcome measurement(if needed):**

### III: Expenditure Reports

**Table 2 - State Agency Expenditure Report**

This table provides a report of SABG and State expenditures by the State Substance Abuse Authority during the State fiscal year immediately preceding the federal fiscal year for which the state is applying for funds for authorized activities to prevent and treat substance abuse. For detailed instructions, refer to those in the Block Grant Application System (BGAS). **Include ONLY funds expended by the executive branch agency administering the SABG.**

Expenditure Period Start Date: 7/1/2018      Expenditure Period End Date: 6/30/2019

Activity (See instructions for using Row 1.)	A. SA Block Grant	B. MH Block Grant	C. Medicaid (Federal, State, and Local)	D. Other Federal Funds (e.g., ACF (TANF), CDC, CMS (Medicare) SAMHSA, etc.)	E. State Funds	F. Local Funds (excluding local Medicaid)	G. Other
1. Substance Abuse Prevention* and Treatment	\$6,053,172		\$0	\$1,421,171	\$2,861,519	\$0	\$2,299,098
a. Pregnant Women and Women with Dependent Children*	\$501,345						
b. All Other	\$5,551,827			\$1,421,171	\$2,861,519		\$2,299,098
2. Substance Abuse Primary Prevention	\$2,679,774			\$5,434,449			
3. Tuberculosis Services							
4. Early Intervention Services Regarding the Human Immunodeficiency Virus (EIS/HIV) **							
5. State Hospital							
6. Other 24 Hour Care							
7. Ambulatory/Community Non-24 Hour Care							
8. Mental Health Primary Prevention							
9. Evidenced Based Practices for First Episode Psychosis (10% of the state's total MHBG award)							
10. Administration (Excluding Program and Provider Level)	\$388,721			\$337,760	\$302,707		
<b>11. Total</b>	<b>\$9,121,667</b>	<b>\$0</b>	<b>\$0</b>	<b>\$7,193,380</b>	<b>\$3,164,226</b>	<b>\$0</b>	<b>\$2,299,098</b>

\*Prevention other than primary prevention

\*\*Only designated states as defined in 42 U.S.C. § 300x-24(b)(2) and 45 CFR § 96.128(b) for the applicable federal fiscal year should enter information in this row. This may include a state or states that were previously considered "designated states" during any of the three prior federal fiscal years for which a state was applying for a grant. See EIS/HIV policy change in SABG Annual Report instructions.

Please indicate the expenditures are actual or estimated.

Universal Direct 22%  
Universal Indirect 43.38%  
Selective 27.62%  
Indicated 6.10%

### III: Expenditure Reports

**Table 5c - SABG Primary Prevention Priorities and Special Population Categories**

The purpose of the first table is for the state or jurisdiction to identify the substance and/or categories of substances it identified through its needs assessment and then addressed with primary prevention set-aside dollars from the FY 2017 SABG NoA. The purpose of the second table is to identify each special population the state or jurisdiction selected as a priority for primary prevention set-aside expenditures.

Expenditure Period Start Date: 10/1/2016      Expenditure Period End Date: 9/30/2018

Targeted Substances	
Alcohol	<input checked="" type="checkbox"/>
Tobacco	<input checked="" type="checkbox"/>
Marijuana	<input checked="" type="checkbox"/>
Prescription Drugs	<input checked="" type="checkbox"/>
Cocaine	<input checked="" type="checkbox"/>
Heroin	<input checked="" type="checkbox"/>
Inhalants	<input type="checkbox"/>
Methamphetamine	<input checked="" type="checkbox"/>
Synthetic Drugs (i.e. Bath salts, Spice, K2)	<input checked="" type="checkbox"/>
Targeted Populations	
Students in College	<input checked="" type="checkbox"/>
Military Families	<input checked="" type="checkbox"/>
LGBTQ	<input checked="" type="checkbox"/>
American Indians/Alaska Natives	<input type="checkbox"/>
African American	<input checked="" type="checkbox"/>
Hispanic	<input checked="" type="checkbox"/>
Homeless	<input type="checkbox"/>

### III: Expenditure Reports

**Table 8a - Maintenance of Effort for State Expenditures for SUD Prevention and Treatment**

This Maintenance of Effort table provides a description of non-federal expenditures for authorized activities to prevent and treat substance abuse flowing through the Single State Agency (SSA) during the state fiscal year immediately preceding the federal fiscal year for which the state is applying for funds.

Expenditure Period Start Date: Expenditure Period End Date:

Total Single State Agency (SSA) Expenditures for Substance Abuse Prevention and Treatment		
Period (A)	Expenditures (B)	<u>B1(2017) + B2(2018)</u> 2 (C)
SFY 2017 (1)	\$7,919,798	
SFY 2018 (2)	\$8,085,972	\$8,002,885
SFY 2019 (3)	\$5,463,324	

Are the expenditure amounts reported in Column B "actual" expenditures for the State fiscal years involved?

SFY 2017	Yes	<u>X</u>	No	_____
SFY 2018	Yes	<u>X</u>	No	_____
SFY 2019	Yes	<u>X</u>	No	_____

Did the state or jurisdiction have any **non-recurring expenditures** as described in 42 U.S.C. § 300x-30(b) for a specific purpose which were not included in the MOE calculation?

Yes \_\_\_\_\_ No X

If yes, specify the amount and the State fiscal year: \_\_\_\_\_

If yes, SFY: \_\_\_\_\_

Did the state or jurisdiction include these funds in previous year MOE calculations?

Yes \_\_\_\_\_ No \_\_\_\_\_

When did the State or Jurisdiction submit an official request to SAMHSA to exclude these funds from the MOE calculations? \_\_\_\_\_

If estimated expenditures are provided, please indicate when actual expenditure data will be submitted to SAMHSA: \_\_\_\_\_

Please provide a description of the amounts and methods used to calculate the total Single State Agency (SSA) expenditures for substance abuse prevention and treatment 42 U.S.C. §300x-30

- 1) Funds are expended by the principal agency on a consistent basis.
- 2) MOE Funds computations are historically consistent.
- 3) MOE funds are expended for authorized activities.
- 4) Organization structure changes and/or the placement of the principal agency within the state government does not result in changes in funding.

III: Expenditure Reports

Table 8b - Expenditures for Services to Pregnant Women and Women with Dependent Children

This table provides a report of all statewide, non-federal funds expended on specialized treatment and related services which meet the SABG requirements for pregnant women and women with dependent children during the state fiscal year immediately preceding the federal fiscal year for which the state is applying for funds.

Expenditure Period Start Date: Expenditure Period End Date:

Base

Period	Total Women's Base (A)
SFY 1994	\$ 1,169,362.00

Maintenance

Period	Total Women's Base (A)	Total Expenditures (B)	Expense Type
SFY 2017		\$ 1,438,727.00	
SFY 2018		\$ 1,837,562.00	
SFY 2019		\$ 501,345.00	<input checked="" type="radio"/> Actual <input type="radio"/> Estimated

Please provide a description of the amounts and methods used to calculate the base and, for 1994 and subsequent fiscal years, report the Federal and State expenditures for such services for services to pregnant women and women with dependent children as required by 42 U.S.C. §300x-22(b)(1). The base was set with the 1994 expenses amount of \$1,169,362. This amount represents the actual expenses for that year. For SFY 2016-2018 actual amounts expended on services provided to Pregnant Women with Depended Children in the amounts of: 1,438,727/1,837,562/501,345. These expenses represent only Federal funding. The methodology calculations for the SFY 2019 MOE are based on the following:

Number of persons served who were admitted in a period prior to the 12 month reporting period		4301																	
Number of persons served outside of the levels of care described on Table 10		0																	

Are the values reported in this table generated from a client based system with unique client identifiers? ☒ Yes ☐ No

0930-0168 Approved: 04/19/2019 Expires: 04/30/2022

**Footnotes:**

Data to complete this table was sourced from substance abuse providers who are contracted by DAABHS to provide treatment services utilizing block grant dollars. This does not include persons in the Medical Detox (Hospital Inpatient) program.

Last year when we requested the number of persons served who were admitted in a period prior to the 12 month reporting period, we reported an incorrect total. The correct total should have been 4790. There was an issue in the logic model being used in the previous year's data query.

## IV: Population and Services Reports

**Table 12 - SABG Early Intervention Services Regarding the Human Immunodeficiency Virus (EIS/HIV) in Designated States**

Expenditure Period Start Date: 7/1/2018      Expenditure Period End Date: 6/30/2019

Early Intervention Services for Human Immunodeficiency Virus (HIV)		
1. Number of SAPT HIV EIS programs funded in the State	Statewide: _____	Rural: _____
2. Total number of individuals tested through SAPT HIV EIS funded programs		
3. Total number of HIV tests conducted with SAPT HIV EIS funds		
4. Total number of tests that were positive for HIV		
5. Total number of individuals who prior to the 12-month reporting period were unaware of their HIV infection		
6. Total number of HIV-infected individuals who were diagnosed and referred into treatment and care during the 12-month reporting period		
Identify barriers, including State laws and regulations, that exist in carrying out HIV testing services:

## IV: Population and Services Reports

### Table 13 - Charitable Choice

Under Charitable Choice Provisions; Final Rule (42 CFR Part 54), states, local governments, and religious organizations, such as SAMHSA grant recipients, must: (1) ensure that religious organizations that are providers provide to all potential and actual program beneficiaries (services recipients) notice of their right to alternative services; (2) ensure that religious organizations that are providers refer program beneficiaries to alternative services; and (3) fund and/or provide alternative services. The term "alternative services" means services determined by the state to be accessible and comparable and provided within a reasonable period of time from another substance abuse provider ("alternative provider") to which the program beneficiary (services recipient) has no religious objection. The purpose of this table is to document how the state is complying with these provisions.

Expenditure Period Start Date: 7/1/2018      Expenditure Period End Date: 6/30/2019

#### Notice to Program Beneficiaries - Check all that apply:

- ☒ Used model notice provided in final regulation.
- ☐ Used notice developed by State (please attach a copy to the Report).
- ☐ State has disseminated notice to religious organizations that are providers.
- ☐ State requires these religious organizations to give notice to all potential beneficiaries.

#### Referrals to Alternative Services - Check all that apply:

- ☒ State has developed specific referral system for this requirement.
- ☐ State has incorporated this requirement into existing referral system(s).
- ☒ SAMHSA's Behavioral Health Treatment Locator is used to help identify providers.
- ☐ Other networks and information systems are used to help identify providers.
- ☐ State maintains record of referrals made by religious organizations that are providers.

0 Enter the total number of referrals to other substance abuse providers ("alternative providers") necessitated by religious objection, as defined above, made during the State fiscal year immediately preceding the federal fiscal year for which the state is applying for funds. Provide the total only. No information on specific referrals is required. If no alternative referrals were made, enter zero.

#### Provide a brief description (one paragraph) of any training for local governments and/or faith-based and/or community organizations that are providers on these requirements.

No training was requested during this reporting period. No training was given during this reporting period.

0930-0168 Approved: 04/19/2019 Expires: 04/30/2022

Number of clients abstinent from drugs [numerator]	478	1,175
All clients with non-missing values on at least one substance/frequency of use [denominator]	2,372	2,372
Percent of clients abstinent from drugs	20.2 %	49.5 %

#### B. DRUG ABSTINENCE AT DISCHARGE, AMONG DRUG USERS AT ADMISSION

Clients abstinent from Drug at discharge among clients using Drug at admission (regardless of primary problem)

	At Admission(T1)	At Discharge(T2)
Number of clients abstinent from drugs at discharge among clients using drugs at admission [numerator]		720
Number of clients using drugs at admission (records with at least one substance/frequency of use at admission and discharge [denominator]	1,894	
Percent of clients abstinent from drugs at discharge among clients using Drug at admission [#T2 / #T1 x 100]		38.0 %

#### C. DRUG ABSTINENCE AT DISCHARGE, AMONG DRUG ABSTINENT AT ADMISSION

Clients abstinent from Drug at discharge among clients abstinent from Drug at admission (regardless of primary problem)

	At Admission(T1)	At Discharge(T2)
Number of clients abstinent from drugs at discharge among clients abstinent from drugs at admission [numerator]		455
Number of clients abstinent from drugs at admission (records with at least one substance/frequency of use at admission and discharge [denominator]	478	
Percent of clients abstinent from drugs at discharge among clients abstinent from Drug at admission [#T2 / #T1 x 100]		95.2 %

#### Notes (for this level of care):

Number of CY 2018 admissions submitted:	4,157
Number of CY 2018 discharges submitted:	4,288
Number of CY 2018 discharges linked to an admission:	2,437
Number of linked discharges after exclusions (excludes: detox, hospital inpatient, opioid replacement clients; deaths; incarcerated):	2,372
Number of CY 2018 linked discharges eligible for this calculation (non-missing values):	2,372

## Long-term Residential(LR)

### A. DRUG ABSTINENCE AMONG ALL CLIENTS – CHANGE IN ABSTINENCE (From Admission to Discharge)

Drug Abstinence – Clients with no Drug use at admission vs. discharge, as a percent of all clients (regardless of primary problem)

	At Admission(T1)	At Discharge(T2)
Number of clients abstinent from drugs [numerator]	21	40
All clients with non-missing values on at least one substance/frequency of use [denominator]	78	78
Percent of clients abstinent from drugs	26.9 %	51.3 %

### B. DRUG ABSTINENCE AT DISCHARGE, AMONG DRUG USERS AT ADMISSION

Clients abstinent from Drug at discharge among clients using Drug at admission (regardless of primary problem)

	At Admission(T1)	At Discharge(T2)
Number of clients abstinent from drugs at discharge among clients using drugs at admission [numerator]		22
Number of clients using drugs at admission (records with at least one substance/frequency of use at admission and discharge [denominator]	57	
Percent of clients abstinent from drugs at discharge among clients using Drug at admission [#T2 / #T1 x 100]		38.6 %

### C. DRUG ABSTINENCE AT DISCHARGE, AMONG DRUG ABSTINENT AT ADMISSION

Clients abstinent from Drug at discharge among clients abstinent from Drug at admission (regardless of primary problem)

	At Admission(T1)	At Discharge(T2)
Number of clients abstinent from drugs at discharge among clients abstinent from drugs at admission [numerator]		18
Number of clients abstinent from drugs at admission (records with at least one substance/frequency of use at admission and discharge [denominator]	21	
Percent of clients abstinent from drugs at discharge among clients abstinent from Drug at admission [#T2 / #T1 x 100]		85.7 %

#### Notes (for this level of care):

Number of CY 2018 admissions submitted:	159
Number of CY 2018 discharges submitted:	158
Number of CY 2018 discharges linked to an admission:	78
Number of linked discharges after exclusions (excludes: detox, hospital inpatient, opioid replacement clients; deaths; incarcerated):	78
Number of CY 2018 linked discharges eligible for this calculation (non-missing values):	78

## Outpatient (OP)

**A. DRUG ABSTINENCE AMONG ALL CLIENTS – CHANGE IN ABSTINENCE (From Admission to Discharge)**

## V: Performance Indicators and Accomplishments

**TABLE 21 - SUBSTANCE ABUSE PREVENTION NOMS DOMAIN: REDUCED MORBIDITY - ABSTINENCE FROM DRUG USE/ALCOHOL USE MEASURE: 30-DAY USE**

A. Measure	B. Question/Response	C. Pre- populated Data	D. Supplemental Data, if any
1. 30-day Alcohol Use	<b>Source Survey Item:</b> NSDUH Questionnaire. "Think specifically about the past 30 days, that is, from [DATEFILL] through today. During the past 30 days, on how many days did you drink one or more drinks of an alcoholic beverage?[Response option: Write in a number between 0 and 30.] <b>Outcome Reported:</b> Percent who reported having used alcohol during the past 30 days.		
	Age 12 - 20 - CY 2016 - 2017	13.9	
	Age 21+ - CY 2016 - 2017	44.4	
2. 30-day Cigarette Use	<b>Source Survey Item:</b> NSDUH Questionnaire: "During the past 30 days, that is, since [DATEFILL], on how many days did you smoke part or all of a cigarette?[Response option: Write in a number between 0 and 30.] <b>Outcome Reported:</b> Percent who reported having smoked a cigarette during the past 30 days.		
	Age 12 - 17 - CY 2016 - 2017	6.1	
	Age 18+ - CY 2016 - 2017	26.5	
3. 30-day Use of Other Tobacco Products	<b>Survey Item:</b> NSDUH Questionnaire: "During the past 30 days, that is, since [DATEFILL], on how many days did you use [other tobacco products] <sup>[1]</sup> ?[Response option: Write in a number between 0 and 30.] <b>Outcome Reported:</b> Percent who reported having used a tobacco product other than cigarettes during the past 30 days, calculated by combining responses to questions about individual tobacco products (cigars, smokeless tobacco, pipe tobacco).		
	Age 12 - 17 - CY 2016 - 2017	6.2	
	Age 18+ - CY 2016 - 2017	10.5	
4. 30-day Use of Marijuana	<b>Source Survey Item:</b> NSDUH Questionnaire: "Think specifically about the past 30 days, from [DATEFILL] up to and including today. During the past 30 days, on how many days did you use marijuana or hashish?[Response option: Write in a number between 0 and 30.] <b>Outcome Reported:</b> Percent who reported having used marijuana or hashish during the past 30 days.		
	Age 12 - 17 - CY 2016 - 2017	5.4	
	Age 18+ - CY 2016 - 2017	8.9	
5. 30-day Use of Illegal Drugs Other Than Marijuana	<b>Source Survey Item:</b> NSDUH Questionnaire: "Think specifically about the past 30 days, from [DATEFILL] up to and including today. During the past 30 days, on how many days did you use [any other illegal drug] <sup>[2]</sup> <b>Outcome Reported:</b> Percent who reported having used illegal drugs other than marijuana or hashish during the past 30 days, calculated by combining responses to questions about individual drugs (heroin, cocaine, hallucinogens, inhalants, methamphetamine, and misuse of prescription drugs).		
	Age 12 - 17 - CY 2016 - 2017	4.2	

	Age 18+ - CY 2016 - 2017	4.2	
--	--------------------------	-----	--

[1]NSDUH asks separate questions for each tobacco product. The number provided combines responses to all questions about tobacco products other than cigarettes.

[2]NSDUH asks separate questions for each illegal drug. The number provided combines responses to all questions about illegal drugs other than marijuana or hashish.

**Table 29 - SUBSTANCE ABUSE PREVENTION NOMS DOMAIN: SOCIAL CONNECTEDNESS; MEASURE: FAMILY COMMUNICATIONS AROUND DRUG AND ALCOHOL USE**

A. Measure	B. Question/Response	C. Pre- populated Data	D. Supplemental Data, if any
1. Family Communications Around Drug and Alcohol Use (Youth)	<b>Source Survey Item:</b> NSDUH Questionnaire: "Now think about the past 12 months, that is, from [DATEFILL] through today. During the past 12 months, have you talked with at least one of your parents about the dangers of tobacco, alcohol, or drug use? By parents, we mean either your biological parents, adoptive parents, stepparents, or adult guardians, whether or not they live with you.?[Response options: Yes, No] <b>Outcome Reported:</b> Percent reporting having talked with a parent.		
	Age 12 - 17 - CY 2016 - 2017	55.1	
2. Family Communications Around Drug and Alcohol Use (Parents of children aged 12-17)	<b>Source Survey Item:</b> NSDUH Questionnaire: "During the past 12 months, how many times have you talked with your child about the dangers or problems associated with the use of tobacco, alcohol, or other drugs?^[1][Response options: 0 times, 1 to 2 times, a few times, many times] <b>Outcome Reported:</b> Percent of parents reporting that they have talked to their child.		
	Age 18+ - CY 2016 - 2017	82.8	

[1]NSDUH does not ask this question of all sampled parents. It is a validation question posed to parents of 12- to 17-year-old survey respondents. Therefore, the responses are not representative of the population of parents in a State. The sample sizes are often too small for valid reporting.

0930-0168 Approved: 04/19/2019 Expires: 04/30/2022

### General Questions Regarding Prevention NOMS Reporting

**Question 1:** Describe the data collection system you used to collect the NOMs data (e.g., MDS, DbB, KIT Solutions, manual process).

The Arkansas Prevention Web Infrastructure for Treatment Services (WITS) data system provides full functionality for tracking all prevention activities within the state and its regions of service areas. WITS contains a multi-dimensional prevention plan that allows contracted agencies to implement appropriate interventions. Implementation data is collected based on the workflow of the users, allowing for rapid but thorough collection of data required by the block grant and other required reporting mechanisms. All data collected can be used for subsequent evaluation, assessment, and planning activities.

**Question 2:** Describe how your State's data collection and reporting processes record a participant's race, specifically for participants who are more than one race.

Indicate whether the State added those participants to the number for each applicable racial category or whether the State added all those participants to the More Than One Race subcategory.

WITS collects racial data in the following categories: White/Caucasian, Black/African American, Native Hawaiian/Other Pacific Islander, Asian, American/Indian/Alaskan Native, Unknown/Other.

**Table 34 - Substance Abuse Prevention - Evidence-Based Programs and Strategies by Type of Intervention**

**Definition of Evidence-Based Programs and Strategies:** The guidance document for the Strategic Prevention Framework State Incentive Grant, **Identifying and Selecting Evidence-based Interventions**, provides the following definition for evidence-based programs:

- Inclusion in a Federal List or Registry of evidence-based interventions
- Being reported (with positive effects) in a peer-reviewed journal
- Documentation of effectiveness based on the following guidelines:
  - Guideline 1:  
The intervention is based on a theory of change that is documented in a clear logic or conceptual model; and
  - Guideline 2:  
The intervention is similar in content and structure to interventions that appear in registries and/or the peer-reviewed literature; and
  - Guideline 3:  
The intervention is supported by documentation that it has been effectively implemented in the past, and multiple times, in a manner attentive to Identifying and Selecting Evidence-Based Interventions scientific standards of evidence and with results that show a consistent pattern of credible and positive effects; and
  - Guideline 4:  
The intervention is reviewed and deemed appropriate by a panel of informed prevention experts that includes: well-qualified prevention researchers who are experienced in evaluating prevention interventions similar to those under review; local prevention practitioners; and key community leaders as appropriate, e.g., officials from law enforcement and education sectors or elders within indigenous cultures.

1. Describe the process the State will use to implement the guidelines included in the above definition.

Thirteen Regional Prevention Providers were funded for the duration of the grant period. Each provider was mandated to provide evidence based prevention programs while incorporating the CSAP strategies.

2. Describe how the State collected data on the number of programs and strategies. What is the source of the data?

The number of programs and strategies were entered into the system by the providers. The Arkansas Prevention WITS data reporting system.
