Definition of an FQHC "Core Service" Encounter

40-13-031-
1-22

A Federally Qualified Health Center (FQHC) "core service" encounter is a face-to-face contact between a patient of the FQHC and a physician, physician assistant, nurse practitioner, licensed clinical psychologist ~~or, licensed clinical social worker, licensed professional counselor, licensed mental health counselor, or licensed marriage and family therapist~~ and includes services and supplies incidental to the face-to-face contact.

- A. ~~Contacts with more than one of these health care professionals and multiple contacts with the same health care professional, which take place on the same day at a single location, constitute a single encounter except when the patient, after a first encounter, suffers illness or injury requiring additional diagnosis or treatment.~~
 - 1. ~~A patient of the FQHC may have a separate family planning encounter during the same visit to the FQHC for a core service encounter; however, a family planning visit is not covered separately when it takes place on the same day as a family planning surgical procedure.~~
 - 2. ~~An FQHC encounter is not covered separately on the same day as an obstetric or gynecologic procedure that the FQHC reports by CPT procedure code unless the encounter is for a different disorder or condition.~~
- B. ~~See Section 220.000 for information regarding FQHC core service encounter benefit limits.~~
